Railways Of San Francisco Images Of Rail California:

Railways of San Francisco Paul C. Trimble, 2004 It may be hard to believe now but San Francisco was once dominated by railways Before private cars crowded this hemmed in city rail was the only way to get around the challenging terrain and the rail industry rose to the task with many innovative systems Some of these were herculean with massive bores through rocky hills or elaborate cable and counterweight systems to handle steep inclines Others were simpler horse drawn affairs that took passengers from the downtown and waterfront areas to outlying districts The distinct flavor of San Francisco's neighborhoods owes much to the early rails as these cars enabled residents to form their own enclaves and still interact with the commercial heart of the city Some rail systems presaged today's commuter lifestyle one even ran all the way down Mission Street to far off San Mateo Only a few of the many rail systems that once served this city remain **Rowell's**

American Newspaper Directory, 1907 **Sacramento Northern Railway** Paul C. Trimble, 2005 The Sacramento Northern Railway was once a critical interurban link between California's northern Central Valley communities the state capital and the Bay Area Running through orchards farmland swamps and cities this electric railway began its life in 1905 Service eventually ran from Chico to Oakland but after the Bay Bridge opened in 1939 the 186 mile route started in San Francisco's Financial District crossed the bridge on the lower deck ran through Contra Costa County towns like Moraga Lafayette and Pittsburg across the Suisun straits on the massive rail ferry Ramon which could hold an entire train and into Sacramento the halfway point From there the train continued through rolling hills and farms on to Marysville and finally to Chico before making its return journey The Sacramento Northern soldiered on until World War II but eventually the growing car culture along with competing diesel railroads undid this splendid line Interurban passenger service ended in 1941 and the various lines were gradually abandoned or dieselized Today a 22 mile segment of the route remains in operation at the Bay Area Electric Railway Museum in Solano County *Rails of California's Central Coast* Walter Rice, Emiliano

Echeverria, 2008 Diversity is the prime characteristic of the California Central Coast's many rail operations Readers will be attracted by the varying scope of Central Coast Santa Cruz Monterey and San Luis Obispo Counties rail systems They range from local horsecar services and the narrow gauge electrified plant railroad that served the Santa Cruz Cement Company at Davenport to the Southern Pacific Railroad's Coast Line and its engineering marvel Cuesta Grade highlighted by the world famous horseshoe curve Local streetcar systems and long ceased regional railroads are part of the area's rail legacy Rare historic images blended with contemporary photography chronicle the region's railways from times past to the present

Railway Employees' Magazine Order of Railway Employees, 1911 *Bancroft's Official Railway Guide of the San Francisco and North Pacific Railway Company, San Francisco to Ukiah, Cal. with All Connections*, 1890 *Railroad Gazetteer*, 1882 *The Street Railway Journal*, 1893 **History of California**, **Railway and Marine News**, 1929
