Radical Sociologists and the Movement Martin J. Murray, Rhonda F. Levine, Martin Oppenheimer, 1991 *Radical Sociologists and the Movement* Martin Oppenheimer, Martin J. Murray, 1991 As part of the current rediscovery of the Sixties this book brings together autobiographical essays by individuals whose radicalism developed in and around the academic discipline of sociology The contributors expose the roots of their radical consciousness by examining interrelated personal and historical themes how the socioeconomic and political conditions of the 1960s acted as an intellectual incubator that served to radicalize a significant number of sociologists and how critical radical Marxist and humanist sociology developed in the context of this era Aiming to redefine sociology to correspond to social reality these academics broke from the institutional establishment and turned to radical interpretations of the persistence of racial and gender inequality power relations the permanence of privilege and poverty the causes and consequences of war among other topics Author note Martin Oppenheimer is Associate Professor of Sociology at Rutgers University Martin J Murray is Associate Professor of Sociology at State University of New York Binghamton Rhonda F Levine is Associate Professor of Sociology at Colgate University *Radical Sociologists and the Movement* Martin Oppenheimer, Martin J. Marginality and Dissent in Twentieth-Century American Sociology John F. Galliher, James M. Galliher, 1995-07-01 This book is a biography of the husband and wife team that is largely responsible for developing social problems and social deviance as areas of research Politics in the discipline of sociology is also examined **The Lost Promise** Ellen Schrecker, 2024-05-31 The Lost Promise is a magisterial examination of the turmoil that rocked American universities in the 1960s with a unique focus on the complex roles played by professors as well as students The 1950s through the early 1970s are widely seen as American academia's golden age when universities well funded and viewed as essential for national security economic growth and social mobility embraced an egalitarian mission Swelling in size schools attracted new types of students and professors including radicals who challenged their institutions calcified traditions But that halcyon moment soon came to a painful and confusing end with consequences that still afflict the halls of ivy In The Lost Promise Ellen Schrecker our foremost historian of both the McCarthy era and the modern American university delivers a far reaching examination of how and why it happened Schrecker illuminates how US universities explosive growth intersected with the turmoil of the 1960s fomenting an unprecedented crisis where dissent over racial inequality and the Vietnam War erupted into direct action Torn by internal power struggles and demonized by conservative voices higher education never fully recovered resulting in decades of underfunding and today's woefully inequitable system As Schrecker's magisterial history makes blazingly clear the complex blend of troubles that disrupted the university in that pivotal period haunts the ivory tower to this day **Sociology for Human Rights** David Brunnsma, Keri Iyall Smith, Brian Gran, 2019-07-19 As sociologists deepen their examinations of human rights in their teaching research and thinking it is essential that such work is conducted in a

manner that is both mindful and critical of the knowledge we are building upon in sociology and human rights As the authors of this volume reveal creating sociological knowledge that examines human rights for the expansion of human rights is something that sociologists are well equipped to undertake whether through the use of mathematics comparative historical analysis the study of emotions conversations or social psychology In these chapters you will find the roots of the study of human rights deep within sociological research and thinking as well as emerging techniques that will push the discipline as it seeks to expand understanding of human rights together with so many other aspects of the social condition

Movements for Human Rights David L. Brunsma, Keri Iyall Smith, Brian Gran, 2016-09-07 How do people work together to advance human rights Do people form groups to prevent human rights from being enforced Why In what ways do circumstances matter to the work of individuals collectively working to shape human rights practices Human society is made of individuals within contexts tectonic plates not of the earth's crust but of groups and individuals who scrape and shift as we bump along competing for scarce resources and getting along These movements large and small are the products of actions individuals take in communities within families and legal structures These individuals are able to live longer yet continue to remain vulnerable to dangers arising from the environment substances struggles for power and a failure to understand that in most ways we are the same as our neighbors Yet it is because we live together in layers of diverse communities that we want our ability to speak to be unhindered by others use spirituality to help us understand ourselves and others possess a space and objects that are ours alone and join with groups that share our values and interests including circumstances where we do not know who our fellow neighbor is For this reason sociologists have identified the importance of movements and change in human societies When we collaborate in groups individuals can change the contours of their daily lives Within this book you will find the building blocks for human rights in our communities To understand why sometimes we enjoy human rights and other times we experience vulnerability and risk sociologists seek to understand the individual within her context Bringing together prominent sociologists to grapple with these questions **Movements for Human Rights Locally and Globally** offers insights into the ways that people move for and against human rights

The Oxford Handbook of Sociology for Social Justice Corey Dolgon, 2024 The Oxford Handbook of Sociology for Social Justice presents an alternative approach to sociological research that begins with community engagement and political commitments focused on social justice The collection includes international case studies of students and faculty partnered with labor unions farmers and farmworkers activists Of many stripes and others who not only use their social science skills to support social justice work but also recognize how these movements impact our understanding of sociology to begin with

The Death of White Sociology Joyce A. Ladner, 1998 *Rhyming Hope and History* David Croteau, William Hoynes, Charlotte Ryan, 2005 *Rhyming Hope and History* exposes the frayed relations between activism and social movement scholarship and examines the causes and consequences of this disconnect between theory and practice Both scholars and activists explore solutions weighing the

promise and perils of engaged theory and the barriers to meaningful collaboration This volume asserts that partnerships among scholars and activists benefit both academic inquiry and social change efforts Contributors Kevin M Carragee Suffolk U Catherine Corrigall Brown U of California Irvine Myra Marx Ferree U of Wisconsin Madison Richard Flacks U of California Santa Barbara Adria D Goodson Richard Healy and Sandra Hinson Grassroots Policy Project David Meyer U of California Irvine Cynthia Peters Worker Education Program of the Service Employees International Union Local 2020 Barbara Risan North Carolina State U Robert J S Ross Clark U Leila J Rupp U of California Santa Barbara Cassie Schwerner Schott Foundation Valerie Sperling Clark U David A Snow U of California Irvine Verta Taylor U of California Santa Barbara David Croteau is formerly associate professor of sociology and anthropology at Virginia Commonwealth University William Hoynes is professor of sociology and director of media studies at Vassar College Charlotte Ryan is codirector of the Media Research and Action Project at Boston College William A Gamson is professor of sociology at Boston College
