Morelia Los Pasos A La Modernidad:

Morelia, los pasos a la modernidad José Alfredo Uribe Salas, 1993 Don Porfirio presidente-- , nunca omnipotente Romana Falcón, Raymundus Thomas Joseph Buve, 1998 Excellent compilation of 18 essays devoted to the Porfiriato Especially recommended are Marichal on the 1888 debt conversion Buve on conflict in the countryside and Leticia Reina on the autonomy of indigenous villages Major contribution to a re evaluation of a complex period Handbook of Latin American Studies v 58 **Agua, cultura y sociedad en México** Patricia Ávila García, 2002 **Making an Urban Public** Christina Jiménez, 2019-05-15 Written as a social history of urbanization and popular politics this book reinserts the public and the city into current debates about citizenship urban development state regulation and modernity in the turn of the century Mexico Rooted in thousands of pages of written correspondence between city residents and local authorities mostly with the city council of Morelia the rhetoric and arguments of resident and city council dialogues often highlighted a person s or group s contributions to the public good effectively positioning petitioners as deserving and contributing members of the urban public Making an Urban Public tells the story of how Morelia s residents particular those from popular groups and poor circumstances claimed and often gained basic rights to the city including the right to both participate in and benefit from the city s public spaces its consumer and popular cultures its modernized infrastructure and services its rhetorical promises around good government and effective policing its dense networks of community and its countless opportunities for negotiating to forward one s agenda and its urban promise for a better life *City Halls and Civic Materialism* Swati Chattopadhyay, Jeremy White, 2014-03-14 The town hall or city hall as a place of local governance is historically related to the founding of cities in medieval Europe As the space of representative civic authority it aimed to set the terms of public space and engagement with the citizenry In subsequent centuries as the idea and built form travelled beyond Europe to become an established institution across the globe the parameters of civic representation changed and the town hall was forced to negotiate new notions of urbanism and public space *City Halls and Civic Materialism Towards a Global History of Urban Public Space* utilizes the town hall in its global historical incarnations as bases to probe these changing ideas of urban public space The essays in this volume provide an analysis of the architecture iconography and spatial relations that constitute the town hall to explore its historical ability to accommodate the public in different political and social contexts in Europe Asia Australia Africa and the Americas as the relation between citizens and civic authority had to be revisited with the universal franchise under fascism after the devastation of the world wars decolonization and most recently with the neo liberal restructuring of cities As a global phenomenon the town hall challenges the idea that nationalism imperialism democracy the idea of citizenship concepts that frame the relation between the individual and the body politic travel the globe in modular forms or in predictable trajectories from the West to East North to South Collectively the essays argue that if the town hall has historically been connected with the articulation of bourgeois civil society then the town hall as a global spatial type

architectural space urban monument and space of governance holds a mirror to the promise and limits of civil society

Urban Theory Beyond the West Tim Edensor, Mark Jayne, 2012-03-12 Since the late eighteenth century academic engagement with political economic social cultural and spatial changes in our cities has been dominated by theoretical frameworks crafted with reference to just a small number of cities This book offers an important antidote to the continuing focus of urban studies on cities in the Global North Urban Theory Beyond the West contains twenty chapters from leading scholars raising important theoretical issues about cities throughout the world Past and current conceptual developments are reviewed and organized into four parts De centring the City offers critical perspectives on re imagining urban theoretical debates through consideration of the diversity and heterogeneity of city life Order Disorder focuses on the political physical and everyday ways in which cities are regulated and used in ways that confound this ordering Mobilities explores the movements of people ideas and policy in cities and between them and Imaginaries investigates how urbanity is differently perceived and experienced There are three kinds of chapters published in this volume theories generated about urbanity beyond the West critiques reworking or refining of Western urban theory based upon conceptual reflection about cities from around the world and hybrid approaches that develop both of these perspectives Urban Theory Beyond the West offers a critical and accessible review of theoretical developments providing an original and groundbreaking contribution to urban theory It is essential reading for students and practitioners interested in urban studies development studies and geography

Business History in Latin America Carlos Dávila, Rory Miller, 1999-03-01 A new edition of a book first published in Bogot this English edition is a crucial addition to the literature on Latin American business history for a wider English speaking audience and it will be of interest to business and economic historians generally Essays are included by leading economic historians of Latin America from the UK and from other countries Each contributor has managed to relate the business history of a selected country to the main trends in its economic development Morelia y su historia Carlos S. Paredes Martínez, 2001 *Historia económica y social de la Compañía y Cooperativa Minera "Las Dos Estrellas," en El Oro y Tlalpujua, 1898-1959* José Alfredo Uribe Salas, 2010 Esta obra muestra rasgos de gran originalidad en su temática y enfoque además de presentar aportes significativos para la historia tanto de la minería de la plata y oro como de las tradicionales empresas mineras mexicanas dedicadas a los metales preciosos tiles para reinterpretar la historia económica regional de México de fines de siglo XIX a mediados del XX Por primera vez contamos con la historia de una empresa minera explotadora de oro ubicada en el centro de México una de las regiones mineras que destacaron en la época virreinal que desde finales del siglo XIX se modernizó al influjo de las inversiones de franceses residentes y pervivió hasta fines de los años treinta del siglo XX como un ejemplo de brote industrial minero en zonas tradicionales Demuestra Uribe que fue en las localidades de El Oro y Tlalpujua donde surgieron modernas formas capitalistas de producción y se aplicó exitosamente la tecnología de punta en los antiguos procesos de extracción y beneficio del oro y de la plata demuestra también que la Compañía Minera Las

Dos Estrellas fue de las pocas que tuvo éxito en su área y que logró sobrevivir por casi cuatro décadas. Los espacios de la muerte en Morelia, 1808-1895 Sonia Alcaraz Hernández, 2008. Después de la heroica fase de la exploración German Rodrigo Mejía Pavony, Gerardo Martínez Delgado, Eduardo Kingman Garcés, Eulalia Hernández Ciro, Landa Izaskun, George A. Ferreira Dantas, Macarena Ibarra, Alicia Novick, Graciela Favelukes, Alfredo Alpini, Sebastián Riveron, Florencia Quesada Avendaño, 2021-08-22 Hay pocos actos más definitorios en la constitución de un campo de conocimiento que una historia que lo aborde los autores de este libro coordinado por dos especialistas destacados en historia urbana de América Latina son muy conscientes de ese rol fundacional al tiempo que su experiencia en esa rama tan particular de la historia que se centra en la ciudad pasible de múltiples enfoques resultantes de tantas disciplinas involucradas en ella los lleva a no abandonar la duda existencial constituye la historia urbana un campo específico El libro es ya una respuesta afirmativa pero quizás lo que mejor defina los trabajos que reúne es la productividad de la dialéctica entre ese empeño y la duda sistemática porque es esa inestabilidad esencial lo que obliga a volver a interrogarse creativamente cada vez sobre el objeto la ciudad y su historia pulsando una tensión conceptual que le da a esta disciplina su carácter experimental tan auspicioso y renovador. **Crédito y financiamiento a la industria minera** Eduardo Flores Clair, 2006-01-01. **Making the City Their Own** Christina Marie Jimenez, 2001. **Urbanización y configuración territorial Valladolid-Morelia** Guillermo Vargas Uribe, 2008. *Morelia* Fernando Antonio Aguilar Méndez, 2001. **Espacio y significado de las haciendas de la región de Morelia: 1880-1940** Ma. del Carmen López Núñez, María del Carmen López Núñez, 2005. **Michoacán en transformación** Salvador García Espinosa, 2010. **Los músicos morelianos y sus espacios de actuación, 1880-1911** Alejandro Mercado Villalobos, 2009. **Historiografía michoacana**, 2000. **Universidad Michoacana en la alborada de un nuevo siglo**, 1994.
