Recent Perspectives on Task-Based Language Learning and Teaching Mohammad Ahmadian, María del Pilar García Mayo, 2017-12-04 The last three decades have witnessed a growth of interest in research on tasks from various perspectives and numerous books and collections of articles have been published focusing on the notion of task and its utility in different contexts Nevertheless what is lacking is a multi faceted examination of tasks from different important perspectives This edited volume with four sections of three chapters each views tasks and Task based Language Teaching TBLT from four distinct but complementary vantage points In the first section all chapters view tasks from a cognitive interactionist angle with each addressing one key facet of either cognition or interaction or both in different contexts CALL

and EFL/ESL. Section two hinges on the idea that language teaching and learning is perhaps best conceptualized understood and investigated within a complexity theory framework which accounts for the dynamicity and interrelatedness of the variables involved. Viewing TBLT from a sociocultural lens is what connects the chapters included in the third section. Finally, the fourth section views TBLT from pedagogical and curricular vantage points.

Anglophone Literature in Second-Language Teacher Education Justin Quinn, Gabriela Kleckova, 2021-03-15 Anglophone Literature in Second Language Teacher Education proposes new ways that literature and more generally culture can be used to educate future teachers of English as a second language. Arguing that the way literature is used in language teacher education can be transformed, the book foregrounds transnational approaches and shows how these can be applied in literature and cultural instruction to encourage intercultural awareness in future language educators. It draws on theoretical discussions from literary and cultural studies as well as applied linguistics and is an example of how these cross-discipline conversations can take place and thus help make second language teacher education (SLTE) programs more responsive to the challenges faced by future English language teachers. Written in the idiom of literary scholarship, the book uses ideas of intercultural studies that have gained widespread support at research level yet have not affected literature/cultural curricula in SLTE. As the first interdisciplinary study to suggest how SLTE programs can respond with curricula, this book will be of great interest for academics, scholars, and postgraduate students in the fields of applied linguistics, L2, and foreign language education, teacher education, and postgraduate TESOL. It has universal appeal, addressing teaching faculty in any third-level institution that prepares language teachers and includes literary studies in their curriculum as well as administrators in such organizations.
