Raider Battalion:

The Raider Stephen R. Platt, 2025-05-13 The extraordinary life of forgotten World War II hero Evans Carlson commander of America's first special forces secret confidant of FDR and one of the most controversial officers in the history of the Marine Corps who dedicated his life to bridging the cultural divide between the United States and China He was a gutsy old man A corker said another You couldn't find anyone better They talked about him in hushed tones This Major Carlson wrote one of the officers in a letter home is one of the finest men I have ever known These were the words of the young Marines training to be among the first U.S. troops to enter the Second World War and the Major Carlson they spoke of was Evans Carlson a man of mythical status even before the war that would make him a military legend By December of 1941 at the age of forty five Carlson had already faced off against Sandinistas in the jungles of Nicaragua and served multiple tours in China where he embedded with Mao's Communist forces during the Sino Japanese War Inspired by their guerilla tactics and their collaborative spirit which he'd call gung ho introducing the term to the English language and driven by his own Emersonian ideals of self reliance Carlson would go on to form his renowned Marine Raiders the progenitors of today's special operations forces who fought behind Japanese lines on Makin Island and Guadalcanal showing Americans a new way to do battle In *The Raider* Cundill Prize winning historian Stephen R. Platt gives us the first authoritative account of Carlson's larger than life exploits the real story based on years of research including newly discovered diaries and correspondence in English and Chinese with deep insight into the conflicted idealism about the Chinese Communists that would prove Carlson's undoing in the McCarthy era Tracing the rise and fall of an unlikely American war hero *The Raider* is a story of exploration of cultural misunderstanding and of one man's awakening to the sheer breadth of the world *US Marine Corps Raider 1942-43* Ed Gilbert, 2012-04-20 The US Marine Raider was an elite within an elite Modeled on British Commandos they were the earliest forerunners of the various special operations units of the modern US military These units would conduct operations with only the equipment they could carry on their backs their heaviest weapons were light mortars and light machine guns Highly trained in close in fighting the Raiders were expected to be equally skilled in watercraft jungle survival and jungle warfare This book details the Raiders experiences through some of the toughest raining ever to be experienced by a Marine and onto combat during the Makin Raid and through the horrific jungle battles of the Solomon Islands **Raider Battalion** Edwin Palmer Hoyt, 1980 **The Do-Or-Die Men** George W.
