New Directions in Arthurian Studies Alan Lupack, 2002 **Arthurian Studies in Honour of P.J.C. Field** Bonnie Wheeler, 2004 Studies range over the whole field of Arthurian literature in Europe and North America with special focus on Malory and Morte Darthur Troubling Arthurian Histories James R. Simpson, 2007 Drawing on a range of approaches in cultural gender and literary studies this book presents Chr tien de Troyes's Erec et Enide as a daring and playful exploration of scandal terror and anxiety in court cultures Through an interdisciplinary reading it locates Erec et Enide the first surviving Arthurian romance in French in various contexts from broad cultural and historical questionings such as medieval vernacular modernity's engagement with the weight of its classical inheritance to the culturally fecund and politically turbulent histories of the families of Eleanor of Aquitaine and Henry II Plantagenet Where previous accounts of the tale have not uncommonly presented Chr tien's poem as a decorous resolution of tensions between dynastic marriage and fin amors between personal desire and social duty this reading sees these forces as in permanent and irresolvable tension the poem's key scenes haunted whether mischievously or traumatically by questions and skeletons from various closets *Arthurian Literature* Bart Besamusca, Frank Brandsma, Keith Busby, 2007 Essays demonstrating that Arthur belonged to the whole of Europe not just England The Cambridge Companion to the Arthurian Legend Elizabeth Archibald, Ad Putter, 2009-09-10 For more than a thousand years the adventures of King Arthur and his Knights of the Round Table have been retold across Europe They have inspired some of the most important works of European literature particularly in the medieval period the romances of Chr tien de Troyes Wolfram von Eschenbach's Parzival Sir Gawain and the Green Knight and Malory's Le Morte d Arthur In the nineteenth century interest in the Arthurian legend revived with Tennyson Wagner and Twain This Companion outlines the evolution of the legend from the earliest documentary sources to Spamalot and analyses how some of the major motifs of the legend have been passed down in both medieval and modern texts With a map of Arthur's Britain a chronology of key texts and a guide to further reading this volume itself will contribute to the continuing fascination with the King and his many legends

Handbook of Arthurian Romance Leah Tether, Johnny McFadyen, 2017-06-26 The renowned and illustrious tales of

King Arthur his knights and the Round Table pervade all European vernaculars as well as the Latin tradition Arthurian narrative material which had originally been transmitted in oral culture began to be inscribed regularly in the twelfth century developing from pseudo historical beginnings in the Latin chronicles of historians such as Geoffrey of Monmouth into masterful literary works like the romances of Chr tien de Troyes Evidently a big hit Arthur found himself being swiftly translated adapted and integrated into the literary traditions of almost every European vernacular during the thirteenth and fourteenth centuries This Handbook seeks to showcase the European character of Arthurian romance both past and present By working across national philological boundaries which in the past have tended to segregate the study of Arthurian romance according to language as well as by exploring primary texts from different vernaculars and the Latin tradition in conjunction with recent theoretical concepts and approaches this Handbook brings together a pioneering and more complete view of the specifically European context of Arthurian romance and promotes the more connected study of Arthurian literature across the entirety of its European context

King Arthur in Music Richard W. Barber, 2002 Between these two extremes the main body of the book deals largely with opera from Wagner s Tristan and Parsifal to Harrison Birtwistle s Sir Gawain and the Green Knight Some works have never been performed such as Hubert Parry s Guenever and Rutland Boughton s Arthurian cycle while others have only recently been staged or revived such as Isaac Albeniz s Merlin and Ernest Chausson s Le roi Artus both striking post Wagnerian works in very different styles Merlin

for instance beginning with a passage based on Gregorian chant The range of music is wider than one might at first suspect

The Manuscript and Meaning of Malory's Morte Darthur Kevin Sean Whetter, 2017 An examination of the rubricated letters in the Morte makes a convincing case for the design being by Malory himself The red ink names that decorate the Winchester manuscript of Malory s Morte Darthur are striking yet until now no one has asked why the rubrication exists This book explores the uniqueness and thematic significance of the physical layout of the Morte in its manuscript context arguing that the layout suggests and the correlations between manuscript design and narrative theme confirm that the striking arrangement is likely to have been the product of authorial design rather than something unusual dreamed up by patron scribe reader or printer The introduction offers a thorough account of not only the textual tradition of the Morte but also the ways in which scholarship to date has not done enough with the manuscript contexts of Malory s Arthuriad The book then goes on to establish the singularity and likely provenance of Winchester s rubrication of names In the second half of the study the author elucidates the narrative significance of this rubrication pattern outlining striking connections between manuscript layout and major narrative events characters and themes He suggests that the manuscript mise en page underscores Malory

s interest in human character and knighthood creating a memorializing function similar to the many inscribed tombs that dominate the landscape of the Morte s narrative pages Inshort Winchester s design creates a memorializing tomb for Arthurian chivalry K S WHETTER is Professor of English at Acadia University Canada Textual Traditions and Medieval Literary Culture Noëlle Phillips, Daniel Helbert, William Green, 2025-01-07 Essays illuminating how medieval cultures and identities have influenced later authors texts and communities How did medieval literary cultures shape and how were they shaped by their received textual traditions And how have cultures continued to respond to the inherited medieval tradition in later eras This volume explores these important questions considering how language and literature mediate the narration of history or culture especially the culture and identity of Britain In addressing the overarching concern of the conception of the past in the literatures of medieval Britain and the later reception of medieval texts the contributors essays respond to the diverse areas of medieval studies upon which Professor Echard s work has had significant influence They address amongst other subjects Arthuriana and Matter of Britain texts the literary interrelationships between medieval Wales and England medieval adaptations and interpretations of texts from classical antiquity the poet John Gower and medievalism in later centuries As Professor Echard has consistently demonstrated in these fields and as these essays overwhelmingly confirm the past is rarely if ever represented at face value in the cultural products that lay claim to it **The Book of Lancelot** Bart Besamusca, 2003 The book consists of five chapters The introductory chapter deals with the study of cyclicity the literary context of the Lancelot Compilation and the manuscript tradition In the following three chapters the ten romances are studied one by one Each analysis consists of two parts a description of the compiler s source and a survey of his interventions In the fifth and last chapter the Lancelot Compilation is characterized as a narrative cycle and compared with French English and German cycles The monograph concludes with an attempt to describe the essence of the compilation BOOK JACKET

Chivalry and the Ideals of Knighthood in France During the Hundred Years War Craig Taylor, 2013-10-10 Craig Taylor examines French debates on the martial ideals of chivalry and knighthood during the Hundred Years War **Texts and Territories** Hülya Taflı Düzgün, 2018-07-27 The writing of a literary text is as a retrospective explanation of what is happening in the present including social cultural religious and political events and is a deliberate re creation in actual practice The impact of immediate contemporary concerns places a literary text at least partly outside the author s control The author responds to a given context of historical and cultural incident that limits his freedom to invent adapt or explain Of these contemporary concerns the literary text is concerned first with how cultural practices and cultural changes helped to create it and second with what happens when specific historical events appear to model themselves on narrative structures and how those events can be given a conscious boost by narrative authors or patrons to make the parallels even closer History turns into literary narrative or literary narrative turns into history therefore literature and history live in each other s pockets The medieval texts that straddle the borderland between literature and history what has been called a medieval

fashion for pseudo history have been repeatedly commented on over the years However the broader implications of this phenomenon for the modern understanding of medieval concepts of the past and historiography have been under explored This volume engages with the history and the literary narrative in Medieval England through a variety of approaches to an interdisciplinary array of texts ranging from Latin Old French Anglo Norman to Middle English between the eleventh and fifteenth centuries

Malory's Library Ralph C. Norris, 2008 Ralph Norris collects the results of over 100 years of scholarship providing new discussions of the major sources of the eight tales recognised in the standard edition of Sir Thomas Malory's *Morte d'Arthur* He reveals much about how the work was created and about Malory himself

Music in Films on the Middle Ages John Haines, 2013-10-30 This book explores the role of music in the some five hundred feature length films on the Middle Ages produced between the late 1890s and the present day Haines focuses on the tension in these films between the surviving evidence for medieval music and the idiomatic tradition of cinematic music The latter is taken broadly as any musical sound occurring in a film from the clang of a bell off screen to a minstrel singing his song Medieval film music must be considered in the broader historical context of pre cinematic medievalisms and of medievalist cinema's main development in the course of the twentieth century as an American appropriation of European culture The book treats six pervasive moments that define the genre of medieval film the church tower bell the trumpet fanfare or horn call the music of banquets and courts the singing minstrel performances of Gregorian chant and the music that accompanies horse riding knights with each chapter visiting representative films as case studies These six signal musical moments that create a fundamental visual aural core central to making a film feel medieval to modern audiences originate in medievalist works predating cinema by some three centuries

The Legacy of Courtly Literature Deborah Nelson-Campbell, Rouben Cholakian, 2017-11-17 This fascinating volume examines the enduring influence of courtly tradition and courtly love particularly in contemporary popular culture The ten chapters explore topics including the impact of the medieval troubadour in modern love songs the legacy of figures such as Tristan Iseult Lancelot Guinevere and Merlin in modern film and literature and more generally how courtly and chivalric conceptions of love have shaped the Western world's conception of love loyalty honor and adultery throughout history and to this day
