first developed by the Royal Canadian Air Force RCAF in the 1950s 5BX five basic exercises was the brainchild of Bill Orban who was tasked with developing a fitness plan for the pilots of the RCAF many of whom were considered unfit to fly at the time The plans met two criteria they were time efficient just 11 minutes and they required no additional equipment Orban devised a plan that was progressive and effective and more than 65 years on those plans are as relevant today as they were in the 1950s The founder of BX fitness plans first discovered 5BX in the 1970s and then re discovered these exercises after a 40 year break Although four decades older he was soon on his way to a healthier and more active life His goal now is to make the BXPlans relevant to all generations The premise simple exercises that can be done anywhere and only take 11 minutes and can be used by adults and children The plans get you into an exercise routine which is the foundation of a healthy active life BX fitness programmes offer an easy way to get fit and through their progressive nature guide you to reach your fitness potential In this book we have adapted the 5BX fitness programme to make it both relevant and simple to implement so whether you are a parent carer teacher coach or teaching assistant you will have the resources to offer a fun filled practical route to helping children live an active and healthy lifestyle *Sex and the Office* Helen Gurley Brown,2012-07-10
