New Cottage Style Allison Serrell, 2011 *The Development of the West of Scotland 1750-1960* Anthony Slaven, 2013-11-05 The economic and social problems of modern Scotland are at the centre of current debate about regional economic growth social improvement and environmental rehabilitation In this book as relevant today as when it was first published in 1975 Anthony Slaven argues that the extent and causes of these problems are frequently underestimated thus making development policies less than fully effective The major economic and social weaknesses of the west of Scotland are shown to be rooted in the regions former strengths The author demonstrates how although the region and its people have resisted change a thriving and self reliant nineteenth century economy based on local resources and manpower has given way in the present century to vanishing skills and products unemployment and social deprivation Since 1945 economic and social planning has helped to improve the situation although many difficulties remain Seen in the historical perspective provided by this revealing study the present industrial problems of the west of Scotland and their remedies become clearer Mr Slaven argues that the older industries deserve more help for without this he believes the ineffectiveness of development policies is likely to be perpetuated This book was first published in 1975 [Becoming Jane](#)

Jacobs Peter L. Laurence, 2016-01-29 Jane Jacobs is universally recognized as one of the key figures in American urbanism. The author of *The Death and Life of Great American Cities* she uncovered the complex and intertwined physical and social fabric of the city and excoriated the urban renewal policies of the 1950s. As the legend goes, Jacobs a housewife single handedly stood up to Robert Moses New York City's powerful master builder and other city planners who sought first to level her Greenwich Village neighborhood and then to drive a highway through it. Jacobs's most effective weapons in these David versus Goliath battles and in writing her book were her powers of observation and common sense. What is missing from such discussions and other myths about Jacobs according to Peter L. Laurence is a critical examination of how she arrived at her ideas about city life. Laurence shows that although Jacobs had only a high school diploma she was nevertheless immersed in an elite intellectual community of architects and urbanists. *Becoming Jane Jacobs* is an intellectual biography that chronicles Jacobs's development influences and writing career and provides a new foundation for understanding *Death and Life* and her subsequent books. Laurence explains how Jacobs's ideas developed over many decades and how she was influenced by members of the traditions she was critiquing including Architectural Forum editor Douglas Haskell shopping mall designer Victor Gruen housing advocate Catherine Bauer architect Louis Kahn Philadelphia city planner Edmund Bacon urban historian Lewis Mumford and the British writers at *The Architectural Review*. Rather than discount the power of Jacobs's critique or contributions Laurence asserts that *Death and Life* was not the spontaneous epiphany of an amateur activist but the product of a professional writer and experienced architectural critic with deep knowledge about the renewal and dynamics of American cities.

Together they are vital building blocks of citizenship. In a vivid and meaningful way this book preserves memories relevant to

understanding the roots of communities on Mount Desert Island Maine The surnames of many of Mount Desert s earliest settlers are still found in today s telephone directories In these families many oral traditions are passed down from generation to generation building outward from a historical core like the rings of a tree Dad used to farm this field Fred L Savage s great nephew Don Phillips told me once gesturing toward an alder growth His father grew vegetables for the hotel and my great grandfather grew grains This road used to go right on up over the hill and they used it to move the cemetery up there from where the hotel is now Describing the field Don ignores the alders and the towering evergreens beyond them for in his mind s eye he sees yellow waving wheat and rye bare ground and a narrow cart track leading up the hill into the distance on which his ancestors tra ported the remains of their own forebears to a new resting place Oral traditions living memory set the stage for him and he accepts the reality of things he has never seen
