New Intifada:

Late Modern Palestine Laura Junka-Aikio, 2015-10-14 Late Modern Palestine looks at the ways in which the relationship between the subject and representation and the political problematic of postcolonial late modernity is articulated in the context of the Palestinians struggle for liberation Junko Aikio provides a rich theoretically and empirically and in part also visually grounded study of the complex ways in which ordinary Palestinians face negotiate and resist multiple regimes of power and desire in the context of everyday life in the West Bank and Gaza The volume examines the early years of the second Palestinian uprising an intifada whose political status remains highly disputed The book examines the ways in which Palestinian politics during the second intifada has been entangled with the broader social and political changes that are associated with postcolonial late modernity It is argued that the dislocation between modern colonial and late modern postcolonial regimes of power and subjectivity greatly complicates the map of power and resistance in contemporary Palestine and also renders articulation of national unity and hegemonic political strategy increasingly unlikely This work will be of great interest to students and scholars of Middle East Studies Postcolonial Studies International Relations Political Sociology Critical Security Studies and Political Theory

El-Alami,2022-08-04 The essential guide that allows both sides to be heard Rabbi Professor Dan Cohn Sherbok presents the Israeli perspective while Dr Dawoud El Alami presents the Palestinian perspective Updated to cover the most recent events including the US recognition of Jerusalem as the capital of Israel and the May 2021 fighting in Gaza this bestselling introduction explores the history motivations and people behind the Palestine Israel conflict and assesses the prospects for peace after almost eighty years **Resisting Disappearance** Ather Zia,2019-06-26 In Kashmir s frigid winter a woman

leaves her door cracked open waiting for the return of her only son Every month in a public park in Srinagar a child remembers her father as she joins her mother in collective mourning The activist women who form the Association of the Parents of the Disappeared Persons APDP keep public attention focused on the 8 000 to 10 000 Kashmiri men disappeared by the Indian government forces since 1989 Surrounded by Indian troops international photojournalists and curious onlookers

the APDP activists cry lament and sing while holding photos and files documenting the lives of their disappeared loved ones In this radical departure from traditionally private rituals of mourning they create a spectacle of mourning that combats the government's threatening silence about the fates of their sons husbands and fathers Drawn from Ather Zia's ten years of engagement with the APDP as an anthropologist and fellow Kashmiri activist *Resisting Disappearance* follows mothers and half widows as they step boldly into courts military camps and morgues in search of their disappeared kin Through an amalgam of ethnography poetry and photography Zia illuminates how dynamics of gender and trauma in Kashmir have been transformed in the face of South Asia's longest running conflict providing profound insight into how Kashmiri women and men nurture a politics of resistance while facing increasing military violence under India

Military Occupations in the Age of Self-Determination James Gannon, 2008-07-30 This book offers a perspective decidedly different from that of the Bush Administration and its neoconservative supporters Since the United Nations embraced the right of national self determination in 1945 the historical odds have been unfavorable to great powers that impose military occupations on smaller nations This point is bolstered by the evidence from history and is particularly pertinent to the American occupation of Iraq where a robust insurgency has delayed projected successes by the administration and wartime planners Drawing on historical antecedents to the occupation of Iraq Gannon examines events such as the British Struggles in Palestine French enterprises in Algeria the Soviet debacle in Afghanistan and other instances in which occupying powers to demonstrate the struggles and failures of occupying powers in the face of determined insurgencies Since the United Nations adopted the principle of national self determination in 1945 great powers like the United States that occupy smaller nations like Iraq lose more often than not when confronted with credible insurgencies The evidence is taken from recent history the Zionist victory over Britain in Palestine and the defeats of France in Algeria America in Vietnam the Soviet Union in Afghanistan and Israel in Lebanon On the surface these outcomes seem perverse powerful modern armies brought down by rag tag rebels The explanation comes from the types of warfare fought Great powers are equipped to fight other great powers in great battles over large territory Rebels fight shadow wars neutralizing the fire power and mobility of the occupying army Insurgencies continue for years allowing political considerations to come into play including propaganda international pressure and the stream of dead and wounded returning from the war zone The home front turns against the war and new policymakers conclude that the nation's interests are best served by getting out History is not an exact science so the judgment here is expressed in probability not certainty witness the British defeat of insurgencies in Malaya and Kenya before giving up these colonies and the four decades old Israeli occupation and partial colonization of the West Bank

Popular Protest in Palestine Marwan Darweish, Andrew Rigby, 2015-07-20 This is a thoughtful and sensitive analysis of the history and significance of non violent civil resistance in the Palestinian national movement It shows how the thread of unarmed struggle has run through the history of Palestinian liberation from the establishment of the Israeli state through the Nakba and to the

present day Set in this historical context the book draws upon personal conversations and living history in order to focus on the contemporary movement in the Occupied Palestinian Territories By analysing this under emphasised dimension of the Palestinian struggle the authors argue that today the popular resistance movement especially in the West Bank is the most significant form of struggle against the ongoing occupation They also address the international dimensions of the struggle focusing in particular on the BDS campaign the role of Israeli and international solidarity activists and the changing forms of engagement developed by international agencies seeking to work on the roots of the conflict B/ordering Space Henk van Houtum,2017-03-02 In the wake of globalization numerous social scientists are turning to concepts of mobility fluidity and hybridity to characterize a presumed de territorialization and de bordering of contemporary social and economic relations This book brings together a select group of internationally renowned human geographers to explore the use of these concepts in relation to space place and territory In doing so they re situate the subject of borders as active socio spatial processes from a variety of theoretical perspectives The contributors link debates on borders to discussions within the wider sphere of cultural studies notably those addressing themes of migration post colonialism the formation of national regional identities and radical democratic practice The chapters focus on those discursive practices that constitute bordered geographical entities in the first instance through differentiated regimes of discourse The book thus transcends the narrower field of borderlands research by building bridges to other domains of enquiry within political and human geography **The Arab-Israeli Conflict** Richard Worth,2007 Outlines the history origins and different perspectives of the Arab Israeli conflict Provided by publisher Israel, the United States, and the War Against Hamas, July-August 2014 Professor Zaki Shalom,2019-02-20 Operation Protective Edge launched on July 8 2014 saw heavy fighting between the Israel Defense Forces and Hamas in Gaza Throughout the war US government media spokespersons confirmed Israels right to self defense against rockets and tunnels and condemned Hamas for initiating the conflict and its use of human shields But there is an important difference between confirmation and pro active demonstration at the highest political level The longstanding alliance between the United States and Israel has always been subject to the administration and president of the day In this case the Obama administrations support for Israels right to self defense was qualified and as a result the Israeli political leadership felt constrained in its ability to defeat Hamas militarily without risking criticism from the United States that would impact negatively on the special relationship In its role as ally the United States was careful not to apply direct political pressure on Israel However US government public criticisms relating to Gazan civilian loss of life damaged Israel on the international stage via harrowing media coverage surrounding the conflict The Federal Aviation Administration order to airlines to stop flying to Israel enhanced Hamas claim that it had inflicted a strategic defeat to the Zionist State For the last 70 years Israel has recognized that the United States is its primary strategic ally a principle initiated by Israels first Prime Minister and Defense Minister David Ben Gurion Political and military policies have to be directed to prevent a rift But the Protective Edge

experience has brought to the fore that in times of crisis Israel cannot rely on a special relationship to secure its safety and must of necessity possess the political will and military ability to defend itself and to take actions that may result in a strained relationship

Negotiating Outside the Law Raymond G. Helmick, 2004-09-20 In the summer of 2000 President Clinton Ehud Barak and Yasser Arafat came together to negotiate peace between Israel and Palestine It was a moment laden with hope that ended in infamous failure But why did it fail The Camp David negotiations made headlines around the world for many months but the real debates took place behind closed doors This book is his startling account of the arguments the relationships and the strategies that played out over the summer of 2000 Based on personal correspondence and position papers with all three leaders and a long personal association with Yasser Arafat and a whole series of Israeli Prime Ministers dating back to 1985 this book offers a unique account of the real reasons behind the failure of Camp David

Kashmir in the Aftermath of Partition Shahla Hussain, 2021-06-10 Historically grounded study of post partition Kashmir that places Kashmir and Kashmiris at the centre of the historical debate

Gender in Conflicts Ulrike Auga, 2006 Gender order is one domain in which claims to power are demarcated in societies based on a religious codex as well as in secular societies such as nation states Gender order especially becomes the area in which conflicts are carried out when a society experiences transition or clashes with another society At a time when Israel and Palestine face an escalation of their conflict and Germany is undergoing profound changes renowned scholars discuss the implications on the gender order from their individual vantage points The transdisciplinary articles focus on Gender in the context of Knowledge Arts and Representation Memory and Scripture Political Transition and Life Sciences
