## **Robinson Jeffers Poet Of Inhumanism:**

**Robinson Jeffers; Poet of Inhumanism** Arthur B. Coffin,1971      **Robinson Jeffers** Mercedes Cunningham Monjian,2012-01-12 Robinson Jeffers name has been so inseparably linked with California that it is difficult to think of his origins being elsewhere Jeffers was both in 1887 in Pittsburgh Pennsylvania His father was a professor at Western Theological Seminary and a scholar of ancient languages who taught his son to read Greek before he started school In 1902 Jeffers enrolled in the University of Western Pennsylvania now the University of Pittsburgh but his family moved to California soon thereafter and he graduated from Occidental College at the age of eighteen Inhumanism was the label Jeffers first used in the preface to *The Double Axe and Other Poems* to explain the doctrine that permeates all of his poetry Defining humanism as a system of thinking in which man his interests and development are made dominant his addition of the negative prefix was his attempt to subdue human interests and development to something greater contrasting them against the magnificent beauty and immense worth of the natural world In addition to discussing Jeffers life and philosophy Monjian analyzes the form and style of his poetry calling it a singular style slashing its way across the page with violence of image and a free crashing rhythm She ends the book Whatever the future holds for this poet our own age is still awed by the magnificent talent and effort of a burdened mind struggling to free humanity from the shackles of an impoverished self love and the myths to which he believes it gave birth      *Robinson Jeffers* Mercedes Cunningham Monjian,2017-11-20 Excerpt from *Robinson Jeffers A Study in Inhumanism* Man s inhumanity to man has long been a theme favored by the poets But inhumanity bears little affinity to Inhumanism Inhumanism is the label that Robinson Jeffers gave to his doctrine in the Preface to *The Double Axe and Other Poems* which was published twenty four years after his first successful book Many critics and reviewers before *The Double Axe* had attempted to define Jeffers creed but none had succeeded in designating its meaning with his precision About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works      **ROBINSON JEFFERS MERCEDES CUNNINGHAM.** MONJIAN,2018      *Robinson Jeffers* Arthur B. Twentieth Century Richard Gray,1976-06-10      **How Not to Be Human** Matthew Calarco,2024-07-09 Current debates in the environmental humanities animal studies and related fields increasingly revolve around this question What to do with the human Is the human a category worth preserving Should it be replaced with the post human Should marginalized and minoritarian groups advocate for a universal humanism What is the relationship between humanism and anthropocentrism Is a genuinely non anthropocentric mode of thinking and living possible for human beings This book argues that the writings of twentieth century poet Robinson Jeffers offer twenty first century readers a number of crucial insights concerning such questions and timely advice about how not to be human For Jeffers our tendency to turn inward on ourselves and to indulge in human narcissism is at the heart of the social economic and existential ills that plague modern societies As a remedy Jeffers recommends turning ourselves outward beyond the self and beyond the human and learning to affirm and even love the inhuman cosmos in all of its terrible beauty In the process Jeffers helps us find our way back to ourselves but this time no longer as human in the traditional sense but as plain members of the inhuman world      Toward a Transpersonal Ecology Warwick Fox,1995-01-01 In this book I advance an argument concerning the nature of the deep ecology approach to ecophilosophy In order to advance this argument in as thorough a manner as possible I present it within the context of a comprehensive overview of the writings on deep ecology      **A Literary History of the American West** Western Literature Association (U.S.),1987 Literary histories of course do not have a reason for being unless there exists the literature itself This volume perhaps more than others of its kind is an expression of appreciation for the talented and dedicated literary artists who ignored the odds avoided temptations to write for popularity or prestige and chose to write honestly about the American West believing that experiences long known to be of historical importance are also experiences that need and deserve a literature of importance      **Fifty Key Thinkers on the Environment** Joy A. Palmer,David E. Cooper,David Cooper,2002-09-11 Fifty Key Thinkers on the Environment is a unique guide to environmental thinking through the ages Joy A Palmer herself an important and prolific author on environmental matters has assembled a team of thirty five expert contributors to summarize and analyse the thinking of fifty diverse and stimulating figures from all over the world and from ancient times to the present day Among those included are Philosophers such as Rousseau Spinoza and Heidegger Activists such as Chico Mendes Literary giants such as Virgil Goethe and Wordsworth Major religious and spiritual figures such as the Buddha and St Francis of Assisi Lucid scholarly and informative these fifty essays offer a fascinating overview of mankind s view and understanding of the physical world      **Robinson Jeffers** Frederic Ives Carpenter,1962 The reputation of the author of Roan Stallion Dear Judas and other volumes has risen to great heights and fallen to great depths in his own lifetime Because of the fact that he has been described both as major poet and as beneath critical notice Robinson Jeffers seems one of the most challenging of contemporary writers This book interprets Jeffers primarily as a figure in the literary creation of our American myth It defines his long poems as modern myths rather than as classical tragedies or as realistic narratives And

it describes Jeffers himself as a figure in our American mythology Publisher **Beyond the Narratives** John Michael Greer, 2020-10-31 In 2003 John Michael Greer became the seventh Grand Archdruid of the Ancient Order of Druids in America AODA an initiatory organization teaching Celtic nature spirituality which was founded in 1912 The outcome was that his writings began to stray into territory very far from the Hermetic occult philosophy that had been the previous focus of his career The essays included in this volume chronicle some of the themes he explored as a result Druidry Jungian psychology politics history and the shape of the future in a society in decline **A Study Guide for Robinson Jeffers's "Hurt Hawks"** Gale, Cengage Learning, 2016 A Study Guide for Robinson Jeffers's Hurt Hawks excerpted from Gale's acclaimed Poetry for Students This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust Poetry for Students for all of your research needs **The Hermit's Hut** Kazi K. Ashraf, 2013-10-31 The Hermit's Hut offers an original insight into the profound relationship between architecture and asceticism Although architecture continually responds to ascetic compulsions as in its frequent encounter with the question of excess and less it is typically considered separate from asceticism In contrast this innovative book explores the rich and mutual ways in which asceticism and architecture are played out in each other's practices The question of asceticism is also considered as neither a religious discourse nor a specific cultural tradition but as a perennial issue in the practice of culture The work convincingly traces the influences from early Indian asceticism to Zen Buddhism to the Japanese teahouse the latter opening the door to modern minimalism As the book's title suggests the protagonist of the narrative is the nondescript hermit's hut Relying primarily on Buddhist materials the author provides a complex narrative that stems from this simple structure showing how the significance of the hut resonates widely and how the question of dwelling is central to ascetic imagination In exploring the conjunctions of architecture and asceticism he breaks new ground by presenting ascetic practice as fundamentally an architectural project namely the fabrication of a last hut Through the conception of the last hut he looks at the ascetic challenge of arriving at the edge of civilization and its echoes in the architectural quest for minimalism The most vivid example comes from a well known Buddhist text where the Buddha describes the ultimate ascetic moment or nirvana in cataclysmic terms using architectural metaphors The roof rafters will be shattered the Buddha declares and the architect will no longer build the house again As the book compellingly shows the physiological and spiritual transformation of the body is deeply intertwined with the art of building The Hermit's Hut weaves together the fields of architecture anthropology religion and philosophy to offer multidisciplinary and historical insights Written in an engaging and accessible manner it will appeal to readers with diverse interests and in a variety of disciplines whether one is interested in the history of ascetic architecture in India the concept of home in ancient India or the theme of the body as building **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1973 **The Idea of Wilderness** Max Oelschlaeger, 1991-01-01 How has the concept of wild

nature changed over the millennia And what have been the environmental consequences In this broad ranging book Max Oelschlaeger argues that the idea of wilderness has reflected the evolving character of human existence from Paleolithic times to the present day An intellectual history it draws together evidence from philosophy anthropology theology literature ecology cultural geography and archaeology to provide a new scientifically and philosophically informed understanding of humankind s relationship to nature Oelschlaeger begins by examining the culture of prehistoric hunter gatherers whose totems symbolized the idea of organic unity between humankind and wild nature and idea that the author believes is essential to any attempt to define human potential He next traces how the transformation of these hunter gatherers into farmers led to a new awareness of distinctions between humankind and nature and how Hellenism and Judeo Christianity later introduced the unprecedented concept that nature was valueless until humanized Oelschlaeger discusses the concept of wilderness in relation to the rise of classical science and modernism and shows that opposition to modernism arose almost immediately from scientific literary and philosophical communities He provides new and in some cases revisionist studies of the seminal American figures Thoreau Muir and Leopold and he gives fresh readings of America s two prodigious wilderness poets Robinson Jeffers and Gary Snyder He concludes with a searching look at the relationship of evolutionary thought to our postmodern effort to reconceptualize ourselves as civilized beings who remain in some ways natural animals Western American Literature ,1998

**Judas** Kim Paffenroth,2001-01-01 Judas Images of the Lost Disciple traces the development of the stories about the most famous traitor in the history of Western Civilization Its purpose is not to find the Judas of history but rather to provide readers with a map that shows the similarities and connections between generations of Judas s story Judas has been portrayed as an effete intellectual a jealous lover a greedy scoundrel a misguided patriot a doomed hero a man destroyed by despair or God s special misunderstood messenger and agent Judas means as many different things to us as does Jesus or God The enigma of Judas s story in the Gospels left later literature and legend with a creative challenge they richly answered and which is presented here to write the real story of the worst villain of all time
