Separate Canaan:

A Separate Canaan Jon F. Sensbach, 2012-12-01 In colonial North Carolina German speaking settlers from the Moravian Church founded a religious refuge an ideal society they hoped whose blueprint for daily life was the Bible and whose Chief Elder was Christ himself As the community's demand for labor grew the Moravian Brethren bought slaves to help operate their farms shops and industries Moravians believed in the universalism of the gospel and baptized dozens of African Americans who became full members of tightly knit Moravian congregations For decades white and black Brethren worked and worshiped together though white Moravians never abandoned their belief that black slavery was ordained by God Based on German church documents including dozens of rare biographies of black Moravians *A Separate Canaan* is the first full length study of contact between people of German and African descent in early America Exploring the fluidity of race in Revolutionary era America it highlights the struggle of African Americans to secure their fragile place in a culture unwilling to give them full human rights In the early nineteenth century white Moravians forsook their spiritual inclusiveness installing blacks in a separate church Just as white Americans throughout the new republic rejected African American equality the Moravian story illustrates the power of slavery and race to overwhelm other ideals *Hope's Promise* S. Scott Rohrer, 2014-04 A fresh perspective on the interaction of religious ideals and social change in rural settlements of the Moravian colony of Wachovia

Separating Abram and Lot Dan Rickett, 2019-10-01 In *Separating Abram and Lot* The Narrative Role and Early Reception of Genesis 13 Dan Rickett presents a fresh analysis of two of Genesis most important characters Many have understood Lot as Abram's potential heir and as an ethical contrast to him Here Rickett explores whether these readings best reflect the focus of the story In particular he considers the origin of these readings and how a study of the early Jewish and Christian reception of Genesis 13 might help identify that origin In turn due attention is given to the overall purpose of Genesis 13 as well as how Lot and his function in the text should be understood *The Colonial Towns of Piedmont North Carolina* Christopher E. Hendricks, 2024-11-15 How do towns come into existence What circumstances determine whether they succeed or fail In *The Colonial Towns of Piedmont North Carolina* author Christopher E. Hendricks looks at one region in eighteenth century America to explore answers to these questions He examines the establishment and development of eleven towns in the Piedmont classifying them into three types county towns formed by the establishment of government institutions such as a courthouse trade towns formed around commercial opportunities and religious towns such as the three towns developed in Wachovia a region where Moravians settled He uses these classifications to tell the stories of how these towns came into being and how in their development they struggled against economic cultural and political challenges Ultimately *The Colonial Towns of Piedmont North Carolina* deepens our understanding of the influence that American towns had on the settlement of the backcountry Hendricks tells the poignant story of the Moravians struggle to maintain their neutral stance during the Revolutionary War surviving exploitation and

brutality from both the Continental Army and the British. The author also integrates the history of Native Americans into this mix of competing forces and shows how they were challenged by and resisted the newcomers. He emphasizes the role of individual initiative as well as the impetus of government specifically courthouses in establishing towns. By utilizing a variety of rarely examined primary sources, methodological approaches ranging from geographic theory to material culture studies and a deep examination of local history, Hendricks provides a comprehensive analysis of the emergence of these towns on the frontier.

Moravian Americans and their Neighbors, 1772-1822 Ulrike Wiethaus, Grant McAllister, 2022-11-28. American Moravians and their Neighbors 1772-1822, edited by Ulrike Wiethaus and Grant McAllister, offers an interdisciplinary examination of Moravian Americanization in the Early Republic. With an eye toward the communities that surrounded Moravian settlements in the Southeast, the contributors examine cultural, social, religious, and artistic practices of exchange and imposition framed by emergent political structures that encased social privilege and marginalization. Through their multidisciplinary approach, the authors convincingly argue that Moravians encouraged assimilation, converged with core values and political forces of the Early Republic, but also contributed uniquely Moravian innovations. Residual, newly dominant, and increasingly subjugated discourses among Moravians, other European settlers, Indigenous nations, and free and enslaved communities of color established the foundations of a new Moravian American identity. Contributors include Craig D. Atwood, David Bergstone, David Blum, Stewart Carter, Martha B. Hartley, Geoffrey R. Hughes, Winelle Kirton, Roberts Grant P. McAllister, Thomas J. McCullough, Paul Peucker, Charles D. Rodenbough, John Ruddiman, Jon F. Sensbach, Larry E. Tise, Riddick Weber, and Ulrike Wiethaus.

Religion on the Margins Benjamin M. Pietrenka, 2024-09-30. In the eighteenth century, missionaries of the radical Pietist Moravian Church wandered from Germanic Europe to the edges of the known world in search of tolerance and a closer relationship to God. This open-minded cosmopolitan undertaking led to unintended consequences; however, both for the Moravians and for the other persecuted peoples, European, African, and Indigenous, they sought to convert. *Religion on the Margins* examines the complexities of early modern Moravians as a cosmopolitan community focused on an eschatological global vision while having to negotiate diverse cultures and, most importantly, the institution of slavery. Drawing on a transatlantic archive of teachings, letters, and diaries, Benjamin M. Pietrenka sheds light on how a professedly anti-colonial cast of characters navigated and found themselves taking part in a deeply colonial narrative. Ultimately, Pietrenka shows how the Moravians, operating from within the constraints of mission work, became complicit in the European imperial project in spite of their stated values and their own experience of marginalization. For scholars of early modern religion, empire, and politics, Pietrenka's book challenges tendencies in the field to equate modernity with secularization and invites us to consider how non-elite actors understood religion and ethnicity through each other in ways that contributed to the emergence of modern scientific racism and white supremacy.
