Mecca and Main Street Geneive Abdo,2006-09-11 In Mecca and Main Street noted author and journalist Geneive Abdo offers illuminating answers to these questions Gaining

unprecedented access to Muslim communities in America she traveled across the country visiting schools mosques Islamic centers radio stations and homes She reveals a community tired of being judged by Americans perceptions of Muslims overseas and eager to tell their own stories Abdo brings these stories vividly to life allowing us to hear their own voices and inviting us to understand their hopes and their fears *American Muslims* Asma Gull Hasan, 2002-06-12 The author offers a personal account of her experiences as a Muslim in the United States dispelling many of the myths and misunderstandings about Muslims and comparing Islamic values to American ethical values Being and Belonging Katherine Pratt Ewing, 2008-06-12 The terrorist attacks of September 11 2001 instantly transformed many ordinary Muslim and Arab Americans into suspected terrorists In the weeks and months following the attacks Muslims in the United States faced a frighteningly altered social climate consisting of heightened surveillance interrogation and harassment In the long run however the backlash has been more complicated In *Being and Belonging* Katherine Pratt Ewing leads a group of anthropologists sociologists and cultural studies experts in exploring how the events of September 11th have affected the quest for belonging and identity among Muslims in America for better and for worse From Chicago to Detroit to San Francisco *Being and Belonging* takes readers on an extensive tour of Muslim America inside mosques through high school hallways and along inner city streets Jen nan Ghazal Read compares the experiences of Arab Muslims and Arab Christians in Houston and finds that the events of 9 11 created a cultural wedge dividing Arab Americans along religious lines While Arab Christians highlighted their religious affiliation as a means of distancing themselves from the perceived terrorist sympathies of Islam Muslims quickly found that their religious affiliation served as a barrier rather than a bridge to social and political integration Katherine Pratt Ewing and Marguerite Hoyler document the way South Asian Muslim youth in Raleigh North Carolina actively contested the prevailing notion that one cannot be both Muslim and American by asserting their religious identities more powerfully than they might have before the terrorist acts while still identifying themselves as fully American Sally Howell and Amaney Jamal distinguish between national and local responses to terrorism In striking contrast to the erosion of civil rights ethnic profiling and surveillance set into motion by the federal government well established Muslim community leaders in Detroit used their influence in law enforcement media and social services to empower the community and protect civil rights Craig Joseph and Barnaby Riedel analyze how an Islamic private school in Chicago responded to both September 11 and the increasing ethnic diversity of its student body by adopting a secular character education program to instruct children in universal values rather than religious doctrine In a series of poignant interviews the school's students articulate a clear understanding that while 9 11 left deep wounds on their community it also created a valuable opportunity to teach the nation about Islam The rich ethnographies in this volume link 9 11 and its effects to the experiences of a group that was struggling to be included in the American mainstream long before that fateful day Many Muslim communities never had a chance to tell their stories after September 11 In *Being and Belonging* they get that chance The Black Muslims in

Muslims and the Making of America Amir Hussain,2016 There has never been an America without Muslims so begins Amir Hussain one of the most important scholars and teachers of Islam in America Hussain who is himself an American Muslim contends that Muslims played an essential role in the creation and cultivation of the United States Memories of 9 11 and the rise of global terrorism fuel concerns about American Muslims The fear of American Muslims in part stems from the stereotype that all followers of Islam are violent extremists who want to overturn the American way of life Inherent to this stereotype is the popular misconception that Islam is a new religion to America In *Muslims and the Making of America* Hussain directly addresses both of these stereotypes Far from undermining America Islam and American Muslims have been and continue to be important threads in the fabric of American life Hussain chronicles the history of Islam in America to underscore the valuable cultural influence of Muslims on American life He then rivets attention on music sports and culture as key areas in which Muslims have shaped and transformed American identity America Hussain concludes would not exist as it does today without the essential contributions made by its Muslim citizens Muslims in America Mbaye Lo,2004

Muslims in a Post-9/11 America Rachel M. Gillum,2018-07-27 Muslims in a Post 9 11 America examines how public fears about Muslims in the United States compare with the reality of American Muslims attitudes on a range of relevant issues While most research on Muslim Americans focuses on Arab Muslims a quarter of the Muslim American population Rachel Gillum includes perspectives of Muslims from various ethnic and national communities from African Americans to those of Pakistani Iranian or Eastern European descent Using interviews and one of the largest nationwide surveys of Muslim Americans to date Gillum examines more than three generations of Muslim American immigrants to assess how segments of the Muslim American community are integrating into the U S social fabric and how they respond to post 9 11 policy changes Gillum s findings challenge perceptions of Muslims as a homogeneous isolated un American and potentially violent segment of the U S population Despite these realities negative political rhetoric around Muslim Americans persists The findings suggest that the policies designed to keep America safe from terrorist attacks may have eroded one of law enforcement s greatest assets in the fight against violent extremism a relationship of trust and goodwill between the Muslim American community and the U S government Gillum argues for policies and law enforcement tactics that will bring nuanced understandings of this diverse category of Americans and build trust rather than alienate Muslim communities *American Islam* Richard Wormser,2002-02-01 Interviews with young American Muslims highlight an overview of one of America s most misunderstood religious groups showing how Muslims maintain their traditions in the face of the permissiveness of American society Reprint
