Sermons On Melchizedek And Abraham Justification Faith And Obedience:

Sermons on Melchizedek & Abraham John Calvin, Jean Calvin, 2000 The book is complete and unabridged and is not to be confused with Calvin's commentaries This work is not a facsimile but has been edited to reflect contemporary spelling and bracketed words in italics are inserted following some antiquated terms or phrases as a convenience for the modern reader The brief Scripture sections preceding each sermon have been stylishly typeset to approximate their original appearance This was done for two reasons to maintain an accurate reproduction of the English text translated from Calvin's French translation and to offer to the reader a taste of the rich and full majesty that so beautifully flows from translations of the Reformation era Author John Calvin 1509-1564 One of the most influential reformers his work was of significance throughout Europe and beyond *The Calvin Handbook* H. J. Selderhuis, 2009-08-05 Research on French theologian John Calvin is flourishing around the world and his quincentennial in 2009 has given such research even greater momentum Designed to support and stimulate this research The Calvin Handbook gathers contributions from internationally renowned scholars Offering a comprehensive view of Calvin's life his theology and the history of his reception this handbook is a uniquely helpful resource on Calvin for readers of every interest level *Doctrine in Development* Heber Campos de Campos, 2017-10-15 *Doctrine in Development* examines the doctrine of the imputation of Christ's active obedience with a focus on the thought of Johannes Piscator Challenging earlier scholarship that regarded the doctrine as clearly present in the Reformers Heber Campos shows how Piscator's exegetical and theological arguments generated responses that brought together several other doctrines to support the imputation of Christ's active obedience in a way that Reformed theologians had not previously done Viewing Piscator's objections to the imputation of Christ's positive righteousness as a turning point in the Reformed understanding of active obedience Campos highlights the process of doctrinal development regarding Christ's satisfaction **The Way of Salvation** Paul A. Rainbow, 2012-12-01 Martin Luther invented the Reformation slogan sola fide by faith alone which Philipp Melancthon and John Calvin brandished and defended Most Protestants since their time have swallowed it whole But is evangelical obedience the good works that follow faith and are produced by grace excluded from the basis for justification or otherwise Asserting that there is no more serious question bearing upon the destiny of human beings than how sinners can be justified before a Holy God Paul Rainbow examines current and traditional treatments of faith works and justification marshals a biblical case majoring on the New Testament teaching of Paul and James and offers a series of systematic historical and pastoral reflections *Creator and Creation according to Calvin on Genesis* Rebekah Earnshaw, 2020-07-13 In her work Rebekah Earnshaw provides an analysis of *Creator and creation according to Calvin on Genesis* This offers a new theological reading of Calvin's Genesis commentary and sermons with an eye to systematic interests This analysis is presented in four chapters The Creator The Agent and Act of Creation Creatures and Providence Calvin on Genesis gives unique insights into each of these First the Creator has priority in Calvin's thought The

Creator is 1 Eternal who is infinitely distinct and abundantly for creatures in his virtues Second the agent of creation is triune and the act of creation is from nothing as well as in and with time This is a purposeful beginning Third Calvin affirms creaturely goodness and order The relation of humans and animals illustrates Calvin s holistic view of creation as well as the impact of corruption and disorder Providential sustenance and concursus are closely tied to the nature of creatures and the initial word Fourth fatherly governance for the church is presented separately and demonstrated by Calvin s treatment of Abraham and Joseph Earlier presentations of Calvin on Creator and creation are incomplete because of the lack of sustained attention to Calvin on Genesis This analysis supplements works that concentrated on the Institutes and Calvin on Job by bringing new material to bear Further throughout this analysis lies the implicit example of a biblical theologian who pursues what is useful from scripture for the sake of piety in the church Insights from Calvin s thought on Genesis provide a foundation for systematic work that reflects on this locus and the integrated practice of theology

Biblical Interpretation and Doctrinal Formulation in the Reformed Tradition Arie C. Leder, Richard A. Muller, 2014-04-16 The Reformed tradition is characterized by a rigorous commitment to theological formulation yet it is equally known for its commitment to rooting its life and practice in the authority of God s Word While these two commitments are commonly acknowledged the path from biblical interpretation to doctrinal formulation is often overlooked Examining a diverse group of thinkers across the chronological and international spectrum of the Reformed tradition this book demonstrates the depth and intricacies involved in the tasks of exegesis and dogmatic construction the ways they intersect and the effect it has on the church

Life in Christ Mark A. Garcia, 2008-04-01 In three wide ranging case studies Mark A Garcia offers a comprehensive yet focused analysis of the centrality of union with Christ in Calvin s thought It explains not only the distinctive nature of Calvin s response to Rome on justification but why this response must be carefully distinguished from that of his Lutheran counterparts The fruit of these investigations is the first

extensive demonstration that Calvin's exposition of union with Christ in relating justification and sanctification points to an emerging Reformed theology of justification that diverges from the Lutheran tradition Calvin's exegetical and theological model of union with Christ accents the importance in the early Reformed tradition of the relationship between Christology and salvation

Unbinding the Binding of Isaac Mishael M. Caspi, John T. Greene, 2006-10-17 Unbinding the Binding of Isaac is an anthology of three faiths' interpretations of the Genesis 22:1-19 story The various exegeses of this story have been mined by the Jewish, Islamic, and Christian faiths for a protracted period of time The Aqedah as the binding story is known universally stimulates the interests and imaginations of theologians, linguists, poets, historians, and artists of various skills and stripes The Aqedah continues to stimulate inquiry and application to modern situations Unbinding the Binding of Isaac is at once ancient and modern in its scope, purpose, and relevance to scholarly inquiry regarding this ongoing debate

Children before God John McNeill, 2017-11-09 This work seeks to delineate a theological framework into which biblically informed imagery and language of children in relation to God can be placed McNeill's aim is to offer a work of positive construction within the general Reformed tradition The book shows that John Calvin has much to offer in this respect but by examining the imagery and language of children in his works it is shown that Calvin is not adequately biblically informed in this area McNeill argues that Jonathan Edwards provides a theological tool that enables a construal of children more in keeping with biblical language and imagery The book then offers a general critique of current child development theories in which providential activity in child development is more or less ignored By adopting Calvin's theological framework to understand children before God it is argued that the integration of child development and divine providence becomes a distinct possibility This work should be of interest to those working in biblical childhood, Calvin and Edwards studies, as well as to the more general practitioner working with children in church and society

Church and School in Early Modern Protestantism Jordan Ballor, David Sytsma, Jason Zuidema, 2013-08-08 A great deal of scholarship has too often juxtaposed scholasticism and piety, resulting in misunderstandings of the relationship between Protestant churches of the early modern era and the theology taught in their schools But more recent scholarship, especially conducted by Richard A. Muller over the last number of decades, has remapped the lines of continuity and discontinuity in the relation of church and school This research has produced a more methodologically nuanced and historically accurate representation of church and school in early modern Protestantism Written by leading scholars of early modern Protestant theology and history and based on research using the most relevant original sources, this collection seeks to broaden our understanding of how and why clergy were educated to serve the church Contributors include Yuzo Adhinarta, Willem van Asselt, Irena Backus, Jordan J.
