with new illustrative examples These lectures deepen and develop key elements found in his fundamental works Occult Science An Outline and Theosophy Also featured are the fascinating question and answer sessions from the Kassel lectures In Basel Switzerland Rudolf Steiner discusses that most esoteric of the accounts of the life of Christ the Gospel of John Whilst the focus is on the gospel basic tenets of spiritual science human existence and world evolution are considered as is the concept of karma and the true nature of Christianity In both sets of lectures Steiner dwells on the Prologue to the Gospel of John given in his own translation which offers a meditative approach to gaining insight into both the gospel and Christianity as a whole Rather than distancing us from life each of the lectures in this volume brings us closer to reality As Rudolf Steiner states Rosicrucian theosophy does not make us into eccentrics outsiders but into friends of existence for it doesn't look down on everyday life alienating us from our mission on earth it brings us closer
