Rains Are Coming:

The Modern Divine Comedy Book 7: Paradiso 1 Entry Andrew J. Farrara, 2022-10-13 The PARADISO is considered the most perfect part of the hereafter where the souls are permitted to live eternally if they can successfully complete the very difficult Celestial Examination process engaging the intellectual and personal guilt and forgiveness requirements system. Many celestial citizens take years, decades or centuries to complete The Celestial Trial of Josephus the Annual Lantern Parade and Romano's awakening from his dream nightmare at the ending are the major subjects in this Book. This Celestial Trial of the ancient Jewish General and Roman writer, propagandist and collaborationist Flavius Josephus in discovering the real Spiritual Truths at the Celestial Supreme Court headed by the Biblical prophets Noah, Abraham and Moses is portrayed. Josephus is defended in Court by a late 19th century mortal American Barrister named Darryl Buchanan from Philadelphia who just successfully defended John D. Rockefeller before Almighty GOD Himself in God's Personal Supreme Peoples Court. The goal of the Celestial Trial of Josephus versus the Celestial Kingdom is to discover the Holy Secrets and Spiritual Truths of his writings as to determine whether he did or did not fabricate and/or conceal the Biblical truths and steal the Prophecy that the next Ruler of the Roman Empire was destined to come from Judea to save his own body and soul. The Annual Lantern Parade at the Celestial Circus Maximus on Christmas Day has been a tradition since Jesus died on the Cross in the first century AD. The theme this year is called the Ancient Divine Mysteries of the Universe. BOOK FOUR ends with the Devil and his Three Crown Princes still trying to manipulate, dominate and overthrow the Kingdom with a Final Curtain Call where the Tragic End Game occurs and the *Mise en Abyme* shows the hero Journalist Romano home awoken immediately after his dream in his basement apartment at a New York City Catholic Church.

Changing Climate, Changing Worlds Meredith Welch-Devine, Anne Sourdri, Brian J. Burke, 2020-04-07 This book explores how individuals and communities perceive and understand climate change using their observations of change in the world around them. Because processes of climatic change operate at spatial and temporal scales that differ from those of everyday practice, the phenomenon can be difficult to understand. However, flora and fauna, which are important natural and cultural resources for human communities, do respond to the pressures of environmental change. Humans in turn observe and adapt to those responses even when they may not understand their causes. Much of the discussion about human experiences of our changing climate centers on disasters and extreme events, but we argue that a focus on the everyday, on the microexperiences of change, has the advantage of revealing how people see, feel and make sense of climate change in their own lives. The chapters of this book are drawn from Asia, Europe, Africa and South and North America. They use ethnographic inquiry to understand local knowledge and perceptions of climate change and the social and ecological changes inextricably intertwined with it. Together, they illustrate the complex process of coming to know climate change, show some of the many ways that climate change and our responses to it inflict violence and point to promising avenues for moving toward just and authentic collaborative responses.
