The Baba and the Comrade Elizabeth A. Wood, 1997 How could the baba traditionally the backward Russian woman be mobilized as a comrade in the construction of a new state and society Drawing on newly available archival materials historian Elizabeth Wood explores the Bolshevik government's campaign to draw women into the public sphere and involve them in the world of politics in the early Soviet years

Holocaust Studies Steven T. Katz, 2019-04-08 The great

majority of Holocaust scholarship concentrates heavily if not almost completely on the Final Solution from the German side. The distinctive feature of this book both individually and as a collection is its concentration on the Holocaust from a Judeo-centric point of view. The present essays make a unique contribution by exploring issues such as the effect of events specifically on Jewish women and children, the character of the Nazi policy of slave labor in as much as this essential program resulted in different treatment with regard to Jews as compared to other workers, how the destruction of European Jewry has been responded to by Jewish thinkers and how Jewish values such as the well known principle that all Jews are responsible for each other were exemplified and lived out during the war. The collection also includes an essay on Elie Wiesel and another that explores the much discussed very controversial issue of Jewish resistance as well as several essays on philosophical and comparative issues raised by the Shoah. CS1075 *When the Soviet Union Entered World Politics* Jon Jacobson, 2023-11-15

The dissolution of the Soviet Union has aroused much interest in the USSR's role in world politics during its 74 year history and in how the international relations of the twentieth century were shaped by the Soviet Union. Jon Jacobson examines Soviet foreign relations during the period from the end of the Civil War to the beginning of the first Five Year Plan, focusing on the problems confronting the Bolsheviks as they sought to promote national security and economic development. He demonstrates the central importance of foreign relations to the political imagination of Soviet leaders both in their plans for industrialization and in the struggle for supremacy among Lenin's successors. Jacobson adopts a post Cold War interpretative stance incorporating glasnost and perestroika era revelations. He also considers Soviet relations with both Europe and Asia from a global perspective, integrating the two modes of early Soviet foreign relations: revolution and diplomacy into a coherent discussion. Most significantly, he synthesizes the wealth of information that became available to scholars since the 1960s. The result is a stimulating work of international history that interfaces with the sophisticated existing body of scholarship on early Soviet history.

The dissolution of the Soviet Union has aroused much interest in the USSR's role in world politics during its 74 year history and in how the international relations of the twentieth century were shaped by the Soviet Union. Jon Jacobson examines Soviet for [The Primacy of Politics](#) Sheri Berman, 2006-08-07. Political history in the industrial world has indeed ended, argues this pioneering study, but the winner has been social democracy, an ideology and political movement that has been as influential as it has been misunderstood. Berman looks at the history of social democracy from its origins in the late nineteenth century to today and shows how it beat out competitors such as classical liberalism, orthodox Marxism and its cousins Fascism and National Socialism by solving the central challenge of modern politics: reconciling the competing needs of capitalism and democracy. Bursting on to the scene in the interwar years, the social democratic model spread across Europe after the Second World War and formed the basis of the postwar settlement. This is a study of European social democracy that rewrites the intellectual and political history of the modern era while putting contemporary debates about globalization in their proper intellectual and historical context. The War Against the Peasantry, 1927-1930 Lynne Viola, V. P. Danilov, N. A. Ivnitskii, Denis Kozlov, 2008-10-01 The collectivization of Soviet agriculture in the late 1920s and 1930s forever altered the country's social and economic landscape. It became the first of a series of bloody landmarks that would come to define Stalinism. This revelatory book presents with analysis and commentary the most important primary Soviet documents dealing with the brutal economic and cultural subjugation of the Russian peasantry. Drawn from previously unavailable and in many cases unknown archives, these harrowing documents provide the first unimpeded view of the experience of the peasantry during the years 1927-1930. The book, the first of four in the series, covers the background of collectivization, its violent implementation, and the mass peasant revolt that ensued. For its insights into the horrific fate of the Russian peasantry and into Stalin's dictatorship, *The War Against the Peasantry* takes its place as an unparalleled resource.

Southeast Asian Affairs 2001 Daljit Singh, Anthony Smith, 2001 *Southeast Asian Affairs* of which there are now twenty-eight in the series is an annual review of significant developments and trends in the region. Though the emphasis is on ASEAN countries, developments in the broader Asia-Pacific region are not ignored. Readable and easily understood analyses are offered of major political, economic, social, and strategic developments within Southeast Asia. The contributions can be divided into two broad categories: there are those which provide an analysis of major developments during 2000 in individual Southeast Asian countries and in the region generally; then there are the theme articles of a more specialized nature which deal with topical problems of concern. This volume contains twenty-three articles dealing with such major themes as international conflict and co-operation, political stability, and economic growth and development.

Resources for Teaching History: 14-16 Susie Hodge, 2010-09-02 Because teachers have so many things to do, creating new, inspiring lessons can often take a back seat. This book is designed to assist you in providing lesson ideas on everything from women's role in WW1 to the Russian Civil War. With more than 70 curriculum-linked lessons suitable for teaching 14-16 year olds, this fabulously user-friendly resource features activities and teaching strategies based on the latest research and best practice. The practical, task-based activities are aimed at supporting and reinforcing your teaching and promoting pupils' enjoyment of the subject, encouraging their curiosity and imagination, and helping them to develop enquiring minds and engage with the past. There are activities for individual, pair, and group work, and the worksheets are all photocopiable and downloadable.
