Congress. House. Committee on Foreign Affairs. Subcommittee on International Security, International Organizations, and Human Rights, 1994 *Congress Oversees the United States Intelligence Community, 1947-1994* Frank John Smist, 1994 Foreseeing conflict between the legislative and executive branches over the proper functions of government the Founders of the United States built into the U S Constitution the checks and balances that Edwin S Corwin called an invitation to struggle Smist argues that congressional intelligence oversight committees such as Senator Church's 1975-76 committee can by taking up this struggle not only handle sensitive information responsibly but help shape rational foreign policy When Congress is shut out of the intelligence process as in President Carter's abortive Iran rescue mission and Reagan's Iran Contra affair the results can be catastrophic Smist's detailed analysis of congressional oversight of U S intelligence from Pearl Harbor through Iran Contra is based largely on his interviews with participants including senators representatives and executive branch officials The analysis is informed by Smist's dialectical model of institutional conservative supportive versus investigative radical questioning oversight which allows him to uncover the frequently obscured historical value of previous Senate and House investigative committees For example the Pike committee 1975-76 even though its final report was suppressed by the House was able to elicit then Secretary of State Kissinger's admission of presidential control over covert actions thus shattering the doctrine of plausible deniability Because these committees continue to wrestle with the principles underlying government their unfolding drama is meaningful for the student of constitutional history This book provides new conceptual tools for the study of intelligence oversight and gives the direct testimony of key participants making it important not only as political science but as history *Hastings Communications and Entertainment Law Journal (Comm/Ent)*, 1996 **The North Korean Nuclear Weapons Crisis** J.
