Role Of Consumer Organisations In Consumer Protection:

Role of Consumer Organisations in Consumer Protection Chandrakant Sharma,1995 In the Indian context

Competition Law and Consumer Protection Katalin Judit Cseres,2005-01-01 The assumption that competition law and consumer protection are mutually reinforcing is rarely challenged The theory seems uncontroversial However because a positive interaction between the two is presumed to be self evident the frequent conflicts that do in fact arise are often dealt with on an ad hoc basis with no overarching legal authority There is a clear need for a detailed and coherent understanding of exactly where the complements and tensions between the two policy areas exist Dr Cseres in depth analysis provides that understanding Proceeding from the dual perspective of law and economics that is of justice fairness and reasonableness on the one hand and of efficiency of the other she fully considers such underlying issues as the following the role of competition law and consumer law in a free market economy the notion of consumer welfare the effect of the modernisation of EC competition law for consumers economics theories of information bounded rationality and transaction costs the special significance of vertical agreements and merger control and how consumers are affected by information asymmetries The ultimate focus of the book is on current and emerging EC law in which a rapprochement between the two areas seems to be under way Dr Cseres provides a knowledgeable guide to the various strands of theory policy and jurisprudence that she shows ought to be taken into account in the process including schools of thought and law and policy experience in both Europe and the United States A special chapter on Hungary where post 1989 law and practice reveal a fresh and distinctly forward looking understanding of the matter is one of the book s most extraordinary features *Competition Law and Consumer Protection* stands alone as a committed contribution to bridging a gap in legal knowledge the significance of which grows daily It will be of immeasurable value to a wide range of professionals from academics and researchers to officials policymakers and practitioners in competition law consumer protection advocacy economic theory and planning business administration and various pertinent government authorities

Enforcement and Effectiveness of Consumer Law Hans-W. Micklitz,Geneviève Saumier,2018-07-06 The book focusses on the enforcement of consumer law in order to identify commonalities and best practices across nations It is composed of twenty eight contributions from national rapporteurs to the IACL Congress in Montevideo in 2016 and the introductory comparative general report The national contributors are drawn from across the globe with representation from Africa 1 Asia 5 Europe 15 Oceania 2 and the Americas 5 The general report proposes a general introduction to the question of enforcement and effectiveness of consumer law It then proceeds to identify the variety of ways in which national legislatures approach this question and the diversity of mechanisms put in place to address it The general report uses examples drawn from the reports to illustrate common approaches and to identify more original or distinct unique approaches taking into account the reported strengths and weaknesses of each The general report consistently points readers to particular national reports on specific issues inviting readers to consult these individual

contributions for more details The national contributions deal with the following areas the national legal framework for consumer protection the general design of the enforcement mechanism the number and characteristics of consumer complaints and disputes the use of courts and specialized agencies for the enforcement of consumer law the role of consumer organizations and of private regulation in the enforcement of consumer law the place of collective redress mechanism and of alternative dispute resolution modes the sanctions for breaches of consumer law and the nature of external relations or cooperation with other countries or international organizations These enriching national and international perspectives offer a comprehensive overview of the current state of consumer law around the globe

Care Sri Ram Khanna, Savita Hanspal, 2020-09-21 The subject of this book explains the social framework of consumer rights and legal framework of protecting consumer rights that has evolved in India over the last three decades It also explains the momentous changes in Indian consumer markets over this period as a result of economic liberalisation and provides an understanding of the problems consumers face in markets and the consumer detriment there from It analyses the buying behavior of consumers as well as the phenomena of consumer complaints and the processes and systems to address them The development of the consumer jurisprudence in settling consumer disputes in consumer courts under the Consumers Protection Act of 1986 and 2019 is examined in detail Leading cases are used to explain important concepts It also addresses the role played by quality and standardization in the market place and the roles of different agencies in establishing product and service standards The student should be able to comprehend the business firms interface with consumers and the consumer related regulatory and business environment for major consumer industries of India

The Making of Consumer Law and Policy in Europe Hans-W. Micklitz, 2021-11-04 This book analyses the founding years of consumer law and consumer policy in Europe It combines two dimensions the making of national consumer law and the making of European consumer law and how both are intertwined The chapters on Germany Italy the Nordic countries and the United Kingdom serve to explain the economic and the political background which led to different legal and policy approaches in the then old Member States from the 1960s onwards The chapter on Poland adds a different layer the one of a former socialist country with its own consumer law

and how joining the EU affected consumer law at the national level The making of European consumer law started in the 1970s rather cautiously but gradually the European Commission took an ever stronger position in promoting not only European consumer law but also in supporting the building of the European Consumer Organisation BEUC the umbrella organisation of the national consumer bodies The book unites the early protagonists who were involved in the making of consumer law in Europe Guido Alpa Ludwig Kr mer Ewa Letowska Hans W Micklitz Klaus Tonner Iain Ramsay and Thomas Wilhelmsson supported by the younger generation Aneta Wiewi rowska Domagalska Mateusz Grochowski and Koen Docter who reconstructs the history of BEUC Niklas Olsen and Thomas Roethe analyse the construction of this policy field from a historical and sociological perspective This book offers a unique opportunity to understand a legal and political field that of consumer law and policy which plays a fundamental role in our contemporary societies *The Transformation of Consumer Law and Policy in Europe* Hans-W.
