Radical Papers Readings In Education:

The Radical Papers: Readings in Education Harold W. Sobel, Arthur E. Salz, 1972 **Reconstructing Education** Greta Hofman Nemiroff, 1992-05-30 Drawing on elements of progressive education existential theory feminist pedagogy and values education critical humanism combines the holistic psychological concerns of humanistic education with the sociopolitical contextualization of critical pedagogy Developed over the past seventeen years in one of North America s most experimental postsecondary programs The New School of Dawson College this theory and practice responds to both the personal and the political needs of students Reconstructing Education is at once a review of this century s educational theories an account of the work at the school and an empowering illustration of the way in which schools can incite the motivation of students and encourage them to become active members in a truly democratic society The case study chapters on The New School give concrete examples of how this philosophy is manifested in the school s methodology structure and pedagogy and draws heavily on the written work of teachers and students To formulate a similar approach for a specific school it is essential to combine a rigorous analysis of existing educational models with the dialectical process of creating and recreating a new model defined by the articulation of both learners and teachers affective cognitive and socially constructed needs This is a valuable book for anyone concerned with alternative approaches to education and for courses on educational theory or the philosophy of education Franco Basaglia's Revolution Carlo Guareschi, Valeria Bizzari, 2025-02-18 This book explores the importance of the work of Franco Basaglia a pioneer in the democratic psychiatry movement Using a multidisciplinary approach combining philosophy and psychology this volume seeks to illuminate the past and create a clearer picture of Basaglia s impact in conceptualizing modern psychiatric care It reviews the contemporary status of care and offers new insights for a critical evaluation of care that takes the psychiatric revolution to a new level Highlights Basaglia s diagnostic and clinical practice Employs a multi disciplinary approach Joins phenomenology and critical theory *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1975 **Education and Play** Barbara Dinham, Michael Norton, 1977 **The Publishers' Trade List Annual** , 1977 **Resources in Education** , 2001-04 **Intellect** , 1974-10 *Paperbound Book Guide for Colleges* , 1974 Third World Education Anthony R. Welch, 2002-05-03 This book debunks the argument that quality in education can only be achieved by limiting or trading off equality The quality of schooling is a major issue for Third World nations across the globe However there is no single measure which is universally accepted Whether it is as some economists might argue an issue of the number of desks per classroom or one of national sovereignty is widely disputed Defining equality in education becomes increasingly difficult in an era of globalization in which there exists a wide gap between rich and poor both within and between nations In the context of an international move towards New Right politics and neo liberal economic ideologies both the quality and equality of education are imperiled This book argues that any worthy definition of quality education must include the interests and participation of the underprivileged
