**The Rural Primitive in American Popular Culture** Karen E. Hayden, 2020-11-24 The Rural Primitive in American Popular Culture All Too Familiar studies how the mythology of the primitive rural other became linked to evolutionary theories both biological and social that emerged in the mid nineteenth century This mythology fit well on the imaginary continuums of primitive to civilized rural to urban normative backward to forward thinking and regress versus progress In each chapter of The Rural Primitive Karen E Hayden uses popular cultural depictions of the rural primitive to illustrate the ways in which this trope was used to set poor rural whites apart from others Not only were they set apart however they were also set further down on the imaginary continuum of progress and regress of evolution and devolution Hayden argues that small rural tight knit communities where everyone knows everyone and everyone is related came to be an allegory for what will happen if society resists modernization and urbanization The message of the rural close knit community is clear degeneracy primitivism savagery and an overall devolution will result if groups are allowed to become too insular too close too familiar

**Studies in Urbanormativity** Alexander R. Thomas, Gregory M. Fulkerson, 2013-12-19 The world has been witnessing a long unfolding process of urbanization that not only has altered the structural basis of society in terms of political economy but has also symbolically relegated rural people and life to a secondary or deviant status through an ideology of urbanormativity Both structural and cultural changes rooted in urbanization are connected in complex ways to spatial arrangements that can be described in terms of inequality and uneven development Through a focus on localities Studies in Urbanormativity Rural Community in Urban Society examines the implications of urbanization and its corresponding ideology Urbanormativity justifies rural domination by holding urban life as the standard against which rural forms are compared and deemed to be irregular inferior or deviant Urban production as conceptualized in this book is inherently exploitative of rural resources natural social cultural and symbolic As this exploitation advances a wake of entropic conditions is left behind in the forms of degraded landscapes broken social institutions and denigrated communities cultures and identities Edited by Gregory M

Fulkerson and Alexander R Thomas *Studies in Urbanormativity* engages a topic on which scholars have been surprisingly silent Designed for advancing theory and practice the chapters provide new theoretical tools for understanding the complex relationship between the urban and rural While primarily intended for scholars and practitioners interested in rural life rural policy and community development the insights of this book will also be of interest to scholars studying various forms of cultural and social domination as well as identity politics *American Women's Fiction, 1790-1870* Barbara A.

White,2013-05-07 An annotated bibliography on women who wrote fiction in the US during the period 1790 1870 The first part is an annotated list of sources that discuss women s fiction in the period and women authors born before 1840 who published before 1870 The second part is an alphabetical list of the approximately 325 19th century writers who meet those criteria There are indexes by pseudonym editor and subject The sources provide information not only about the individual authors but also about the history of criticism and literary politics especially women s place in the American literary canon

*The Environmental Imagination* Lawrence Buell,1996-09-01 With Thoreau s *Walden* as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature **Narratives of Community** Roxanne Harde,2009-03-26 *Narratives of Community* draws together essays that examine short story sequences by women through the lenses of Sandra Zagarell s theoretical essay *Narrative of Community* Reading texts from countries around the world the collection s twenty two contributors expand scholarship on the genre as they employ diverse theoretical models to consider how female identity is negotiated in community or the roles of women in domestic social and literary community Grouped into four sections based on these examinations the essays demonstrate how Zagarell s theory can provide a point of reference for multiple approaches to women s writing as they read the semiotic systems of community While *narrative of community* provides an organizing principle behind this collection these essays offer critical approaches grounded in a wide variety of disciplines Zagarell contributes the collection s concluding essay in which she provides a series of reflections on literary and cultural representations of community on generic categorizations of community and on regionalism and *narrative of community* as she returns to theoretical ground she first broke almost twenty years ago Overall these essays bring their contributors and readers into a community engaged with a narrative genre that inspires and affords a rich and growing tradition of scholarship With *Narratives of Community* editor Roxanne Harde offers a wealth of critical essays on a wide variety of women s linked series of short stories essays that can be seen overall to explore the genre as a kind of meeting house of fictional form and meaning for an inclusive sororal community The book itself joins a growing critical community of monographs and essay collections that have been critically documenting the rise of the modern genre of the story cycle to a place second only to the novel But more than simply joining this critical venture *Narratives of Community* makes a major

contribution to studies in the short story feminist theory women's studies and genre theory Its introduction and essays should prove of enduring interest to scholars and critics in these fields as well as continue highly useful in the undergraduate and graduate classrooms Gerald Lynch Professor of English University of Ottawa The introduction by Prof Harde and the 20 essays in the book dialogue with Sandra Zagarell's proposed paradigm narratives of community which other scholars have called short story cycles or story sequences Zagarell's proposal organically blends a generic model with a thematic concern to explain how women writing community often turn to a particular narrative style that itself supports the literary creation of that community Harde and the volume contributors appropriate this brilliant and engaging proposal in the context of other crucial discussions of the genre notably Forest Ingram's germinal study J Gerald Kennedy's work and those by Robert Luscher Maggie Dunn and Anne Morris James Nagel Gerald Lynch and I'm honored to note my own study on Asian American short story cycles to expand the range of the critical discussion on the form The quality and diversity of the essays remind us that there is still much work that can be done in the area of genre studies The volume emphasizes an important caveat to one vital misconception that although writers like James Joyce or Sherwood Anderson are thought to be the precursors or even inventors of the form women's sequences by Sara Orne Jewett and Elizabeth Gaskell among others actually predate the work of the male writers This fact suggests that the development of the form as a genre that attends to specific perspectives or creative formulations of and by women needs to be considered in depth The temporal scope of the volume is therefore a vital contribution to scholarship on the form as is the diversity of the writers analyzed Indeed the examination of narratives by writers from different countries and that focus on characters from different time periods racial religious or ethnic communities and social class impels a multilayered reading of the texts that inevitably promotes a nuanced understanding of the project of each of the writers a project that connects issues of individuality and community in varied and often surprising ways The essays thus critically explore the notion of community in its myriad associations with the individual and as a crucial site not only for women's action upon the world but also for her creative endeavors The essays in the volume revisit familiar texts Naylor's *The Women of Brewster Place* Cisneros's *The House on Mango Street* Kingston's *The Woman Warrior* Welty's *The Golden Apples* Munro's *The Lives of Girls and Women* among others but offer new perspectives on the way form interacts with issues of women's communities and women creating community in these works Significantly it also offers readings on texts that have not been analyzed in detail from this perspective Gaskell's *Cranford* or Woolf's *A Haunted House* for example thus contributing to a continuing conversation about the ways women write The juxtaposition of the familiar and the new expand the paradigms of current criticism not only on the story cycle but also on women's writing in general Rocio Davis Professor of Literature University of Navarre Roxanne Harde's forthcoming volume *Narratives of Community Women's Short Story Sequences* provides an abundant collection of varied responses to Sandra Zagarell's longstanding call for further in depth exploration of the genre that Zagarell christened the narrative of community in her 1988 essay linking non novelistic

narrative form with representations of female experience As Harde observes such narratives of community overlap significantly with the growing canon of unified but discontinuous collections of autonomous stories that critics have variously labeled as the short story cycle sequence composite The essays in her collection examine a rich variety of such works by women extending the scholarship in this area Harde s ample collection of essays presents a concerted and diverse exploration of the implications of the short story sequence form as a representation of women s lives as part of and in conflict with membership in a community Overall Harde s volume is a welcome addition to current scholarship on the short story sequence bringing in a variety of new voices and perspectives to the community of scholars who have engaged in the exploration of this paradoxical evolving and increasingly popular genre Dr Luscher American Studies Jack Salzman,1990-05-25 This volume supplements the acclaimed three volume set published in 1986 and consists of an annotated listing of American Studies monographs published between 1984 and 1988 There are more than 6 000 descriptive entries in a wide range of categories anthropology and folklore art and architecture history literature music political science popular culture psychology religion science and technology and sociology *Breaking Boundaries* Sherrie A. Inness,Diana Royer,1997 *Shirley Jackson* Bernice M. Murphy,2005-10-19 Shirley Jackson was one of America s most prominent female writers of the 1950s Between 1948 and 1965 she published six novels one best selling story collection two popular volumes of her family chronicles and many stories which ranged from fairly conventional tales for the women s magazine market to the ambiguous allusive delicately sinister and more obviously literary stories that were closest to Jackson s heart and destined to end up in the more highbrow end of the market Most critical discussions of Jackson tend to focus on *The Lottery* and *The Haunting of Hill House* An author of such accomplishment and one so fully engaged with the pressures and preoccupations of postwar America merits fuller discussion To that end this collection of essays widens the scope of Jackson scholarship with new writing on such works as *The Road through the Wall* and *We Have Always Lived in the Castle* and topics ranging from Jackson s domestic fiction to ethics cosmology and eschatology The book also makes newly available some of the most significant Jackson scholarship published in the last two decades Susan Fenimore Cooper Rochelle Johnson,Daniel Patterson,2001 Collected here are detailed and diverse essays some that examine *Rural Hours* Susan Fenimore Cooper s most famous work and others that help establish Cooper as a major practitioner and theorist of American nature writing and as a socially engaged artist in many other genres These essays discuss Cooper s uses and manipulations of various literary conventions such as the picturesque the literary village sketch and domestic fiction and illuminate her positions on conservation religion and woman s place in society The engaging collection is divided into four sections The first features essays examining Cooper s work in light of her relationship with her famous literary father James Fenimore Cooper and their devotion to and cultivation of each other s careers The second focuses on Cooper s fascination with landscape and its relation to her environmental philosophies *Rural Hours* is the subject of the third section which presents new readings on its subtly

crafted authorial stance its two complementary conceptions of time and its re valuation of rural and scientific ways of knowing The collection concludes with four works whose insights into Cooper s views on gender domesticity and environmental philosophy grow out of comparisons with several contemporary women writers These remarkable essays by both established and emerging scholars of nineteenth century literature present new findings and insights into a writer who is being reintroduced to the fields of eco criticism and American literature *Folk Roots and Mythic Wings in Sarah Orne Jewett and Toni Morrison* Marilyn Sanders Mobley,1994-08-01 As women of different eras cultural backgrounds racial identities and places of origin Sarah Orne Jewett and Toni Morrison would appear to have little in common But in her study of these two seemingly dissimilar writers Marilyn Sanders Mobley finds elements that unite their fictional concerns Mobley argues that a folk aesthetic gives structure and meaning to Jewett s and Morrison s work and that a mythic impulse informs their ability to depict people and values that the dominant American culture has traditionally neglected Through close readings of Jewett s *Deephaven* *A White Heron* and *The Country of Pointed Firs* and of Morrison s *Song of Solomon* *Tar Baby* and *Beloved* she demonstrates that the fiction of both writers attempts to preserve and affirm cultural difference cultural knowledge and cultural memory Mobley s carefully argued study simultaneously offers important new insights into the works of two significant women writers and points out ways in which narrative may be used as a catalyst for cultural and social change [The Cumulative Book Index](#) ,1911 A world list of books in the English language *Swastika Nation* Arnie Bernstein,2013-09-03 A history of the German American Bund traces the efforts of Fritz Kuhn and his followers to overthrow the U S government with a fascist dictatorship tracing their private and public meetings the development of their own version of the SS and Hitler Youth and the politicians lawyer journalist and criminals who used respective means to counter the movement **Methods for Studying Video Games and Religion** Vít Šisler,Kerstin Radde-Antweiler,Xenia Zeiler,2017-11-28 Game studies has been an understudied area within the emerging field of digital media and religion Video games can reflect reject or reconfigure traditionally held religious ideas and often serve as sources for the production of religious practices and ideas This collection of essays presents a broad range of influential methodological approaches that illuminate how and why video games shape the construction of religious beliefs and practices and also situates such research within the wider discourse on how digital media intersect with the religious worlds of the 21st century Each chapter discusses a particular method and its theoretical background summarizes existing research and provides a practical case study that demonstrates how the method specifically contributes to the wider study of video games and religion Featuring contributions from leading and emerging scholars of religion and digital gaming this book will be an invaluable resource for scholars in the areas of digital culture new media religious studies and game studies across a wide range of disciplines [Discovering Modern Horror Fiction II](#) Darrell Schweitzer,1988-12-01 **Fiction Writing Master Class** William Cane,2015-02-18 Want to find your voice Learn from the best In your development as a writer you ve likely been told to
