Fredriksen, 2001-08-01 In depth descriptions and photographs of the aircraft of 21 nations presented with a unique human dimension that goes behind the machines to the people involved Invaluable for specialists accessible to enthusiasts International Warbirds An Illustrated Guide to World Military Aircraft 1914 2000 puts the most legendary fighter aircraft of the 20th century developed outside the United States on vivid display It offers 336 illustrated biographies of the most significant warplanes used in squadron service from World War I to the Balkan conflict including numerous models from Great Britain France Russia and Japan as well as notable machines from Israel Canada China India Brazil and other nations Entries span the history and scope of military aircraft from bombers and fighters to transports trainers reconnaissance craft sea planes and helicopters with each capsule history combining nuts and bolts technical data with the story of that model s evolution and use Together these portraits offer an exciting well researched tribute to visionary designers and builders as well as courageous pilots and crews across the globe and tell a vivid tale of how air power became such a decisive factor in modern warfare Soviet Lend-Lease Fighter Aces of World War 2 George Mellinger, 2012-10-20 The Soviet government tried to minimize the importance of Lend lease fighters well into the 1980s Only in recent years have these pilots felt free to admit what they flew and now the fascinating story of these men can emerge By the end of 1941 the Soviet Union was near collapse and its air force almost annihilated leaving large numbers of surviving pilots with no aircraft to fly To help prevent this collapse the UK eventually supplied a total of 4300 Hurricanes and Spitfires to the USSR After the United States entered the war the Americans extended Lend lease to include direct supply to the Soviets as well as the British and among the aircraft sent were almost 10 000 fighters Although the aircraft were outdated and often unsuitable to Russian conditions they served when they were needed and this book tells how a number of Russian pilots became Heroes of the Soviet Union flying Lend lease aircraft **Soviet Aces of World War 2** Hugh Morgan, 2013-01-20 At the time of publication no single volume in English had ever appeared in the West dealing with this intriguing subject area Once restrictions relaxed in the former Soviet Union the records of their elite pilots deeds detailed in this book came to light Although initially equipped with very poor aircraft and robbed of effective leadership thanks as much to Stalin s purges in the late 1930s as to the efforts of the Luftwaffe Soviet fighter pilots soon turned the tables through the use of both lend lease aircraft like the Hurricane Spitfire P 39 and P 40 and home grown machines like the MiG 3 LaGG 3 5 Lavochkin La 5 7 9 and the Yak 1 3 **Lend-Lease Aircraft in World War II** Arthur Percy, 1996 Lend Lease Aircraft In WWII Percy Full details of UK Lend Lease contracts for aircraft are revealed as is an insight into the massive organization necessary to fly the war machines to the battle fronts Included are the stories of the ferry pilots the ferry routes they flew and the aircraft involved Contains a complete check list

History of the Mediterranean Air War, 1940-1945 Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies *Beaufighter Aces of World War 2* Andrew Thomas, 2013-02-20 Entering service at the end of the Battle of Britain the pugnacious Bristol Beaufighter was deployed in numbers by Fighter Command just in time for the start of the Luftwaffe s night Blitz on Britain Flown by specialised nightfighter squadrons several of them elite pre war Auxiliary Air Force units it was the first nightfighter to be equipped with an airborne radar as standard Thus equipped it combined the ability to see the enemy at night with the devastating hitting power of four cannon and six machine guns This book covers the exploits of the men who made ace in the Beaufighter and includes stunning original artwork together with first hand accounts of the action
