

Radical Collage 4

Aaron Lecklider

Radical Collage 4:

Collage of Myself Matt Miller, 2010-12-01 Collage of Myself presents a groundbreaking account of the creative story behind America's most celebrated collection of poems. In the first book-length study of Walt Whitman's journals and manuscripts, Matt Miller demonstrates that until approximately 1854, only a single year before the first publication of *Leaves of Grass*, Whitman, who once speculated that *Leaves* would be a novel or a play, was unaware that his ambitions would assume the form of poetry at all. Collage of Myself details Whitman's discovery of a remarkable new creative process that allowed him to transform a diverse array of texts into poems such as *Song of Myself* and *The Sleepers*. Whitman embraced an art of fragments that encouraged him to cut and paste his lines into ever-evolving forms based on what he called "spinal ideas." This approach to language, Miller argues, represents the first major use in the Western arts of the technique later known as collage, an observation with significant ramifications for our reception of subsequent artists and writers. Long before the modernists, Whitman integrated found text and ready-made language into a revolutionary formulation of artistic production that anticipates much of what is exciting about modern and postmodern art. Using the Walt Whitman Archive's collection of digital images to study what were previously scattered and inaccessible manuscript pages, Miller provides a breakthrough in our understanding of the great American literary icon.

Cyberpop Sidney Eve Matrix, 2013-05-13 Cyberpop is an analysis of cyberculture and its popular cultural productions. The study begins with a Foucaultian model of cyberculture as a discursive formation and explains how some key concepts such as virtuality, speed, and Connectivity operate as a conceptual architecture network linking technologies to information and individual subjects. The chapters then each focus on a particular cyberfiguration, including Hollywood films *GATTACA*, The Matrix, popular literature William Gibson's *Neuromancer*, Scott Westerfeld's *Polymorph*, advertising for digital products and services, Apple Computer's 1984 Macintosh campaign, AT&T's mLife campaign, digital artworks including virtual females such as Motorola's Mya and Elite Modeling Agency's Webbie Tookay, and work by visual artist Daniel Lee for Microsoft's Evolution campaign and video games *Tomb Raider*. Each close reading illustrates the ways in which representations of digital lifestyles and identities, which typically fetishize computers and celebrate a high-tech aesthetic, encourage participation in digital capitalism and commodity cyberculture. Matrix argues that popular representations of cyberculture often function as forms of social criticism that creatively inspire audiences to think differently. In the words of Mac advertising about the consequences of the digitalization of everyday life.

Love's Next Meeting Aaron Lecklider, 2023-05-02 How queerness and radical politics intersected earlier than you thought. Well, before Stonewall, a broad cross-section of sexual dissidents took advantage of their space on the margins of American society to throw themselves into leftist campaigns. Sensitive already to sexual marginalization, they also saw how class inequality was exacerbated by the Great Depression, witnessing the terrible bread lines and bread riots of the era. They participated in radical labor organizing, sympathized like many with the early prewar Soviet Union, contributed to the Republicans in the

Spanish Civil War opposed US police and state harassment fought racial discrimination and aligned themselves with the dispossessed Whether they were themselves straight gay or otherwise queer they brought sexual dissidence and radicalism into conversation at the height of the Left's influence on American culture Combining rich archival research with inventive analysis of art and literature Love's Next Meeting explores the relationship between homosexuality and the Left in American culture between 1920 and 1960 Aaron S Lecklider uncovers a lively cast of individuals and dynamic expressive works revealing remarkably progressive engagement with homosexuality among radicals workers and the poor Leftists connected sexual dissidence with radical gender politics antiracism and challenges to censorship and obscenity laws through the 1920s and 1930s In the process a wide array of activists organizers artists and writers laid the foundation for a radical movement through which homosexual lives and experiences were given shape and new political identities were forged Love's Next Meeting cuts to the heart of some of the biggest questions in American history questions about socialism about sexuality about the supposed clash still making headlines today between leftist politics and identity politics What emerges is a dramatic sexually vibrant story of the shared struggles for liberation across the twentieth century

The Wiley-Blackwell History of American Film, 4 Volume Set Cynthia Lucia, Roy Grundmann, Art Simon, 2011-12-12 Comprising over 90 essays and richly illustrated with over 200 images the Wiley Blackwell History of American Film provides a chronological portrait of American film history from its origins to the present day Taken as a whole the essays in this collection represent a comprehensive and nuanced overview of American film history from the intersecting perspectives of industry audiences aesthetics culture politics issues and ideology Unabashedly ambitious deeply historical and unprecedented in its multifaceted examination of film history this collection offers you Over 90 original essays written by an international cast of film scholars Discussions of the industrial and institutional components of film history including multiple modes of production distribution and marketing Investigations into the political social and economic factors that informed industry change and framed the reception of films Engaging close readings and in depth analysis of canonical and non canonical films Profiles of essential industry figures major directors stars and producers along with important figures outside the industrial mainstream An exploration of the history of film criticism and culture and central issues in American film historiography The most authoritative collection of fresh investigations available in one state of the art resource Selected by Choice as a 2013 Outstanding Academic Title

Musicking in Twentieth-Century Europe Klaus Nathaus, Martin Rempe, 2020-12-16 Music has gained the increasing attention of historians Research has branched out to explore music related topics including creative labor economic histories of music production the social and political uses of music and musical globalization This handbook both covers the history of music in Europe and probes its role for the making of Europe during a long twentieth century It offers concise guidance to key historical trends as well as the most important research on central topics within the field

Lenin, Religion, and Theology R. Boer, 2015-12-11 Based on a careful reading of Lenin's Collected Works Roland

Boer pursues the implications for linking Lenin with religion and theology and seeks to bring Lenin into recent debates over the intersections between theology and the Left between the Bible and political thought *Creative Writing and the Radical* Nigel Krauth, 2016-07-18 The rise of digital publishing and the ebook has opened up an array of possibilities for the writer working with innovation in mind *Creative Writing and the Radical* uses an examination of how experimental writers in the past have explored the possibilities of multimodal writing to theorise the nature of writing fiction in the future It is clear that experimental writers rehearsed for technological advances long before they were invented Through an in depth study of writers and their motivations challenges and solutions the author explores the shifts creative writing teachers and students will need to make in order to adapt to a new era of fiction writing and reading *Oxygen Radicals and Lung Injury*, 1994

The Poetry of Saying Robert Sheppard, 2005-01-01 *The Poetry of Saying* unearths a secret history of fifty years of experimental British verse revealing and illuminating the daring work of British poets who have spent a half century rewriting the rules of English poetry Poet Robert Sheppard considers individual poets such as Roy Fisher and Lee Harwood as well as the role of poetry magazines and the Poetry Society Sheppard's position at the center of the 1950s British Poetry Revival enables him to offer an insider's commentary on the social political and historical background of this particularly fertile and exciting period in British poetry ***The Cambridge Companion to the Concerto*** Simon P. Keefe, 2005-10-27 A rare volume dedicated entirely to scholarship on the genre of the concerto
