*Rock Lighthouses of Britain* Christopher P. Nicholson, 1995 When waves higher than the vessels that sail upon them smash against the half submerged rocks at the extremities our coastline the whole ocean becomes a raging foam which continues to claim the lives of unwary navigators Man s struggle to build a permanent and durable structure such as a lighthouse on these sites is a story that cannot fail to stir the emotions of anyone who enjoys tales of endeavour ingenuity and dogged determination In this second edition of his book Christopher Nicholson vividly describes the construction and history to the present day of some of the world s most famous lighthouses Book jacket *The World of Lore: Dreadful Places* Aaron Mahnke, 2018-10-09 Captivating stories of the places where human evil has left a nefarious mark featuring stories from the podcast Lore now a streaming television series including Echoes Withering Heights and Behind Closed Doors as well as rare material Sometimes you walk into a room a building or even a town and you feel it Something seems off an atmosphere that leaves you oddly unsettled with a sense of lingering darkness Join Aaron Mahnke the host of the popular podcast Lore as he explores some of these dreadful places and the history that haunts them Mahnke takes us to Colorado and the palatial Stanley Hotel where wealthy guests enjoyed views of the Rocky Mountains at the turn of the twentieth century and where decades later a restless author would awaken from a nightmare inspired to write one of the most revered horror novels of all time Mahnke also crosses land and sea to visit frightful sites from New Orleans to Richmond Virginia to the brooding ancient castles of England each with its own echoes of dark deeds horrible tragedies and shocking evil still resounding Filled with evocative illustrations this eerie tour of lurid landmarks and doomed destinations is just the ticket to take armchair travelers with a taste for the macabre to places they never thought they d visit in their wildest scariest dreams The World of Lore series includes MONSTROUS CREATURES WICKED MORTALS DREADFUL PLACES Praise for World of Lore Dreadful Places Well written rooted in deep historical research and ridiculously entertaining Each chapter brings a creepy story from folklore to life Hair raising stuff SyFy Wire Fans of the Lore podcast won t want to miss this latest volume in the creator s series a collection of illustrated versions of both rare and well known stories about lurid landmarks and doomed destinations io9 Dreadful Places is a delight for Lore fans and newbies alike In the book Aaron Mahnke visits places around the world that are steeped in a supernatural legacy Refinery29 **The Shipping Forecast** Nic Compton, 2016-09-01 The rhythmic lullaby of North Utsire South Utsire has been lulling the nation s insomniacs to sleep for over 90 years It has inspired songs poetry and imaginations across the globe as well as providing a very real service for the nation s seafarers who might fall prey to storms and gales It has inspired everyone from Seamus Heaney to Radiohead and from Radio 4 announcers to the writers of Keeping Up Appearances In 1995 a plan to move the late night broadcast by just 12 minutes caused a national outcry and was ultimately scrapped Published with Radio 4 and the Met Office The Shipping Forecast is the official miscellany for seafarers and armchair travellers alike It features fascinating facts alongside lyrics from Seamus Heaney Carol Ann Duffy

Radiohead and more From the places themselves how they got their names what s happened there through the ages to the poems and parodies that it s inspired this is a beautifully evocative tribute to one of Britain s and Radio 4 s best loved broadcasts

**Lost Sounds** Alan Renton,2001-04 Lost Sounds visits a number of lighthouses at different times over the last 130 years to reveal the philanthropic scientific and romantic story of the fog signal how it came about how the machinery worked and for the mariner and the keeper what it sounded like The development of fog signals complemented the expansion of lighthouse construction worldwide from the last quarter of the 19th century and represented the attempt to provide a vital navigation aid to mariners when the beam of light from the lighthouse lens was obscured by fog Lost Sounds reveals the practical development of sound signals from the early percussion instruments to the later succession of compressed air sirens and diaphones through to the last remaining electric emitters But it is much more than that it is a record of another part of maritime history

**Coade Stone** Howell G. M. Edwards,Christopher J. Brooke,2024-10-25 The history and nature of artificial stone for use in architecture is a subject still shrouded in myth and misconception This book aims to lay bare those misconceptions and present a scientific and architectural account of these materials and especially Coade Stone the most successful of all which found great favour during the Georgian period Many examples of Coade Stone cast sculpture still exist and several key examples are presented in context and as case studies Eleanor Coade s artificial stone was so good that many observers could not distinguish it from the natural stone it replaced the growth in replication of the neo classical statuary and building adornment required in the late Georgian and Regency period was well satisfied by the use of Coade stone A holistic evaluation of Coade stone artefacts is undertaken whereby the use of analytical data historical documentation invoices company records impressed marks and expert connoisseurship will establish the attribution of Coade stone artefacts some of which are currently in the unknown category Several new scientific analyses are presented that demonstrate the true nature of high temperature fired ceramic Coade Stone and allow comparison with other forms of artificial stone such as the cold cured cementitious variations which eventually replaced it in the Victorian period
