SONG OF WARS AND KINGS

Beowulf is the earliest extant poem in a modern European language. It was composed in England four centuries before the Norman Conquest. As a social document this great epic poem is invaluable—reflecting a feudal, newly Christian world of heroes and monsters, blood and victory and death. As a work of art it is quite unique; *Beowulf* rings with a beauty, power, and artistry that have kept it alive for more than twelve centuries.

The noble simplicity of *Beowulf*'s anonymous Anglo-Saxon singer is recaptured once more in a vivid new translation by Burton Raffel. "Not long after Homer was fortunate enough to find Richmond Lattimore for his *Iliad* and Robert Fitzgerald for his *Odyssey*, the Old English poet found Raffel for his *Beowulf*. ...Raffel is a poet. Every page of his *Beowulf* declares this truth."—from the Afterword by Robert P. Creed

Poet and translator, Burton Raffel is a part-time editor, a full-time writer, and an ex-Wall Street lawyer. Now resident in Philadelphia, he has taught English at colleges in the United States and abroad. He has published a volume of shorter Old English translations; poems translated from Indonesian and from Thai are scheduled for future publication. He is currently at work on a novel.

Raffel Burton Trans Beowulf Mentor S:

Translation Mildred L. Larson, 1991-01-01 This book is a collection of articles which highlight the fact that good translation theory is based on information gained from practice At the same time good practice is based on carefully worked out theory The two are interdependent The authors who have contributed are persons who know the importance of both theory and practice and the tension between the two They are not only translators but also have long experience in training others The articles cover a wide variety of topics grouped in five sections The first presents four graphic descriptions of what happens when one translates The second looks at aspects of the application of theory from the backgrounds of European and Asian translation practices The third has excellent articles which apply theory to the fields of poetry opera drama and humor The fourth section provides four ways of putting theory into practice The fifth gives language specific examples and the last section deals with the application of theory and practice to teaching in an academic context The Craft of Translation John Biguenet, Rainer Schulte, 1989-08-15 These essays offer insights into the understanding and craft of translation The contributors not only describe the complexity of translating literature but also suggest the implications of the act of translation for critics scholars teachers and students The demands of translation according to these writers require both comprehensive scholarship in preparing to translate a text and broad creativity in recreating the text in a new language Translation thus becomes a model for the most exacting reading and the most serious scholarship Some of the contributors lay bare the rigorous methods of literary translation in comparisons of various translations of the same piece some discuss the problems of translating a specific passage others speak about the lessons learned over the course of a career in translation As these essays make clear translators work in the space between languages and in so doing provide insights into the ways in which a culture makes the world verbal From publisher's description **WLA**, 2007 **Medieval Culture and Society** David Herlihy, 1968-06-18 American Translators Association Scholarly Monograph Series, 1991 **Storytelling Encyclopedia** David A.
