Robinson Crusoe In German:

Macmillan's Course of German Composition George Eugène-Fasnacht, 1890 **The Cambridge Companion to 'Robinson Crusoe'** John Richetti, 2018-04-26 An instant success in its own time Daniel Defoe's *The Adventures of Robinson Crusoe* has for three centuries drawn readers to its archetypal hero the man surviving alone on an island This Companion begins by studying the eighteenth century literary historical and cultural contexts of Defoe's novel exploring the reasons for its immense popularity in Britain and in its colonies in America and in the wider European world Chapters from leading scholars discuss the social economic and political dimensions of Crusoe's island story before examining the after life of Robinson Crusoe from the book's multitudinous translations to its cultural migrations and transformations into other media such as film and television By considering Defoe's seminal work from a variety of critical perspectives this book provides a full understanding of the perennial fascination with and the enduring legacy of both the book and its iconic hero

Twentieth-century Reworkings of German Literature Gundula Sharman, 2002 A study of six modern reworkings of classic works of German literature A literary reworking is a fictional work based on an earlier usually canonical literary work Gundula M Sharman considers six twentieth century examples of this phenomenon in German literature including Peter Schneider's *Lenz* as a reworking of Georg Büchner's novella of the same title Ulrich Plenzdorf's *Die neuen Leiden des jungen Werther* as a reworking of Goethe's *Werther* Wolfgang Koeppen's *Der Tod in Rom* based on Thomas Mann's *Der Tod in Venedig* and three other pairs of reworkings original works from the genres of drama the novella and the novel The indebtedness of such reworkings to the original works is openly acknowledged often in the title and this invites the reader to draw comparisons and to note contrasts between reworking and original The twentieth century author's interpretation and the reader's reception of the older work merge to form a subtext of the reworking giving rise to a third narrative in the reader's imagination The better the reader knows the literary model the more multi faceted the reworking appears The purpose of each reworking is unique One may demonstrate how much the world has changed since the publication of the original while another argues that society has not changed at all One may be conceived as an anti work to the original while another serves to endorse its message Common to all reworkings however is a gain in historical depth and in each case themes and issues arise from the relationship of reworking to original that are not immediately apparent when the reworking is considered on its own Gundula M Sharman teaches in the German Department at the University of Aberdeen Scotland *Friedrich Hölderlin and the German Neo-Hellenic Movement* Marshall Montgomery, 1923 **British Museum Catalogue of printed Books**, 1888

Cultural Translation Zohar Shavit, 2025-01-27. Towards the end of the eighteenth century the maskilim, a group of young Jewish intellectuals who were starving for universal knowledge and for engagement with wider social circles, set out to reform Jewish society by expanding its cultural boundaries and building a bridge to the Enlightened world. Through dialogue with the non-Jewish society and by introducing their fellow Jews to the texts and cultural goods of that society, mainly through translation, they sought to promote their social agenda and impart to their readers a new habitus, new social models of *Bürgerlichkeit* and *Bildung*, and a new awareness of civil equality and civil rights. This book explores this translational project and the ways by which it strove to affect a profound cultural change in the Jewish world. Zohar Shavit, professor emerita at the School for Cultural Studies at Tel Aviv University, is an internationally renowned authority on the history of Israeli culture, child and youth culture, and Hebrew and Jewish cultures, especially in the context of their relations with various European cultures.

Primer of German Literature (based on the Work of Professor Kluge). Isabel T. Lublin, 1909. *Colonial Fantasies* Susanne Zantop, 1997-09-10. Since Germany became a colonial power relatively late, postcolonial theorists and histories of colonialism have thus far paid little attention to it. Uncovering Germany's colonial legacy and imagination, Susanne Zantop reveals the significance of colonial fantasies, a kind of colonialism without colonies, in the formation of German national identity. Through readings of historical, anthropological, literary, and popular texts, Zantop explores imaginary colonial encounters of Germans with natives in late eighteenth and early nineteenth-century literature and shows how these colonial fantasies acted as a rehearsal for actual colonial ventures in Africa, South America, and the Pacific. From as early as the sixteenth century, Germans preoccupied themselves with an imaginary drive for colonial conquest and possession that eventually grew into a collective obsession. Zantop illustrates the gendered character of Germany's colonial imagination through critical readings of popular novels, plays, and travel literature that imagine sexual conquest and surrender in colonial territory or love and blissful domestic relations between colonizer and colonized. She looks at scientific articles, philosophical essays, and political pamphlets that helped create a racist colonial discourse and demonstrates that from its earliest manifestations, the German colonial imagination contained ideas about a specifically German national identity, different from, if not superior to, most others.

Novel Translations Bethany Wiggin, 2011-06-15. Many early novels were cosmopolitan books read from London to Leipzig and beyond, available in nearly simultaneous translations into French, English, German, and

other European languages In *Novel Translations* Bethany Wiggin charts just one of the paths by which newness in its avatars as fashion novelties and the novel entered the European world in the decades around 1700 As readers across Europe snapped up novels they domesticated the genre Across borders the novel lent readers everywhere a suggestion of sophistication a familiarity with circumstances beyond their local ken Into the eighteenth century the modern German novel was not German at all rather it was French as suggested by Germans usage of the French word *Roman* to describe a wide variety of genres pastoral romances war and travel chronicles heroic narratives and courtly fictions Carried in large part on the coattails of the Huguenot diaspora these romans nouvelles amours secrets histoires galantes and histories scandaleuses shaped German literary culture to a previously unrecognized extent Wiggin contends that this French chapter in the German novel s history began to draw to a close only in the 1720s more than sixty years after the word first migrated into German Only gradually did the *Roman* go native it remained laden with the baggage from its French origins even into the nineteenth century
