close of 1859 the number was 827 461 it was 835 129 at the close of 1860 an increase of 7 668 not far from 1 per cent This increase is chiefly due to the midland counties and the metropolis Wales and the eastern counties adding in a less degree to it but the manufacturing districts in the north continued to show a considerable decrease in the number of paupers relieved Thus far as to the comparison between December 1859 and December 1860 but another comparison may be made namely between the beginning and the end of December last to show to what extent the poor law had then met the distress caused by the severe weather which set in in the middle of that month Now these returns show that Quoted from The Times the numbers relieved at the end of the first week of last December were 807 187 and at the end of the fourth week 835 129 an increase of only 27 942 or 3 46 per cent In fact the increase of relief in that extraordinary weather was not so very much more than always takes place in December In December 1858 the numbers relieved at the end of the
