**Kemalism in Turkish Politics** Sinan Ciddi,2009-01-13

This book is concerned with Turkey s political evolution the role of Kemalism and why a social democratic alternative has never fully developed Concentrating on the electoral weaknesses of the Turkish centre left represented by the Republican People s Party CHP Sinan Ciddi examines the roles of nationalism and the political establishment and the role of Kemalist ideology Established by Kemal Atatürk the CHP is seen to be the founding party of modern Turkey Kemalism sought to create a secular and democratic society based on the principles of republicanism populism secularism nationalism and revolutionism Although this leftist ideology became an integral part of Turkish politics by the early 1960s it has remained a comparatively weak representative movement Its strong ideological stance advocates an authoritarian and exclusionary position particularly in relation to matters such as multiculturalism and democratisation fuelling many debates concerning the role of religion and nationalism within Turkey and perpetuating elements of xenophobia and intolerance This book will be of interest to students of politics history and current affairs and of Turkish politics in particular *A History of Saudi Arabia* Madawi al-Rasheed,2002-07-11

Saudi Arabia is a wealthy and powerful country which wields influence in the West and across the Islamic world Yet it remains a closed society Its history in the twentieth century is dominated by the story of state formation After the collapse of the Ottoman Empire Ibn Sa'ud fought a long campaign to bring together a disparate people from across the Arabian peninsula In 1932 the Kingdom of Saudi Arabia was born Madawi al-Rasheed traces its extraordinary history from the age of emirates in the nineteenth century through the 1990 Gulf War to the present day She fuses chronology with analysis personal experience with oral histories and draws on local and foreign documents to illuminate the social and cultural life of the Saudis This is a rich and rewarding book which will be invaluable to students and to all those trying to understand the enigma of Saudi Arabia *Turkey* Meliha

Altunisik,Özlem Tür,2004-10-28 The authors put issues relevant to Turkey today such as consolidating democracy dealing with economic development issues improving its human rights record and its foreign policy in an historical context allowing comparisons with other late developers in the world and reflecting the complexity of Turkish political and socio economic

**A Most Masculine State** Madawi Al-Rasheed, 2013-03-15 Women in Saudi Arabia are often described as either victims of patriarchal religion and society or successful survivors of discrimination imposed on them by others Madawi Al Rasheed s new book goes beyond these conventional tropes to probe the historical political and religious forces that have across the years delayed and thwarted their emancipation The book demonstrates how under the patronage of the state and its religious nationalism women have become hostage to contradictory political projects that on the one hand demand female piety and on the other hand encourage modernity Drawing on state documents media sources and interviews with women from across Saudi society the book examines the intersection between gender religion and politics to explain these contradictions and to show that despite these restraints vibrant debates on the question of women are opening up as the struggle for recognition and equality finally gets under way

**The Gender Imperative** Betty A. Reardon, Asha Hans, 2012-12-06 The book asserts that human security derives from the experience and expectation of human well being which depends on four essential conditions a life sustaining environment the meeting of essential physical needs respect for the identity and dignity of persons and groups protection from avoidable harm and expectations of remedy from them The book demonstrates their integral relationship to human security Patriarchy being the germinal paradigm from which most major human institutions such as the state the economy organised religions and social relations have evolved the book argues that fundamental inequalities must be challenged for the sake of equality and security The fundamental point raised is that expectation of human well being is a continuing cause of armed conflict which constitutes a threat to peace and survival of all humanity and human security cannot exist within a militarised security system The editors of the book bring together 14 essays which critically examine militarised security in order to find human security pathways show ways in which to refute the dominant paradigm indicate a clear gender analysis that challenges the current system and suggests alternatives to militarised security With a mix of

female and male feminist scholar activists as contributors the book makes an important contribution to a new discourse on human security **International Relations Scholarship Around the World** Arlene B. Tickner, Ole Wæver, 2009-06-24
