National tuberculosis prevalence surveys 2007-2016 ,2021-05-03 Between 2007 and the end of 2016 24 countries implemented a total of 25 national tuberculosis prevalence surveys using methods recommended by WHO The 25 surveys consisted of 13 in Asia and 12 in Africa Collectively survey findings have informed the policies plans and programmatic actions needed to address gaps in TB diagnosis and treatment and to reduce the burden of TB disease Finally the 24 countries have a robust baseline for assessing progress towards new global targets set in the UN Sustainable Development Goals 2016 2030 and WHO s End TB Strategy 2016 2035 The methods results successes achieved challenges faced and lessons learned from the 25 surveys were comprehensively documented in the book We viewed such a product as a global public good that should be available to all those with an interest in and commitment to using survey findings now and in the future e g academics donors public health officers and national TB programmes As with implementation of the 25 surveys themselves the book is the result of a major global regional and national collaborative and collective effort with more than 450 contributors from all around the world **Cumulated Index Medicus** ,1967 **Civil Engineering** ,1995

Developments in Services of General Interest Erika Szyszczak,Jim Davies,Mads Andenæs,Tarjei Bekkedal,2011-05-18

This is the third book in the series Legal Issues of Services of General Interest The book focuses upon a set of research questions on the recent developments in the emergence of services of general interest SGIs as a distinct EU concept This includes inter alia the emergence of universal service obligations and the way they are regulated in the EU in primary and secondary law the range of soft law communications adopted by the Commission to create a distinctive EU concept of SGIs the residual role of hard law in the Treaty on the Functioning of the European Union TFEU the special problems created by

Social Services of General Economic Interest and the interaction of procurement and state aid law with SGIs A new perspective is offered in this book some of the issues faced by the EU in accommodating SGIs into a regulatory framework are found also in the policy of the WTO and in least developed countries LDCs **TDR results 2019 report** ,2021-10-05 The report shows progress made on various indicators related to three overarching categories technical expected results application of organizational core values and managerial performance Ultimately TDR s outputs and outcomes contribute to health impact measured through the achievement of Sustainable Development Goals SDGs and the World Health Organization s WHO Thirteenth General Programme of Work GPW13 triple billion targets Given the adoption of the Sustainable Development Goals by the global community in 2016 TDR developed its 2018 2023 strategy to showcase the Programme s unique contribution through research capacity strengthening and global engagement to improved health quality education enhanced partnerships and other relevant SDG targets guiding international development work over the next 15 years The Performance Framework including a revised set of indicators which is aligned with TDR s 2018 2023 strategy the GPW13 strategic objectives and SDG targets has been in place since 2018 **English Mechanic and World of Science** ,1883 Globalisation, Commodification and Cultural Production in Africa Kathrin Schmidt,2023-12-04 This book engages with contemporary cultural production in Africa focusing on theatre in Sierra Leone as main case study The author provides coverage of and insights into such themes as cultural globalisation commodification the global creative economy culture and development international relations and contemporary cultural production in Sierra Leone within the context of local and global flows of people media images technologies finance and ideas Combining the analysis of theatre in Sierra Leone and its aesthetics with its policy structural and institutional context this book highlights in much detail and nuance the interconnectedness between the micro and the macro levels of cultural production between the local and the global and between aesthetics politics policy governance structures and institutions This book links the particular findings from the author s fieldwork to larger issues of contemporary local cultural production within the context of globalisation commodification and decolonisation adds a postcolonial perspective to existing theories and approaches to cultural production management and policy which is still largely missing from the existing discourse and also contributes to addressing the gap in the knowledge about the context of contemporary cultural productions in diverse African contexts This book will be particularly useful for both theatre scholars with an interest in the political economy of theatre and more broadly those seeking to understand the nuanced challenges and opportunities faced by policymakers artists and arts managers to embrace the cultural and creative industries in this context It also offers excellent insights for policymakers who wish to improve their understanding and interventions beyond superficial best practice snippets and simplified success stories

Urbanization and Slums National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Global Health, Forum on Microbial Threats, 2018-06-08 The urban built environment is a prime setting for microbial transmission because just as cities serve as hubs for migration and international travel components of the urban built environment serve as hubs that drive the transmission of infectious disease pathogens The risk of infectious diseases for many people living in slums is further compounded by their poverty and their surrounding physical and social environment which is often overcrowded is prone to physical hazards and lacks adequate or secure housing and basic infrastructure including water sanitation or hygiene services To examine the role of the urban built environment in the emergence and reemergence of infectious diseases that affect human health the National Academies of Sciences Engineering and Medicine planned a public workshop This publication summarizes the presentations and discussions from the workshop [Innovative Technologies and Clinical Applications for Invasive and Non-Invasive Neuromodulation: From the Workbench to the Bedside](#) Matteo Bologna, Aristide Merola, Lucia Ricciardi, 2020-02-13 The possibility of harvesting the power of electric and magnetic impulses in the human body commonly referred to as neuromodulation is one of the most recent and promising developments of the modern science Since the late 60s multiple invasive and non invasive technologies have been developed and tested in experimental and clinical settings with the final aim of modulating the function of the central and peripheral nervous system Clinical applications include but are not limited to common neurological disorders such as Parkinson s disease and other movement disorders The bulk of evidence supporting the clinical efficacy of various invasive and non invasive approaches for neuromodulation has progressively led scientific societies patients associations and regulatory entities to acknowledge the

critical role played by neuromodulation in the therapeutic algorithms of a wide range of neurological disorders As a result new technologies have been recently introduced into the market or are currently under validation Their potential implementation into innovative protocols for neuromodulation demands a critical revision of what are the unmet needs for neuromodulation in movement disorders **Daily Graphic** Elvis D.
