Office for Subject Cataloging Policy, 2011 **Mundane Objects** Pierre Lemonnier, 2016-06-16 This concise book shows the importance of objects that are considered ordinary by cultural outsiders and scholars yet lie at the heart of the systems of thought and practices of their makers and users This volume demonstrates the role of these objects in nonverbal communication both in non ritual and in ritual situations Lemonnier shows that some objects their physical properties and their material implementation are wordless expressions of fundamental aspects of a way of living and thinking as well as sometimes the only means of expressing the inexpressible Through the study of the most mundane technical activities such as fence building creating models cars or trapping fish we often gain a better understanding of what these objects mean and how they work within their cultures of origin In addition to anthropologists and archaeologists this book will also be of interest to sociologists historians philosophers cognitive anthropologists and primatologists for whom the intertwining of function and style is the very mark of all cultural behavior *Sex and Temperament* Margaret Mead, 2001-05-22 First published in 1935 Sex Temperament is a fascinating and brilliant anthropological study of the intimate lives of three New Guinea tribes from infancy to adulthood Focusing on the gentle mountain dwelling Arapesh the fierce cannibalistic Mundugumor and the graceful headhunters of Tchambuli Mead advances the theory that many so called masculine and feminine characteristics are not based on fundamental sex differences but reflect the cultural conditioning of different societies This edition prepared for the centennial of Mead's birth features introductions by Helen Fisher and Mead's daughter Mary Catherine Bateson A precursor to Mead's illuminating Male Female Sex Temperament lays the groundwork for her lifelong study of gender differences *Catalogue of Plants in the Two Metropolitan Gardens, the Brisbane Botanic Garden and Bowen Park* Frederick Manson Bailey, 1885 **Material culture : critical concepts in the social sciences. Vol. 3 : Pt. 1** Victor Buchli, 2004 Publisher description *Cassell's Picturesque Australasia* Edward Ellis Morris, 1889 *Catalogue of Plants Under Cultivation in the Melbourne Botanic Gardens, Alphabetically Arranged* Royal Botanic Gardens (Vic.), William Robert Guilfoyle, 1883 **The Cambridge World Prehistory** Colin Renfrew, Paul Bahn, 2014-06-09 The Cambridge World Prehistory provides a systematic and authoritative examination of the prehistory of every region around the world from the early days of human origins in Africa two million years ago to the beginnings of written history which in some areas started only two centuries ago Written by a team of leading international scholars the volumes include both traditional topics and cutting edge approaches such as archaeolinguistics and molecular genetics and examine the essential questions of human development around the world The volumes are organised geographically exploring the evolution of hominins and their expansion from Africa as well as the formation of states and development in each region of different technologies such as seafaring metallurgy and food production The Cambridge World Prehistory reveals a rich and complex history of the world It will be an invaluable resource for any student or scholar of archaeology and related disciplines looking

Technological Choices Pierre Lemonnier, 2013-10-15 Technological Choices applies the critical tools of archaeology to the subject of technology and its impact on humankind throughout the ages An examination of the challenges technological innovations present to various cultures Technological Choices asserts that in any society such choices are made on the basis of cultural values and social relations rather than on the inherent benefits in technology itself Of course this revolutionary viewpoint has critical implications for contemporary Western societies Based on case studies covering a wide range of chronologies and geographies Technological Choices moves rapidly from Neolithic Europe to the modern industrial age stopping on the way to examine the tribes of Papua New Guinea rural Indian and North African societies as well as several European peasant communities The techniques studied range from the manufacture of stone implements to the development of high tech transportation devices With its breadth of subject matter and multidisciplinary approach Technological Choices offers new insight into the interrelationship between technology and society Also unprecedented is the book s emphasis on the functional aspects of material culture
