Santa The Person:

Santa Claus Worldwide Tom A. Jerman, 2020-05-01 This is a comprehensive history of the world's midwinter gift givers showcasing the extreme diversity in their depictions as well as the many traits and functions these characters share. It tracks the evolution of these figures from the tribal priests who presided over winter solstice celebrations thousands of years before the birth of Christ to Christian notables like St Martin and St Nicholas to a variety of secular figures who emerged throughout Europe following the Protestant Reformation. Finally, it explains how the popularity of a poem about a miniature sleigh and eight tiny reindeer helped consolidate the diverse European gift givers into an enduring tradition in which American children awake early on Christmas morning to see what Santa brought. Although the names, appearance, attire, and gift giving practices of the world's winter solstice gift givers differ greatly, they are all recognizable as Santa, the personification of the Christmas and Midwinter festivals. Despite efforts to eliminate him by groups as diverse as the Puritans of seventeenth century New England, the Communist Party of the twentieth century Soviet Union, and the government of Nazi Germany, Santa has survived and prospered, becoming one of the best known and most beloved figures in the world. **Cold**

Rush Sari Pietikäinen, 2024-09-23 This book is an original study of Cold Rush, an accelerated race for the extraction and protection of Arctic natural resources. The Northernmost reach of the planet is caught up in the double developments of two unfinished forces rapidly progressing: climate change and global economic investment working simultaneously in tension and synergy. Neither process is linear or complete, but both are contradictory and open-ended. This book traces the multiplicity of Cold Rush in the Finnish Arctic, a high-stakes ecological, economic, and political hotspot. It is a heterogeneous space understood as indigenous land within local indigenous Sámi politics, the last frontier from a colonial perspective, and a periphery under the modernist nation-state regime. It is now transforming into an economic hub under global capitalism, intensifying climate change and unforeseen geopolitical changes. Based on six years of ethnography, the book shows how people struggle, strategize, and profit from this ongoing complex and multidirectional change. The author offers a new theoretical approach called critical assemblage analysis, which provides an alternative way of exploring the dynamics between language and society by examining the interaction between material, discursive, and affective dimensions of Cold Rush. The approach builds on previous work at the intersection of critical discourse analysis, critical sociolinguistics, nexus analysis, and ethnography but expands toward works by philosophers Michel Foucault, Gilles Deleuze, and Félix Guattari. This book will be of interest to researchers on language, discourse, and sociolinguistics interested in engaging with social critique embedded in global capitalism and accelerating climate change, as well as researchers in the social and human sciences and natural sciences who are increasingly aware of the fact that the theoretical and analytical move beyond the traditional dichotomies like language/society, nature/human, and micro/macro is central to understanding today's complex, intertwined social, political, economic, and ecological processes. **Christmas in Cleveland** Alan F.
