Cambodia and Vietnam advocating against the Xayaburi hydropower dam on the Mekong River the book explores the intricate interactions of formal and informal rules and norms and how they influence advocacy strategies A framework for analysis is proposed which serves as a tool for analysis by civil society actors The author generates fresh insights into the way in which opportunities and barriers are created for NGOs to influence state centric decision making processes The book also discusses Mekong riparian states negotiation process over the Xayaburi hydropower dam in detail providing an analysis of the Mekong River s governance under the 1995 Mekong Agreement The book concludes by suggesting ways to improve the engagement of civil society actors in the governance of transboundary rivers and development projects
