1997 It explores the factors shaping the evolution and form of New Labour's rural agenda and assesses the impact of specific policies Contributions examine discursive restructuring of the rural policy agenda the institutional reforms and effects of devolution the key political debates and challenges around hunting agricultural reform Foot and Mouth housing development and the right to roam and review policy developments with respect to crime social exclusion and employment in the countryside rural community governance and national parks New Labour's Countryside will be of interest to students of contemporary British politics and of rural studies and to anyone involved in the government and politics of the countryside

Mega Events, Urban Transformations and Social Citizenship Naomi C. Hanakata, Filippo Bignami, Niccolò

Cuppin, 2022-07-26 This book provides theoretical and empirical perspectives on the urban impact of mega events globally It takes mega events as an instance to analyse urban transformations and their effects on citizenship With contributions from leading scholars in the field the book presents innovative and multidimensional analyses of mega events with an international selection of case studies The work provides a grounded theorisation of mega events in the first part and scrutinizes its practices and processes in the second Each chapter explores mega events as crucial drivers and accelerators of urban and citizenship transformations Rather than just focusing on a staged momentum this book takes stock of the before and after that these events imply for the urban condition This book will be of interest to students and scholars in urban studies human geography economics architecture planning sociology political science It will also appeal to professionals and policy makers engaged in the planning hosting and management of mega events

Austerity, Welfare and Work David

Etherington, 2020-09-15 David Etherington provides bold and fresh perspectives on the link between welfare policy and employment relations as he assesses their fundamental impact on social inequalities Exploring how reforms including Universal Credit have reinforced employment and social insecurity he assesses the role of NGOs trade unions and policymakers in challenging this increasingly work focused welfare agenda Drawing on international and national case studies the book reviews developments including rising job insecurity low pay and geographical inequalities considered integral to neoliberal approaches to social spending Etherington sets out the possibilities and challenges of alternative approaches and progressive new paths for welfare the labour market and social rights

British Capitalism After the

Crisis Scott Lavery, 2018-12-29 The 2008 financial crisis rocked British capitalism to its foundations More than a decade after the crash the country is still dealing with its consequences This book explores the extent to which British capitalism has been reconfigured in this tumultuous period Advancing an in depth analysis of the political economy of New Labour the Coalition and the period after Brexit the book argues that deep structural weaknesses have been re embedded within British capitalism The Coalition promised to eliminate the deficit in one parliament and to rebalance the British economy It did neither Instead real wages slumped uneven development intensified and productivity stagnated An era of volatile post crisis politics exemplified by Brexit the May government and the rise of Corbyn emerged in this context threatening the

foundations of the old order This book is required reading for students and scholars interested in the fractious political economy of British capitalism after the crisis Lavery's book on the flawed political economy of Britain's hybrid variant of capitalism after the 2008 financial crisis is a tour de force It is theoretically sophisticated historically informed conjuncturally nuanced empirically robust and provides a solid basis for analysing developments following the Brexit debacle whatever these might be Bob Jessop Lancaster University UK If you are not yet familiar with Scott Lavery's work you very soon will be as it is becoming increasingly difficult to overlook With a clear mastery of both the politics and the economics of Coalition attempts to reduce the size of the state Lavery shows with compelling precision how far and how quickly post crisis Britain travelled from New Labour's previous one nation approach to macroeconomic governance Professor Matthew Watson University of Warwick UK British capitalism was changed but not reformed after the financial crisis and its deep pathologies now find expression in political volatility and ideological polarisation In a persuasive and rich analysis Scott Lavery shows how we got to this point and what the future might hold Andrew Gamble University of Sheffield UK

Workfare States Jamie Peck, 2001-02-13 This book examines the political economy of workfare the umbrella term for welfare to work initiatives that have been steadily gaining ground since candidate Bill Clinton's 1992 promise to end welfare as we know it Peck traces the development diffusion and implementation of workfare policies in the United States and their export to Canada and the United Kingdom He explores how reforms have been shaped by labor markets and political conditions how gender and race come into play and how local programs fit into the broader context of neoliberal economics and globalization The book cogently demonstrates that workfare rarely involves large scale job creation but is more concerned with deterring welfare claims and necessitating the acceptance of low paying unstable jobs Integrating labor market theory critical policy analysis and extensive field research Peck exposes the limitations of workfare policies and points toward more equitable alternatives

Cities and Regions in Crisis Martin Jones, 2019 This book offers a new geographical political economy approach to our understanding of regional and local economic development in Western Europe over the last twenty years It suggests that governance failure is occurring at a variety of spatial scales and an impedimenta state is emerging This is derived from the state responding to state intervention and economic development that has become irrational ambivalent and disoriented The book blends theoretical approaches to crisis and contradiction theory with empirical examples from cities and regions

The Political Economy of Megaprojects in Asia Hyun Bang Shin, Dong-Wan Gimm, 2025-02-18 This book offers a comprehensive analysis of how the developmental goals of Asian states are reflected in large scale projects and how various actors both realize and challenge these goals The rise of Asian economies has spurred the proliferation of megaprojects through large scale resource mobilization necessitating varying degrees of state intervention Despite neoliberal pressures these projects remain linked to national developmental aspirations driven by domestic transnational or combined pro growth interests and serve multiple political purposes The book advances the argument that megaprojects

embody the dynamics of multiscalar strategic relations that determine the process and outcome of urbanization These projects create iconic landmarks new towns central business districts and infrastructure showcasing intertwined political and economic interests By examining contemporary megaprojects in China South Korea Taiwan India Malaysia and Turkey the contributing authors reveal the complexity of urbanizing forces and their multiscalar nature in shaping the built environment and shed light on the intricate interplay of state strategies economic needs and sociopolitical forces that influence urban landscapes This interdisciplinary work provides a nuanced understanding of the political economy underpinning Asian urbanization and contributes to ongoing debates on urban development state society relations and the production of space in the context of globalization Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Union Learning Representatives Alex Alexandrou, 2013-10-18 Trade unions have historically been involved in education and training in the workplace This activity has gained greater credence and importance in the United Kingdom New Zealand and Denmark due to the recent emergence of union learning representatives ULRs and Educational Ambassadors who are a new category of trained accredited and unpaid lay representatives based in the workplace Their key role is to give advice and guidance to colleagues in relation to professional development learning and training opportunities available These representatives work in partnership with other stakeholders namely employers and education providers to ensure that individuals can attend educational and training courses that will help them from both a personal and work perspective There are now 22 000 ULRs in the UK alone and they are playing a significant part in pushing the present Labour administration's drive to expand and improve lifelong learning to create a learning society that benefits individuals organisations and ultimately the nation and its economy They have rewritten the rules of the workplace by helping to replace distrust and adversarial relations with partnership working based on mutual respect and trust This book was published as a special issue of the *Journal of In Service Education*

Industrial Relations Paul Edwards, 2009-02-09 This is a completely revised and updated second edition of the acclaimed *Industrial Relations* The new book gives particular attention throughout to the effects of international and European developments on British *Industrial Relations*

Governing Local and Regional Economies Andrew Wood, David Valler, 2004 Over the past decade the study of cities and regions has been marked by an increased concern with institutions and their relationship to economic and political change This institutional turn has been particularly prominent in studies of local and regional economic governance This book brings together internationally renowned authors from a variety of disciplinary backgrounds to take critical stock of the field assess the merits and limits of the institutional turn and examine directions for future work Drawing together a range of theoretical and empirical contributions the book seeks to move forward the debate on institutions and their relationship to local and regional governance The individual chapters examine the theoretical underpinnings of institutionalist work the critical relationship

between institutions collaboration and local and regional economic performance as well as questions of local and regional economic governance and its politics
