Rogue Flows Transasian Cultural Traffic:

Rogue Flows Koichi Iwabuchi, Stephen Muecke, Nabdt Thomas, 2004-11-01 *Rogue Flows* brings together some of the best and most knowledgeable writers on consumption and cultural theory to chart the under explored field of cultural flows and consumption across different regions in Asia and the importance of these flows in constituting contemporary Asian national identities. It offers innovative possibilities for envisioning how the transfer of popular and consumer culture such as TV music film advertising and commodities across Asian countries has produced a new form of cross cultural fertilisation within Asian societies which does not merely copy Western counterparts. *Rogue Flows* is unique in its investigation of how Asianness is being exploited by Asian transnational cultural industries and how it is involved in the new power relations of the region. It is an important contribution to the literature of Asian cultural studies. *Cultural Studies and Cultural Industries in Northeast Asia* Chris Berry, Nicola Liscutin, Jonathan D. Mackintosh, 2009-05-01

These timely essays highlight regional cross fertilization in music film new media and popular culture in Northeast Asia including analysis of gender and labor issues amid differing regulatory frameworks and public policy concerning cultural production and piracy. *Gender, Media and Modernity in the Asia-Pacific* Catherine Driscoll, Meaghan Morris, 2015-10-14 This collection offers a range of cultural studies perspectives on the ways gender and modernity intersect in media produced in the Asia Pacific region. It spans different ideas about modernity in the region different approaches to cultural analysis and different media forms from Taiwanese lifestyle television to avant garde Indian cinema from the emergence of a Chinese youth culture in online social networks to the alienation of country girls as imagined by Australian soap opera and from the fantastic politics of migrating bodies in Korean cinema to the masculine mimicry of fighting women in South East Asian action movies. Together these essays explore the ways that media both records and helps produce images and experiences of modernity and the integral role gender plays in those processes. This book was originally published as a special issue of *Cultural Studies*. **Creativity and Culture in**

Greater China Chi-Cheung Leung, Sonny Shiu-Hing Lo, 2015-06-01 This publication unveils creative ideas on knowledge transfer from historical references to commercialization of cultural products. It adopts multidisciplinary cross cultural and experimental approaches to study the cultural industries including art music popular culture psychology entrepreneurship and economic studies. These scholarly thoughts and ideas were presented in the two conferences held at the Hong Kong Institute of Education in the summer of 2013. The chapters critically evaluate the current situation of the cultural industries and review the underlying relationships between the different sectors in the field. By assessing the development of the cultural industries the authors hope that market and government intervention can enhance further consolidation and minimize hindrance to the growth of creativity. *Genre in Asian Film and Television* F. Chan, A. Karpovich, X. Zhang, 2011-03-29

Genre in Asian Film and Television takes a dynamic approach to the study of Asian screen media previously under represented in academic writing. It combines historical overviews of developments within national contexts

with detailed case studies on the use of generic conventions and genre hybridity in contemporary films and television programmes *Popular Culture and the State in East and Southeast Asia* Nissim Otmazgin, Eyal Ben-Ari, 2013-03-01 This volume examines the relations between popular culture production and export and the state in East and Southeast Asia including the urban centres and middle classes of Taiwan South Korea Japan Singapore Indonesia Malaysia China Thailand and the Philippines It addresses the shift in official thinking toward the role of popular culture in the political life of states brought about by the massive circulation of cultural commodities and the possibilities for attaining soft power In contrast to earlier studies this volume pays particular attention to the role of states and cross state cultural interactions in these processes It is the first major attempt to look at these issues comparatively and to provide an important corrective to the limitations of existing scholarship on popular culture in Asia that have usually neglected its political aspects As part of this move the essays in this volume suggest a widening of disciplinary perspectives Hitherto the preponderance of relevant studies has been in cultural and media fields anthropology or history Here the contributors explicitly draw on other disciplinary perspectives political science and international relations political economy law and policy studies to explore the complex interrelationships between the state politics and economics and popular culture This book will be of interest to students and scholars of Asian culture society and politics the sociology of culture political science and media studies
