E. Gray,1981     **Witnessing Suburbia** Eileen Luhr,2009-02-10 Witnessing Suburbia is a lively cultural analysis of the conservative shift in national politics that transformed the United States during the Reagan Bush era Eileen Luhr focuses on two fundamental aspects of

this shift the suburbanization of evangelicalism and the rise of Christian popular culture especially popular music Taking us from the Jesus Freaks of the late 1960s to Christian heavy metal music to Christian rock festivals and beyond she shows how evangelicals succeeded in witnessing to America's suburbs in a consumer idiom Luhr argues that the emergence of a politicized evangelical youth culture in fact ranks as one of the major achievements of third wave conservatism in the late twentieth century *Flat Fax And The Book Of Doors* Pamela Wright,2011-12-21 The Fundamental Stories are shifting The Door of Books is open And Granny Which Witch is not at all happy that someone has made her polky dot flamingos disappear Flat Fax is a character of science and fiction Uncle Whatchamacallit is sure he is the key to the erasures or is he the cause Can the fairy Petty Minor an ogre named Klutz and a golem boy escape the Authority's demense below and defeat Lady Who the Enchantress Will the Lord Terrier of the Terrible Trees find them guilty of crimes against the natural order And will Granny Where ever get home to her buttermilk biscuits Black and white illustrations The Dream Machine Richard Whittle,2010-04-27 A fascinating and authoritative narrative history of the V 22 Osprey revealing the inside story of the most controversial piece of military hardware ever developed for the United States Marine Corps When the Marines decided to buy a helicopter airplane hybrid tiltrotor called the V 22 Osprey they saw it as their dream machine The tiltrotor was the aviation equivalent of finding the Northwest Passage an aircraft able to take off land and hover with the agility of a helicopter yet fly as fast and as far as an airplane Many predicted it would reshape civilian aviation The Marines saw it as key to their very survival By 2000 the Osprey was nine years late and billions over budget bedeviled by technological hurdles business rivalries and an epic political battle over whether to build it at all Opponents called it one of the worst boondoggles in Pentagon history The Marines were eager to put it into service anyway Then two crashes killed twenty three Marines They still refused to abandon the Osprey even after the Corps own proud reputation was tarnished by a national scandal over accusations that a commander had ordered subordinates to lie about the aircraft's problems Based on in depth research and hundreds of interviews The Dream Machine recounts the Marines quarter century struggle to get the Osprey into combat Whittle takes the reader from the halls of the Pentagon and Congress to the war zone of Iraq from the engineer's drafting table to the cockpits of the civilian and Marine pilots who risked their lives flying the Osprey and sometimes lost them He reveals the methods motives and obsessions of those who designed sold bought flew and fought for the tiltrotor These stories including never before published eyewitness accounts of the crashes that made the Osprey notorious not only chronicle an extraordinary chapter in Marine Corps history but also provide a fascinating look at a machine that could still revolutionize air travel Speech in Action America X. Gonzalez,Lois Jean Brady,Jim Elliott,2011-01-01 Speech in Action is an innovative approach to learning that combines simple techniques from speech and language pathology with physical exercises that have been designed to meet the individual child's particular needs and abilities This practical workbook describes the approach and contains 90 fully photocopiable lesson plans *Personal Politics in the Postwar World* Susanna Erlandsson,2022-01-27

Unravelling the mechanisms of daily diplomacy in the mid 20th century this book follows one Dutch diplomatic couple the van Kleffens on their postings from the 1930s to the 1950s to offer a new perspective on how non officials and personal politics shaped the postwar world Combining private and public source materials Erlandsson foregrounds the political culture of diplomacy and highlights events and people which have been left off the official record The book integrates the detailed study of behind the scenes diplomatic practice into the larger narrative of traditional diplomatic history connecting social practices with political outcomes Exploring how women s tea drinking was used to achieve post war foreign policy and how Rosa a Guatemalan cook contributed to the international standing of the Netherlands it offers a more inclusive history by recognising the diplomatic work done by actors who were not diplomats In doing so it demonstrates the ways in which diplomacy was class bound gendered and racialized and proves that historicizing gender and cultural norms is crucial to understanding political and international history The Social Cognitive Neuroscience of Leading Organizational Change

Robert A. Snyder, 2016-03-10 In a very understandable practical and accessible manner this book applies recent groundbreaking findings from behavioral neuroscience to the most complex and vexing challenges in organizations today In particular it addresses managing large scale organizational changes such as mergers and acquisitions providing lessons and tactics that can be usefully applied to in many different settings In addition to discussing successful practices it also identifies the reasons that most past comprehensive long term change projects have failed and unmasks the counterproductive effects of the typical evolutionary or emotion based attempts to change group and individual behavior using neuroscience as its principal tool Cowboy Politics John S. Nelson, 2017-11-01 The politics of popular westerns are surprising in substance and significance especially of late Cowboy Politics shows how westerns in literature cinema and television face the challenges of Western Civilization even more than the perils of American frontiers Its strategy is to compare key westerns with major theories of modern and postmodern politics So it analyzes novels from Owen Wister to Zane Grey and Larry McMurtry It focuses on films from the western revival beginning in the 1990s and featuring Clint Eastwood s Unforgiven while its interest in TV stretches from singing cowboys and Gunsmoke to David Milch s Deadwood Critics are apt to find in westerns the modern politics of Thomas Hobbes and John Locke They tap devices of individuality rationality contract sovereign enforcement and representation to overcome the chaotic violence of a wild zone Cowboy Politics examines how westerns often find such measures insufficient to tame the West as a culture of honor and anger that deteriorates into feudal vengeance Instead westerns see the West as the sunset land that is already growing old and moving on So westerns seek fresh starts informed by comparing civilizations more than demonizing savages Westerns worry that modern politics devolve into exploitation oppression spectacle and terror So they pursue supplements in such postmodern politics as republicanism perfectionism populism feminism and environmentalism Especially westerns explore politics of persuasive speech in action in public doing beauty and self reliance in the modes of Hannah Arendt and Ralph Waldo

Emerson The first two chapters of Cowboy Politics explain how westerns do political theory for popular audiences by making many of our myths the symbolic stories of individuals and communities which we live daily The next three chapters trace the initially modern theories of government in many westerns Then western turns to republican honor rhetoric response ability and character tracking occupy the following four chapters And these set the stage for another four chapters on western attention to postmodern terror mythmaking celebrity spectacle and forgiveness The final two chapters analyze how late satirical and transformative westerns develop realist defenses for their surprisingly postmodern politics
