Rocky Mountain Trout Fishing Merton D. Leeper,1991 Describes the art of trout fishing in the Rocky Mountains

Trout Culture Jen Corrinne Brown,2015-05-01 From beer labels to literary classics like *A River Runs Through It* trout fishing is a beloved feature of the iconography of the American West But as Jen Brown demonstrates in *Trout Culture* How Fly Fishing Forever Changed the Rocky Mountain West the popular conception of Rocky Mountain trout fishing as a quintessential experience of communion with nature belies the sport s long history of environmental manipulation engineering and ultimately transformation A fly fishing enthusiast herself Brown places the rise of recreational trout fishing in a local and global context Globally she shows how the European sport of fly fishing came to be a defining tourist attracting feature of the expanding 19th century American West Locally she traces the way that the burgeoning fly fishing tourist industry shaped the environmental economic and social development of the Western United States introducing and stocking favored fish species eradicating the less favored native trash fish changing the courses of waterways and leading to conflicts with Native Americans fishing and territorial rights Through this analysis Brown demonstrates that the majestic trout streams often considered a timeless feature of the American West are in fact the product of countless human interventions adding up to a profound manipulation of the Rocky Mountain environment <https://www.youtube.com/watch?v=ZKMwEkKj9jg>

Bighorn River - Montana, USA Gary David Blount, Normal 0 The Bighorn River which runs through the Crow Indian Reservation opened to the general fishing public in 1981 from action taken by the U S Supreme Court The Bighorn River in Montana begins below the Yellow Tail Dam and After Bay The After Bay was constructed to hold the super saturated Nitrogen water created by peak power generation from Yellowtail Dam allowing the Nitrogen too dissipate before entering the Bighorn River At times the trout below the After Bay experience high levels of Nitrogen and the trout get Nitrogen Narcosis the Bends this can decimated the trout fishery The Bighorn River flows northerly through a wide valley that is heavily farmed and there are irrigation diversion in the lower river divert large volumes of water from the river The highest trout populations and fishing crowds are in the first 13 miles of river below the Yellowtail After Bay The species composition Rainbow and Brown Trout in the Bighorn River have fluctuated wildly since the 1981 trout fishing opener The latest Rainbow Trout population decline is due to Whirling Disease infestation throughout the Bighorn River The Bighorn River is a large western river with very few places a person can walk across the width of the river The water is generally clear except during run off when water is released over Yellowtail Dam The shoreline along the river and the many islands are filled with large Cottonwood Trees The fishing on the river is either exceptional or it is poor Some of the runs below a riffle run may contain over a thousand trout in just a few hundred yards of river Many of the guides on the river have their client's fish nymphs through these large pods of trout Fishing in this manner can get anyone into hooking fish The reason is the trout are stacked in the run like cordwood and while the trout is gilling for oxygen their mouths open and the tippet is pulled through their mouths and the fly inadvertently sticks the fish in the mouth I have observed this many times while snorkeling Normal 0 Normal 0 This book's purpose is to provide factual data and useful information needed to experience a successful day fishing for Wild Trout in the Rocky Mountains It is not uncommon to spend hundreds if not thousands of dollars in the

pursuit of fishing for Wild Trout This book can provide the needed information for a successful fishing trip water temperature water level water turbidity air temperature weather conditions daily hatches stomach analysis from Wild Trout landed GDB flies fished fly fishing presentations trout species trout lengths and geographic location An Outfitter or Guide will charge you 300 00 to as high as 500 00 for a day of fishing but by reading this book you will be able to catch Wild Trout on your own The GDB Flies used to catch and land all the Wild Trout contained in this book were Originated and Hand Tied by the Author
