Movies and Methods Bill Nichols, 1976 VOLUME 2 *Movies and Methods* Volume II captures the developments that have given history and genre studies imaginative new models and indicates how feminist structuralist and psychoanalytic approaches to film have achieved fresh valuable insights In his thoughtful introduction Nichols provides a context for the paradoxes that confront film studies today He shows how shared methods and approaches continue to stimulate much of the best writing about film points to common problems most critics and theorists have tried to resolve and describes the internal contradictions that have restricted the usefulness of post structuralism Mini introductions place each essay in a larger context and suggest its linkages with other essays in the volume A great variety of approaches and methods characterize film writing today and the final part conveys their diversity from statistical style analysis to phenomenology and from gay criticisms to neoformalism This concluding part also shows how the rigorous use of a broad range of approaches has helped remove post structuralist criticism from its position of dominance through most of the seventies and early eighties

German environmental organizations have doggedly pursued environmental protection through difficult times hyperinflation and war National Socialist rule postwar devastation state socialism in the GDR and confrontation with the authorities during the 1970s and 1980s The author recounts the fascinating and sometimes dramatic story of these organizations from their origins at the end of the nineteenth century to the present not only describing how they reacted to powerful social movements including the homeland protection and socialist movements in the early years of the twentieth century the Nazi movement and the anti nuclear and new social movements of the 1970s and 1980s but also examining strategies for survival in periods like the current one when environmental concerns are not at the top of the national agenda Previous analyses of environmental organizations have almost invariably viewed them as parts of larger social structures that is as components of social movements as interest groups within a political system or as contributors to civil society This book by contrast starts from the premise that through the use of theories developed specifically to analyze the behavior of organizations and NGOs we can gain additional insight into why environmental organizations behave as they do

Christine Jette,2000 In Tarot Shadow Work Christine Jette bravely takes the practice of tarot readings to new depths and places many people fear to go She shows us how we can use the cards to trigger awareness in ourselves of troubling aspects of our lives and histories and then go beyond discovery to use the cards as tools for healing This is part of the work that needs to be done with tarot in this new century Rachel Pollack author of 78 Degrees of Wisdom and the forthcoming Shining Tribe Tarot Deep within our psyches the unconscious holds our forbidden feelings secret wishes and creative urges Over time these dark forces take on a life of their own and form the shadow a powerful force of unresolved inner conflicts and unexpressed emotions that defies our efforts to control it The shadow takes its shape from a menagerie of archetypes each recognizable throughout time and around the world troubling characters who thrive within our persona The shadow is saboteur martyr victim addict sadist masochist or tyrant all the dark figures that prey on the lighter qualities of the human personality The shadow also represents those latent talents and positive traits that were banished from us at some time along our life path artistic musical athletic or creative talents An undeveloped ability a dream that has gone unexpressed a fantasy of what might have been these too make up the personal shadow the lost parts of ourselves Tarot Shadow Work shows you

The Forest of Souls Rachel Pollack, 2002 Take a Magical Mystery Tour Join celebrated Tarot author artist and scholar Rachel Pollack on a magical walk through the mysteries archetypes and dream like images of the Tarot In the tradition of Carl Jung and Joseph Campbell Rachel draws upon symbols myths and folk tales both ancient and modern to illuminate the spiritual truths behind the Tarot's symbols The Forest of Souls unfolds like a dream in a series of musings upon the confluence of the sacred and the mundane How can a simple deck of 78 cards become keys unlocking life's greatest secrets While the most common use of Tarot is for divination Rachel shows how to use the cards for readings of an entirely different nature Asking improbable even impossible questions she plays with the sacred possibilities and answers that the Tarot gives us What nourishes my soul What is soul What is Tarot What plan did God follow to create the universe We now know that the Tarot was almost certainly not originally designed to include Kabbalistic and other occult correspondences Yet such systems can greatly enhance our understanding of and relationship with the cards Embracing paradox and non linear thinking allows us to push the boundaries of the known and venture into the unknown It is in that sacred space that we open ourselves to wonder and mystery

Horror Film and Otherness Adam Lowenstein, 2022-07-19 What do horror films reveal about social difference in the everyday world Criticism of the genre often relies on a dichotomy between monstrosity and normality in which unearthly creatures and deranged killers are metaphors for society's fear of the others that threaten the normal The monstrous other might represent women Jews or Blacks as well as Indigenous queer poor elderly or disabled people The horror film's depiction of such minorities can be sympathetic to their exclusion or complicit in

their oppression but ultimately these images are understood to stand in for the others that the majority dreads and marginalizes Adam Lowenstein offers a new account of horror and why it matters for understanding social otherness He argues that horror films reveal how the category of the other is not fixed Instead the genre captures ongoing metamorphoses across normal self and monstrous other This transformative otherness confronts viewers with the other's experience and challenges us to recognize that we are all vulnerable to becoming or being seen as the other Instead of settling into comforting certainties regarding monstrosity and normality horror exposes the ongoing struggle to acknowledge self and other as fundamentally intertwined Horror Film and Otherness features new interpretations of landmark films by directors including Tobe Hooper George A Romero John Carpenter David Cronenberg Stephanie Rothman Jennifer Kent Marina de Van and Jordan Peele Through close analysis of their engagement with different forms of otherness this book provides new perspectives on horror's significance for culture politics and art
