Memories and Migrations Vicki Ruiz, John R. Chávez, 2008. Using region as a category of analysis, this pioneering collection explores the reciprocal relationship between Latinas and location. In highlighting the multiple ways in which Latinas grapple with their identity, the contributors significantly increase our understanding of how identity is created, negotiated, claimed, and remembered. This pathbreaking volume compares Latinas from a variety of backgrounds, moving the focus from Los Angeles, New York, and Santa Fe to Chicago, Tucson, and Philadelphia. *Memories and Migrations* embodies the constant negotiation and shaping of scholarship, which mirrors the fluidity of Latina migration, memory, and identity. Contributors include Gabriela F. Arredondo, John R. Chávez, Marisela R. Chávez, Yolanda Chávez, Leyva, María E. Montoya, Lydia R. Otero, Vicki L. Ruiz, Elizabeth Salas, Virginia Sánchez Korrol, and Carmen Teresa Whalen. *The Good Book* Jawara D. King, 2017-05-08. In every life situation, focus on all the positive outcomes. Destruction comes from focusing only on the negative. Whatever you focus on and give your attention to is what will manifest. Whatever you constantly think about is where you're focusing your energy. When you find yourself thinking in agreement with the dark side, direct your thinking to have your mind focus on anything positive. Ensure that your mind is nourishing you with its thoughts. By directing your thoughts, you can choose your mindstate. Never let your mind think whatever it wants. You will become the essence of your constant thought. Watch your mind.

Economic Inequality and Morality Richard Madsen, William M. Sullivan, 2019-08-27. Examining inequality through the lenses of moral traditions. Rising inequality has attracted a great deal of attention in recent years from scholars and politicians, but the moral dimensions of inequality tend to be ignored. Is inequality morally acceptable? Is it morally permissible to allow practices and systems that contribute to inequality? Is there an ethical obligation to try to alleviate inequality, and if so, who is obligated to take that action? This book addresses these and similar questions not through a single lens of morality but through a comparative study of ethical traditions, both secular and religious, Western and non-Western. The moral and political traditions considered are liberalism, Marxism, natural law, feminism, Buddhism, Judaism, Islam, Christianity, and Confucianism. The types of inequality examined include property, natural resources, products, wealth, income, jobs, and taxation. The editors open the book with an introduction providing information on contemporary dimensions of the problem of economic inequality, and the book concludes with a summary of the perspectives represented. *Economic Inequality and Morality* is unusual in that it addresses similarities and differences on the questions of inequality within and across moral traditions. Authors of the individual studies answer a common set of topic-related questions, giving the reader a broad

perspective on how a broad range of traditions view and respond to inequality Billboard ,1993-08-14 In its 114th year Billboard remains the world's premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends Internal Revenue Bulletin United States. Internal Revenue Service,1999 *Loving the Body* D. Hopkins,2004-12-09 In this book contributors argue that the Black Church must begin to address the significance of sexuality if it is to actually present liberation as a mode of existence that fully appreciates the body The contributors argue that we not only have to look at the Black Church in this discussion but also explore black Christianity in general **Yearbook of Experts, Authorities and Spoke** Mitchell P. Moors,Rossella Palomba,1995 Europe has seen spectacular changes in demographic trends over the past twenty years but as the analysis here shows despite common trends such as fertility decline there has been no appreciable convergence of values Volume I OUP 1995 presented the results of an international research program on attitudes to reproductive behavior and national policies on population issues in eight European countries This second volume provides comparative and systematic analysis of the studies with each chapter taking a central theme and applying it to the results obtained **Intercultural Communication** Martin S. Remland,Tricia S. Jones,Anita Foeman,Dolores Rafter Arévalo,2014-08-27 We live in an increasingly more globalized world where living and working with people of various cultures is a nearly everyday occurrence These interactions combined with ever growing opportunities for students to explore and study in foreign settings make it important to master effective ways to engage and learn from these experiences Intercultural Communication will engage readers interested in developing intercultural competence with an eye towards fostering diverse and vibrant communities that coexist peacefully The authors begin by defining competent communication and describing how it contributes to peaceful communities before considering how cultural differences relate to the effects of cultural frames emotions and nonverbal and verbal communication The second half of the book surveys how culture influences friendships families classrooms workplaces the media and our visits to cultures different from our own Recognizing the effects of these influences allows readers to take advantage of opportunities and overcome obstacles to more fully immerse themselves in a different way of life Each chapter offers various boxed inserts with important and entertaining insights to supplement topics and provide opportunities for discussion The Routledge Companion to Landscape Studies Peter Howard,Ian Thompson,Emma Waterton,Mick Atha,2013-02-15 Landscape is a vital synergistic concept which opens up ways of thinking about many of the problems which beset our contemporary world such as climate change social alienation environmental degradation loss of biodiversity and destruction of heritage As a concept landscape does not respect disciplinary boundaries Indeed many

academic disciplines have found the concept so important it has been used as a qualifier that delineates whole sub disciplines landscape ecology landscape planning landscape archaeology and so forth In other cases landscape studies progress under a broader banner such as heritage studies or cultural geography Yet it does not always mean the same thing in all of these contexts The Routledge Companion to Landscape Studies offers the first comprehensive attempt to explore research directions into the many uses and meanings of landscape The Companion contains thirty nine original contributions from leading scholars within the field which have been divided into four parts Experiencing Landscape Landscape Culture and Heritage Landscape Society and Justice and Design and Planning for Landscape Topics covered range from phenomenological approaches to landscape to the consideration of landscape as a repository of human culture from ideas of identity and belonging to issues of power and hegemony and from discussions of participatory planning and design to the call for new imaginaries in a time of global and environmental crisis Each contribution explores the future development of different conceptual and theoretical approaches as well as recent empirical contributions to knowledge and understanding Collectively they encourage dialogue across disciplinary barriers and reflection upon the implications of research findings for local national and international policy in relation to landscape This Companion provides up to date critical reviews of state of the art perspectives across this multifaceted field embracing disciplines such as anthropology archaeology cultural studies geography landscape planning landscape architecture countryside management forestry heritage studies ecology and fine art It serves as an invaluable point of reference for scholars researchers and graduate students alike engaging in the field of landscape studies

Under Solomon's Throne Morgan Y. Liu,2012-05-20 *Under Solomon's Throne* provides a rare ground level analysis of post Soviet Central Asia's social and political paradoxes by focusing on an urban ethnic community the Uzbeks in Osh Kyrgyzstan who have maintained visions of societal renewal throughout economic upheaval political discrimination and massive violence Morgan Liu illuminates many of the challenges facing Central Asia today by unpacking the predicament of Osh a city whose experience captures key political and cultural issues of the region as a whole Situated on the border of Uzbekistan and Kyrgyzstan newly independent republics that have followed increasingly divergent paths to reform their states and economies the city is subject to a Kyrgyz government but the majority of its population are ethnic Uzbeks Conflict between the two groups led to riots in 1990 and again in 2010 when thousands mostly ethnic Uzbeks were killed and nearly half a million more fled across the border into Uzbekistan While these tragic outbreaks of violence highlight communal tensions amid long term uncertainty a close examination of community life in the two decades between reveals the way Osh Uzbeks have created a sense of stability and belonging for themselves while occupying a postcolonial no man's land tied to two nation states but not fully accepted by either one The first ethnographic monograph based on extensive local language fieldwork in a Central Asian city this study examines the culturally specific ways that Osh Uzbeks are making sense of their

post Soviet dilemmas These practices reveal deep connections with Soviet and Islamic sensibilities and with everyday acts of dwelling in urban neighborhoods Osh Uzbeks engage the spaces of their city to shape their orientations relative to the wider world postsocialist transformations Islamic piety moral personhood and effective leadership Living in the shadow of Solomon's Throne the city's central mountain they envision and attempt to build a just social order
