Role of the Military in Underdeveloped Countries John Asher Johnson, 2015-12-08 This volume examines the social and political role of the armed forces in the emergent countries of Latin America Southeast Asia Sub Saharan Africa and the Middle East The contributors include such distinguished historians and political scientists as Belmont Brice James S Coleman and Lucian W Pye They offer here some searching observations on the political structure of the new states on the relationship between the needs of internal order and those of external defense and on the curious fact that military regimes while they have promoted national development social change and free political practices in some countries have hampered similar growth in others Originally published in 1962 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Role of the Military in Underdeveloped Countries* John J. Johnson, 1967 **The Role of the Military in Underdeveloped Countries** John J. Johnson, 1972 The Role of Military in Underdeveloped Countries John F. Kennedy Special Warfare Center and School (U.S.), 1961 *The Role of the Military in Underdeveloped Countries* Rand Corporation, 1962 Papers of a conference sponsored by the Rand Corporation at Santa Monica Calif in August 1959 **Role of the Military in Underdeveloped Countries** John J. Johnson, 1981 The role of the military in underdeveloped countries John J. Johnson, **The Role of the Military in Underdeveloped Countries. Edited by John J. Johnson. [By Various Authors.]** John J. JOHNSON, 1962 **The Role of the Military in Underdeveloped Countries** United States. Army. Special Warfare School, 1961 *Role of the Military in Less Developed Countries* United States. Department of State. External Research Staff, 1964 *Guarding the Guardians* Mathurin C. Hounnikpo, 2016-04-22 The relationship between civil society and the armed forces is an essential part of any polity democratic or otherwise because a military force is after all a universal feature of social systems Despite significant progress moving towards democracy among some African countries in the past decade all too many African militaries have yet to accept core democratic principles regulating civilian authority over the military This book explores the theory of civil military relations and moves on to review the intrusion of the armed forces in African politics by looking first into the organization and role of the army in pre colonial and colonial eras before examining contemporary armies and their impact on society Furthermore it revisits the various explanations of military takeovers in Africa and disentangles the notion of the military as the modernizing force Whether as a revolutionary force as a stabilizing force or as a modernizing force the military has often been perceived as the only organized and disciplined group with the necessary skills to uplift newly independent nations The performance of Africa s military governments since independence however has soundly disproven

this thesis As such this study conveys the necessity of new civil military relations in Africa and calls not just for civilian control of the military but rather a democratic oversight of the security forces in Africa

Political Roles and Military Rulers Amos Perlmutter, 2014-04-23 This book represents three decades of Perlmutter's experiences and observations The author studies the relationship between the military and politics in Middle East focusing mainly on Egypt as a case study He concludes by analysing the effect this internal relationship has on military performance

The Military's Impact on Democratic Development David Kuehn, 2019-10-23 Despite the decline in the number of military coups since the 1960s and 1970s Militaries continue to be crucial political actors in many world regions Their impact on the democratic development of nations however has been mixed On the one hand coups against democratically elected leaders in Mali 2012 Egypt 2013 and Thailand 2014 have spelled doom for these countries nascent democratic regimes and have ushered in new periods of military dominance in politics The cases of Portugal 1974 the Philippines 1986 and Tunisia 2011 on the other hand show that the military's decision not to defend authoritarian leaders against mass protests contributed crucially to the fall of dictatorships and facilitated transitions to democracy This volume addresses the military's ambivalent role as midwife or gravedigger of democracy and highlights the often multi layered and complex relationship between militaries political behaviour and democratization The chapters were originally published in a special issue of Democratization

Military Institutions and Coercion in the Developing Nations Morris Janowitz, 1988-02-29 This book includes Janowitz's seminal work The Military in the Political Development of New Nations with additional new analysis of Latin American nations and of the increasing significance of paramilitary and police forces in authoritarian regimes in developing nations

'Bayo Adekanye, 2024-10-11 Comprising critical writings in civil military relations theory and research this book of essays integrates the ideas and insights drawn from political science particularly its subfields of comparative politics theory and methodology both normative and empirical with those from the combined disciplines of philosophy of science history sociology and development studies bringing out the relevance of these ideas and insights for understanding and analysing the issues central to the place and role of military in the Nigerian society This book will be useful to students academics journalists and activists working on Nigeria in particular and Africa in general Print edition not for sale in Nigeria

Military Industry and Regional Defense Policy Timothy D. Hoyt, 2017-07-05 Military Industry and Regional Defense Policy re examines military industrialization in the developing world focusing on policy making in producer states and the impact of security perceptions on such policy making Timothy D Hoyt reassesses the role of regional state sub systems in international relations and recent historical studies of international technology and arms transfers Looking at Israel Iraq and India the three most powerful regional powers in the Cold War era he presents an expert analysis of the three sided phenomena of the regional hegemony the regional competitor and the small over achiever This new book breaks away from existing literature on military industries

in the developing world which has focused on their economic and development costs and benefits These past studies have used primitive methodologies that focus on the production of complete weapons systems a misleading gauge in a world of growing international defense cooperation They have also ignored empirical evidence of the impact of local military industrial production on Cold War regional conflict and of the defence planning and concerns that drove development of indigenous military industries in key regional powers This new text delivers an incisive new perspective

Paden, 1989-07-17 Black Africa presents political economic and social data for 41 black African nations The first edition was published in 1972 and included only data on 32 countries which was the total number of independent African nations at that time Enlarging on the first edition this second edition covers in detail important aspects of the countries included from demography to political development and social mobilization to a modern comparative analysis of African states Black Africa is a complete and comprehensive handbook The first edition of Black Africa won a Book of the Year Award from the American Library Association
