Brownlee, 2017-06-01 There are signs all around the world that are pointing to the tribulation period to come Within the last decade the world has seen a rise in earthquakes violent storms hurricanes and weird weather patterns and all seem to get worse as each year goes by We see monetary problems all around the world We have seen wars and heard rumors of war Drought and famine have been present in the world or the struggle of power within some nations We have seen the cruelty of man upon man in this world and how painful it is As the cup of iniquity of this world rises so is the coming judgment of this world by God Do you want to know why the antichrist will not rule the world What is the real reason behind the mark of the beast How will God send his angels to preach the everlasting Gospel for the last time Why does Jesus come on a secret mission How will Jesus the saints and angels return to the earth to save Israel The book of Revelation is jam packed with so much information and its sometimes hard to understand what it all means Simply Revelation breaks down the chapters in Revelation in a way thats easy to understand Learn what brings on the confirming of the covenant with many nations by the antichrist Understand how the two witnesses control the environment of the world in the first half of the tribulation period Simply Revelation will bring you clarity to Gods coming judgment On the Verge of a Planetary Civilization Sam Mickey, 2014-09-18 On the Verge of a Planetary Civilization presents a philosophical contribution to integral ecology an emerging approach to the field that crosses disciplinary boundaries of the humanities and sciences In this original book Sam Mickey argues for the transdisciplinary significance of philosophical concepts that facilitate understandings of and responses to the boundaries involved in ecological issues Mickey demonstrates how much the provocative French philosopher Gilles

Deleuze contributes to the development of such concepts situating his work in dialogue with that of his colleagues Felix Guattari and Jacques Derrida and with theorists who are adapting his concepts in contemporary contexts such as Isabelle Stengers Catherine Keller and the speculative realist movement of object oriented ontology The book focuses on the overlapping existential social and environmental aspects of the ecological problems pervading our increasingly interconnected planet It explores the boundaries between self and other humans and nonhumans sciences and humanities monism and pluralism sacred and secular fact and fiction the beginning and end of the world and much more The Beginning and the End Michael W. Pahl,2011-06-01 Have you ever wondered if there might be more to Genesis than fodder for anti evolutionism Or have you ever thought Revelation has to be more than simply a roadmap for the future of the Middle East You re not alone In The Beginning and the End Michael Pahl surveys the opening chapters of Genesis and the concluding chapters of Revelation taking seriously both their historical and literary features as ancient texts and their theological purposes as inspired Scripture The result is a reading of the first and last books of the Bible that sketches out from beginning to end a story of God humanity and all creation a grand narrative in which we are placed in the middle and which calls us to live in a particular way as our identity and our values are shaped in light of our origins and our destiny

Dark Skies Daniel Deudney, 2020 Dark Skies provides the first comprehensive and balanced assessment of the space enterprise past present and future It demolishes widely held optimistic assumptions about the desirability of many major space activities actual and prospective Most consequentially the hiding in plain sight use of outer space as a corridor for long range bombardment has increased the probability of catastrophic nuclear war Contrary to the widespread claim that sustainable colonies on other celestial bodies are necessary for human survival from large scale disasters on Earth Dark Skies shows that colonization itself poses many severe threats and should be avoided Instead an Earth oriented space Themelios, Volume 40, Issue 1 D. A Theology of International Development Thia Cooper, 2020-02-05 Religion and development have been intertwined since development s beginnings yet faith based aid and development agencies consistently fail to consider how their theology and practice intersect This book offers a Christian theology of development with practical solutions to bridge the gap and return to truly faith based policies and practices Development aims to raise the living standard of the world's poor mainly through small scale projects that increase economic growth A theology of liberation provided a critique to development practice but a specific theology of development is still lacking and many faith based aid agencies have failed to adapt their practice In applying theological thinking to development the author argues that aid agencies need to address the entrenchment of unequal power relations and embrace a holistic notion of development defined by the needs of those most marginalized instead of by a focus on economic growth Development organisations need to consider the distinction between charity and justice and to empower people in the Global South paying particular attention to the intersections of race class sexuality religion and the environment Overall this book is a powerful call to upend development practice as it currently exists and to return faith based organizations to following Christian practices It will be an important read for religion and development researchers practitioners and students Crystal Lotus Jinna Van Vliet, 2011-06-29 The Harmonic convergence in 1987 launched the awakening of the Mass Consciousness into the realization that human consciousness is rising into a higher frequency Coined as the Big Shift it created many guidelines to help with this transition process Crystal Lotus is just one such guide gifted to us by the Divine Feminine Creator Energy through one of her Aspects the Goddess Quan Yin Secular Schooling in the Long Twentieth Century? Merethe Roos, Johannes Westberg, Henrik Edgren, 2024-09-23 The twentieth century process of secularization does not mean that institutional church and Christian ideas were irrelevant for twentieth century societal projects such as the introduction of democracy the improvement of school and education the framing of national identities or in the establishment of welfare states On the contrary this publication is built on the presupposition that secularization runs parallell with the sacralization of the state It can be argued that Christianity has been decisive for how the modern European society evolved in the twentieth century e g concerning how Christian history and Christian values were a part of the new national and social imaginary where re enchantment and re sacralization of the state were central elements In this publication the aim is to highlight the role of Christianity in the twentieth and twentyfirst century welfare state modernization process with the focus on schooling and education A central perspective is the impact of cultural Protestantism during the twentieth century The publication is comparative and will investigate education in Norway Sweden and the Netherlands via chapters on curriculums textbooks politicians and political debates Behold, I AM Joyce Lynn Wulf.2023-11-13 It was a childlike question but the answer was as stunning as it was profound If God is light what do the primary colors of the rainbow's spectrum signify The Gospel of John declares in eight mysterious signs that God is light and Jesus Christ in the flesh was God sent to bring the light of true life to us These enigmatic signs of light semeion imply the

eight signs significance pointed to something other than what they appeared The themes of John s eight signs match the themes of the Feasts given to ancient Israel at Mount Sinai and a sequence of YHWH s covenant names Behold I AM is a rich in depth study into God's Holyday appointed times His eight Festivals of Light what they meant then what they mean today and how they are fulfilling prophecy Earthlings Adrian Parr, 2022-07-05 Silver Medal 2023 Nautilus Book Awards in the category of Ecology and Environment Amid environmental catastrophe it is vital to recall what unites all forms of life We share characteristics and genetic material extending back billions of years More than that we all from humans to plants to bacteria share a planet We are all Earthlings Adrian Parr calls on us to understand ourselves as existing with and among the many forms of Earthling life She argues that human survival requires us to recognize our interdependent relationships with the other species and systems that make up life on Earth In a series of meditations Earthlings portrays the wonder and beauty of life with deep feeling vivid detail and an activist spirit Parr invites readers to travel among the trees of the Amazonian rainforest take flight with birds and butterflies migrating through the skies and plunge into the oceans with whales and polar bears as well as to encounter bodies infected with deadly viruses and maimed by the violence of global capitalism Combining poetic observation with philosophical contemplation and scientific evidence Parr offers a moving vision of a world in upheaval and a potent manifesto for survival Earthlings is both a joyful celebration of the magnificence of the biosphere and an urgent call for action to save it
