archaeological data and perspectives The book also outlines a transnational framework of comparison that assists in the larger context related to building a truly global archaeology of the modern city This framework is directly related a multi scalar approach to urban archaeology Historical archaeologists have been advocating the need to explore the archaeology of the modern city using several different scales or frames of reference The most popular and most basic of these has been the household However it has also been acknowledged that interpreting the archaeology of households beyond the notion that every household and associated archaeological assemblage is unique requires archaeologists and historians to compare and contrast and to establish patterns These comparisons frequently occur at the level of the area or district in the same city where archaeologists seek to derive patterns that might be explained as being the result of status class ethnicity or ideology Other less frequent comparisons occur at larger scales for example between cities or countries acknowledging that the archaeology of the modern western city is also the archaeology of modern global forces of production consumption trade immigration and ideology formation This book makes a contribution to that general literature *Sydney for Kids* Wendy Preston,2009-10 Featuring more than 400 kid friendly destinations and activities this essential guidebook for parents in the Sydney area offers valuable information such as opening hours admissions fees and travel options on everything from museums to puppet shows Organized by theme and weather conditions this handbook caters to families with children up to 12 years old and highlights free and inexpensive destinations Convenient and thorough this updated reference makes the most of of Sydney s best family friendly treasures *Alkaline Rocks and Carbonatites of the World, Part 4* A.R.
