A History of the U.S. Army Nurse Corps Mary T. Sarnecky,1999-11 Traces the history of the corps since its founding in 1901 A work essential to any study of the corps or military medicine Choice **They Called Them Angels** Kathi Jackson,2006-03-01 With the insight and intimacy of firsthand accounts from some of the thousands of army and navy nurses who served both stateside and overseas during World War II this book tells the stories of the brave women who used any and all resources to save as many lives as possible Although military nurses could have made more money as civilians thousands chose to leave the security of home to care for the young men who went off to war They were not saints but vibrant women whose performance changed both military and civilian nursing Kathi Jackson s account follows army and navy nurses from the time they joined the military through their active service to their lives today They Called Them Angels presents the stories of women who lived under extraordinary circumstances in an extraordinary time women who even today bear emotional scars along with lasting pride Army Nurse United States. Years of Army Nursing Lillian Dunlap,2001 **Nurses of Australia** Deborah Burrows,2018-11-01 From the First Nation caregivers who healed birthed and nursed for millennia to the untrained and ill equipped convict men and women who cared for the sick in the fledgling colony of New South Wales nursing has been practised in Australia since the beginning It would take the arrival of a group of dedicated Irish nuns followed by Florence Nightingale trained nurses and decades of constant and continuing campaigning to transform nursing into what it is today the most trusted profession in Australia Nurses will recognise their own lived experience in stories about training days nurses quarters changing uniforms changing roles the arrival of male nurses and current pathways to nursing Produced in collaboration with the Australian College of Nursing and the Congress of Aboriginal and Torres Strait Islander Nurses and Midwives with additional information provided by the Australian Nursing and Midwifery Federation this is the story of nursing in Australia G.I. Nightingales Barbara Tomblin,2003-11-28 Weaving together information from official sources and personal interviews Barbara Tomblin gives the first full length account of the U S Army Nurse Corps in the Second World War She describes how over 60 000 army nurses all volunteers cared for sick and wounded American soldiers in every theater of the war serving in the jungles of the Southwest Pacific the frozen reaches of Alaska and Iceland the mud of Italy and northern Europe or the heat and dust of the Middle East Many of the women in the Army Nurse Corps served in dangerous hospitals near the front lines 201 nurses were killed by accident or enemy action and another 1 600 won decorations for meritorious service These nurses address the extreme difficulties of dealing with combat and its effects in World War II and their stories are all the more valuable to women s and military historians because they tell of the war from a very different viewpoint than that of male officers

Although they were unable to achieve full equality for American women in the military during World War II army nurses did secure equal pay allowances and full military rank and they proved beyond a doubt their ability and willingness to serve and maintain excellent standards of nursing care under difficult and often dangerous conditions *American Nursing* Vern L. pursue colonialism until the nineteenth century Yet thanks to recent advances in the field emphasizing transoceanic networks and cultural encounters it is now possible to develop a more nuanced understanding of the history of Germans in the Pacific The studies gathered here offer fascinating research into German missionary commercial scientific and imperial activity against the backdrop of the Pacific s overlapping cultural circuits and complex oceanic transits **Health at a Glance:**
