

Plot Summary of "A Tale of Two Cities"

It is the year 1775, and England and France are undergoing a period of social upheaval and turmoil. The forces that are leading to revolution in France are colliding with a circle of people in England, causing their destinies to be irrevocably intertwined.

Lucie Manette, a young woman who has been raised as an orphan and a ward of Tellson's bank, learns that her father is alive and has recently been released from prison after eighteen years of unjust incarceration. She travels to the French suburb of Saint Antoine with Mr. Jarvis Lorry, a longtime Tellson's employee who had managed her father's affairs before his imprisonment. They find her father at the home of Ernest Defarge, a former domestic of Dr. Manette's who has housed the doctor since his release. Though her father is teetering on the brink of insanity, she solemnly vows that she will be true to him and devote her life to helping him recover himself. The family relocates to London, and Mr. Lorry becomes a friend of the family. After time, the doctor begins to recover and resumes his practice, and though he occasionally reverts back to his trance-like state, he slowly but surely returns to himself. Throughout the process, he and Lucie become extremely close.

After a period of five years, Lucie and her father are called to testify in the trial of Charles Darnay, a French citizen and London resident who has been accused of treason against England. Lucie testifies that she and her father saw Darnay on a ship bound for England the night she brought her father back home to London, and that he was conversing with other men and poring over documents. Though the testimony is damaging, Lucie notes that Darnay had been extremely kind and helpful to her in caring for her father on the ship, and she admits that she hopes her testimony has not doomed him. Darnay is ultimately saved when one witness' testimony hinges on the witness' certainty that he saw Darnay at a certain locale at a particular time. When Sydney Carton, a member of Darnay's defense team, removes his wig in court, it is revealed that he bears a striking resemblance to Darnay, thereby eroding the witness' credibility in terms of his certainty of having seen Charles Darnay himself. Darnay is ultimately freed, and this circumstance draws everyone involved closer together. Darnay, along with Mr. Lorry, becomes a friend of the family, and Sydney Carton becomes a regular visitor, if not an entirely welcome one--he is frequently drunk, often sullen, and coarse in his manner. Though the others complain of Carton's manner, one evening he confides in Lucie and tells her that while he has made nothing of his life and will not improve before he dies, he wants her to know that she has awakened feelings in him that he thought had been stamped out long ago. She asks if she can help him, and he says no, but that he wants her to know that he cares for her deeply. The group continues to visit regularly, and on one particular evening, Lucie notes that there is an ominous feeling in the air, as if she is able to forecast that grave danger and turmoil are in her future. But the family continues to be happy, and Lucie eventually marries Darnay, who tells her father that he has a secret that no one else knows. Dr. Manette asks Darnay to save the secret for the marriage morning, and Darnay does.
