Railway Stations Masterpieces Of Architecture:

Railway Stations Charles Sheppard, 1996 Traces the history and technical development of hubs of transportation from the earliest wooden buildings to the most modern cathedrals of travel and commerce

Railway Stations Charles Sheppard, 2001-01-01 Filled with spectacular color photos and intriguing detail these informative books belong in the library of every student of architecture Here are portraits of the awe inspiring gateways to the world's greatest cities evoking the adventurous spirit of railway travel

Railway Stations Julian Ross, 2000 This work discusses the planning design and management of railway stations It examines a range of stations Commercial aspects and matters of image and branding are explored alongside technical and operational issues

Transport Terminals and Modal Interchanges Christopher Blow, 2012-05-23 This is the first book to review a trend in transport systems which has only recently come of age the multi modal interchange Separate modes of transport are being linked through joined up thinking and transport designers and authorities are only now able to exploit interchange opportunities This book presents examples of how these new opportunities have been planned and designed and outlines how transfer and mobility can be improved in the future Blow takes the airport as the focal point of true multi modal passenger terminals and presents the development of these buildings as representing a new experience in travel The book shows that the success of the experience of transferring from one mode of transport to another depends on the many factors including congestion in an already overloaded system and the way that designers and managers have addressed contingency planning International examples are drawn from areas where mobility is most concentrated and the demands on design are at their highest The book also addresses important issues of rebuilding and redevelopment where once separate modes of transport are being linked to each other and where short term inconveniences rectify past wrongs in the long term It is a compendium of architectural and engineering achievement

Britain's 100 Best Railway Stations Simon Jenkins, 2017-09-28 Discover the architectural gems that are Britain's 100 Best Railway Stations in this Sunday Times top 10 bestseller This is a cracker a beautiful book Chris Evans It is the scene for our hopeful beginnings and our intended ends and the timeless experiences of coming and going meeting greeting and parting It is an institution with its own rituals and priests and a long neglected aspect of Britain's architecture And yet so little do we look at the railway station Simon Jenkins has travelled the length and breadth of Great Britain from Waterloo to Wemyss Bay Betws y Coed to Beverley to select his hundred best railway stations Blending his usual insight and authority with his personal reflections and experiences including his founding the Railway Heritage Trust the foremost expert on our national heritage deftly reveals the history geography design and significance of each of these glories Beautifully illustrated with colour photographs throughout this joyous exploration of our social history shows the station's role in the national imagination champions the engineers architects and rival companies that made them possible and tells the story behind the triumphs and follies of these very British creations These are the marvellous often undersung places that link our nation

celebrated like never before However spectacular the book s photographs it s the author s prowess as a phrase maker that keeps you turning the pages The Times An uplifting exploration of our social history Guardian Transporting Moments: Mobility, Australian Railways and the Trained Society Colin Symes,2015-04-06 Sociologists have suggested that being on the move entails a complex choreography comprised of passenger compartment signage announcements and posters Employing insights from mobility theory Transporting moments provides an account of railway culture from a passenger s perspective The book uses the context of commuting in Sydney at a time when elements of its intra urban rail network were being upgraded as its principal case study This upgrade covers its rolling stock infrastructure and linguistic landscape It is argued that understanding the rationale behind these changes requires an understanding of the historical and policy context in which the railways of Sydney s New South Wales and Australia are embedded This is also the case with the nation s long distance trains whose operators have fought hard to stave off competition from airliners and cars Transporting moments therefore presents strong case for preserving public transport as a more equitable and sustainable form of mobility Governments Australian or otherwise can use these insights for productive investment in their rail networks and public transportation service in general and for reducing the nation s addiction to the automobile With its invaluable insights into travelling on trains Transporting moments is a fascinating addition to the growing corpus of literature on day to day mobility

London's Great Railway Stations Oliver Green,2021-11-02 This lavish photographic history of the most beautiful and historic railway stations in London tells a story of power progress and innovation from the beginning of steam age to the teeming commuter hubs of today London has more mainline railway stations than any other city in the world and many of them are amongst its grandest architectural monuments Its earliest terminals opened in the late 1830s when lines between the capital and the regions were built in the first railway boom The original station at London Bridge the capital s first passenger terminus was opened in December 1836 six months before Queen Victoria came to the throne The last main line to London the Great Central Railway to Marylebone was opened in March 1899 two years before Victoria died Ever since they originally opened these stations have been at heart of London life and activity and have dominated the architectural landscape Many are now in the midst of major reconstructions and are the centrepieces for the transformation of whole swathes of London from Paddington to King s Cross This comprehensive story combines a historical overview archive illustrations and specially commissioned photography covering the origins of the earliest stations up to the latest reconstructions and renovations Written by the expert author Oliver Green this is an essential gift for anyone interested in the history of London and its transport **Skyfaring** Mark Vanhoenacker,2015-06-02 A poetic and nuanced exploration of the human experience of flight that reminds us of the full imaginative weight of our most ordinary journeys and reawakens our capacity to be amazed The twenty first century has relegated airplane flight a once remarkable feat of human ingenuity to the realm of the mundane Mark Vanhoenacker a 747 pilot who left academia and a career in the business world to pursue

his childhood dream of flight asks us to reimagine what we both as pilots and as passengers are actually doing when we enter the world between departure and discovery In a seamless fusion of history politics geography meteorology ecology family and physics Vanhoenacker vaults across geographical and cultural boundaries above mountains oceans and deserts through snow wind and rain renewing a simultaneously humbling and almost superhuman activity that affords us unparalleled perspectives on the planet we inhabit and the communities we form **City** P.D. Smith,2012-01-01 For the first time in the history of the planet more than half the population 3 3 billion people are now living in cities Two hundred years ago only 3 per cent of the world s population were urbanites a figure that had remained fairly stable give or take the occasional plague for about 1000 years By 2030 60 per cent of us will be urban dwellers City is the ultimate handbook for the archetypal city and contains main sections on History Customs and Language Districts Transport Money Work Tourist Sites Shops and markets Nightlife etc and mini essays on anything and everything from Babel Tenochtitl n and Ellis Island to Beijing Mumbai and New York and from boulevards suburbs shanty towns and favelas to skylines urban legends and the sacred Drawing on a wide range of examples from cities across the world and throughout history it explores the reasons why people first built cities and why urban populations are growing larger every year City is illustrated throughout with a range of photographs maps and other illustrations **The Forum** ,1902 Current political social scientific education and literary news written about by many famous authors and reform movements
