Penang Chinese Commerce in the 19th Century Wong Yee Tuan, 2016-04-29 The story of Penang would be incomplete without the Big Five Hokkien families the Khoo the Cheah the Yeoh the Lim and the Tan It was the Big Five who played a preponderant role not only in transforming Penang into a regional entrepot and a business and financial base but also in reconfiguring maritime trading patterns and the business orientation of the region in the nineteenth century Departing from the colonial vantage point this book examines a web of transnational hybrid and fluid networks of the Big Five comprising of family relationship sworn brotherhood political alliance and business partnerships which linked Penang and its surrounding states western Malay states southwestern Siam southern Burma and the north and eastern coasts of Sumatra together to form one economically unified geographical region having inextricable links to China and India With these intertwining networks the Big Five succeeded in establishing their dominance in all the major enterprises trade shipping cash crop planting tin mining opium revenue farms which constituted the linchpin of Penang's and its region's economy By disentangling and dissecting this intricate web of networks this book reveals the rise and decline of the Hokkien mercantile families nearly century long economic ascendancy in Penang and its region e Wong Yee Tuan's study of the five clans of Penang represents a major breakthrough in the study of the Malaysian Chinese He documents an extremely important aspect of the nineteenth century Asian diaspora exposing the intricate links between families businesses secret societies revenue farms and public life of some of the key groups of Chinese in Penang and northern Malaya The book weaves together the various strands of overseas Chinese life not only in Malaya but also in the Netherlands Indies Siam and China Most importantly it shows the process by which the Chinese leaders gained political economic and social power as well as the way by which these powers were lost e Carl A Trocki Emeritus Professor Asian Studies Queensland University of Technology Australiae This volume can be situated within a growing historiographical current whereby regional studies of connections networks and interactions are gradually transcending national histories Incorporating commercial ethnic and social elements the history presented can be concurrently seen as a business case study a sociological exploration a political economy treatise and an inquiry into Hokkien networking Wong Yee Tuan is to be congratulated on this signal study in how local national and broader regional histories can be integrated e Geoffrey Wade ANU College of Asia and the Pacific Australian National Universitye By aligning family socio political and business interests the leading Penang Hokkien clans centralized their home port as a hub of regional commercial networks thus successfully extending the trading colonies of Chinese diaspora westward to the edge of the Indian Ocean Wong has fastidiously researched and compellingly proven this with a clear eye for relevant cross cultural collaborations with indigenous and international actors The important legacy of the Big Five clanhouses is now firmly embedded in the George Town World Heritage Site inciting further inquiry into the cultural formation of collective entrepreneurship in Southeast Asia e Khoo Salma Nasution Heritage Advocate and Local Historian

Penang **Bulletin on Narcotics** ,1949 **Opium to Java** James Robert Rush,2007 Opium smoking was a widespread social custom in nineteenth century Java and commercial trade in opium had far reaching economic and political implications As in many of the Dutch territories in the Indonesian archipelago the drug was imported from elsewhere and sold throughout the island under a government monopoly a system of revenue farms These monopoly franchises were regulated by the government and operated by members of Java s Chinese elite who were frequently also local officials appointed by the Dutch The farms thus helped support large Chinese patronage networks that vied for control of rural markets throughout Java James Rush explains the workings of the opium farm system during its mature years by measuring the social economic and political reach of these monopolies within the Dutch dominated colonial society His analysis of the opium farm incorporates the social history of opium smoking in Java and of the Chinese officer elite that dominated not only the opium farming but also the island s Chinese community and much of its commercial economy He describes the relations among the various classes of Chinese and Javanese as well as the relation of the Chinese elite to the Dutch and he traces the political interplay that smuggling and the black market stimulated among all these elements An important contribution to the social and political history of Southeast Asia and now brought back to life as a member of Equinox Publishing s Classic Indonesia series this book gives a new dimension to our knowledge of nineteenth century Javanese society and the processes of social control and economic dominance during the colonial period JAMES R RUSH is a historian of modern Southeast Asia whose other works include *The Last Tree Reclaiming the Environment in Tropical Asia* *Java A Travellers Anthology* and several volumes of contemporary Asian biography in the Ramon Magsaysay Awards series His is associate professor of history at Arizona State University **Drug Abuse and Human Rights: Cases and Commentaries (UM Press)** Sarina Mohamed, This is a groundbreaking book that offers key stakeholders policy makers and professionals a much needed resource to understand the need to provide effective and humane treatment of drug users with drug addiction problems drug dependants who fall within the criminal justice system in Malaysia This book begins with a narrative description of the historical evolution of drug abuse in Malaysia beginning from the opium trade in the 18th century with the exodus of the Chinese immigrants to Southeast Asia and Malaysia as labourers in the late 19th century which brought along the problem of opium addiction to the Malay Peninsula to the 1970s which saw a transitional change from opium addiction to heroin and the rise in amphetamine type stimulant ATS abuse in Malaysia as the 21st century drug problem It then provides an overview of Malaysia s prohibition approach by waging the rhetorical War on Drugs including the development of Malaysia s punitive drug laws and the recent paradigm shift towards a more rehabilitative approach in drug treatment Over the years a considerable number of High Court cases have challenged the legality of the detention of drug dependants for treatment at Puspen via a court mandated order This book further presents a commentary that is founded upon the legal challenges brought about by such unlawful detention illustrated by judicial decisions of Malaysian judges regarding the constitutional rights of the drug

Greenfield, Peter Reuter, 2009-04-10 Heroin is universally considered the world's most harmful illegal drug This is due not only to the damaging effects of the drug itself but also to the spread of AIDS tied to its use Burgeoning illegal mass consumption in the 1960s and 1970s has given rise to a global market for heroin and other opiates of nearly 16 million users The production and trafficking of opiates have caused crime disease and social distress throughout the world leading many nations to invest billions of dollars trying to suppress the industry The failure of their efforts has become a central policy concern Can the world heroin supply actually be cut and with what consequences The result of a five year long research project involving extensive fieldwork in six Asian countries Colombia and Turkey this book is the first systematic analysis of the contemporary world heroin market delving into its development and structure its participants and its socio economic impact It provides a sound and comprehensive empirical base for concluding that there is little opportunity to shrink the global supply of heroin in the long term and explains why production is concentrated in a handful of countries and is likely to remain that way On the basis of these findings the authors identify a key set of policy

opportunities largely local and make suggestions for leveraging them This book also offers new insights into market conditions in India Tajikistan and other countries that have been greatly harmed by the production and trafficking of illegal opiates A deft integration of economics sociology history and policy analysis The World Heroin Market provides a rigorous and vital look into the complex and resilient global heroin trade *The Department of State Bulletin* ,1947 **Imperial Andamans** A.
