New International Commodity Regime:

International Commodity Control Fiona Gordon-Ashworth, 2024-02-01 Originally published in 1984 at a time when international commodity control was brought from the periphery to the centre of international trade policy this book provided a new and more comprehensive approach to and an analytical appraisal of international commodity controls from their origins in the 1920s to their widespread acceptance as an important element in international trade policy in the 1970s The first part establishes the economic and institutional background against which controls were introduced and includes sections on a wide range of issues such as the changing structure of world commodity trade and the roles of GATT UNCTAD and the former EEC Part 2 considers the principal control mechanisms which have been used at the international level and review the national counterparts and alternatives Part 3 assesses on a commodity by commodity basis how the control worked in practice It covers all the international commodity agreements to 1982 and also considers examples of raw material cartels

The New International Economic Order Jeffrey A Hart, 1983-10-06 **The Law and Organization of International Commodity Agreements** K.R. Khan, 2024-11-25 **The Rules of the Game in the Global Economy** Lee E. Preston, Duane Windsor, 2013-11-11 This study has been long in the making and the world has changed dramatically while we have been at work We initially anticipated a substantial section on the Soviet dominated Council for Mutual Economic Assistance CMEA or COMECON which offered an interesting contrast to the kind of international business regime typically found among market oriented countries and industries As we moved toward publication the CMEA vanished and so we mention it only in passing The USSR subsequently disintegrated into a Commonwealth of Independent States CIS On the other hand we began with the assumption that the historic rule of capture no longer played a significant role in international economic relations The seizure of Kuwait's territory and wealth by the government of Iraq suggests that this assumption was heavily influenced by wishful thinking Even though this seizure has been reversed by military action the experience remains a challenge to generally held beliefs about the strength of order versus chaos in contemporary international affairs Some readers of this volume have suggested that it gives insufficient attention to the fact that many of the important business and economic regimes of the postwar period are currently under significant pressure perhaps even in danger of collapse We acknowledge that there are many evidences of strain in for example the free trade and money exchange regimes and in many areas of environmental protection

A New International Commodity Regime Geoffrey L. Goodwin, James Mayall, 1979

The Politics of International Economic Relations Jeffrey A. Hart, Joan Edelman Spero, 2013-06-17 The first and definitive book of its kind Joan Spero's *The Politics of International Economic Relations* has been fully updated to reflect the sweeping changes in the international arena With the expertise of co author Jeffrey Hart the fifth edition strengthens the coverage of political and economic relations since the end of the Cold War economic polarization in developing nations and the roots of economic decline in centrally planned economies A new chapter on industrial policy and competitiveness debates

further illustrates the changing dynamics of International Political Economy Ideal as a supplement to the International Relations course or as the core text in International Political Economy Spero and Hart s The Politics of International Economic Relations continues to give students the breadth and depth of scholarship needed to understand the politics of world economy

At the Interface David B. Small, Nicola Beth Tannenbaum, 1999 Co published with Society for Economic Anthropology SEA this volume takes a unique approach to the study of economics Rather than concentrating on a defined analytical unit it explores economics from the interface That is it examines the various kinds of relationships that can exist among and within economic units in a community and beyond The chapters treat the theme of the interface from four different perspectives intracommunity interfaces interfaces and the organization of communities extracommunity interfaces and the question of interfaces in archaeological investigations The authors address various topics related to household economy including the creation of different identities through shared labor the dialectical relationship between global forces and local producers in structuring economic contexts strategies that promote economic flexibility and environmental adaptation

Global Security Watch—Venezuela Daniel Charles Hellinger, 2012-08-17 This in depth study provides a timely assessment of how the foreign military and security policies of Venezuela shape relations with the United States in the Chavez era The growing importance of Venezuela in the global oil market along with the controversial nature of its leadership provoke concern among some world powers especially the United States whose international policies have been heavily criticized by Venezuelan president Hugo Chavez This critical look at American Venezuelan relations presents perceptions held by each government of the other and examines the sources of tensions and points of confluence between the two countries Global Security Watch Venezuela traces the political relations between the United States and Venezuela from the early roots based in Pan Americanism to the domestic and foreign policies of the Chavez regime including petro diplomacy This book provides a serious examination of the allegations about Venezuelan involvement in the drug trade terrorism and intervention the view that the unilateralism of the United States threatens world peace and the future of relations between the two countries

The Oxford Handbook of Food History Jeffrey M. Pilcher, 2012-10-16 Food matters not only as a subject of study in its own right but also as a medium for conveying critical messages about capitalism the environment and social inequality to diverse audiences Recent scholarship on the subject draws from both a pathbreaking body of secondary literature and an inexhaustible wealth of primary sources from ancient Chinese philosophical tracts to McDonald s menus contributing new perspectives to the historical study of food culture and society and challenging the limits of history itself The Oxford Handbook of Food History places existing works in historiographical context crossing disciplinary chronological and geographic boundaries while also suggesting new routes for future research The twenty seven essays in this book are organized into five sections historiography disciplinary approaches production circulation and consumption of food The first two sections examine the foundations of food history not only in relation to key developments in

the discipline of history itself such as the French Annales school and the cultural turn but also in anthropology sociology geography pedagogy and the emerging Critical Nutrition Studies The following three sections sketch various trajectories of food as it travels from farm to table factory to eatery nature to society Each section balances material cultural and intellectual concerns whether juxtaposing questions of agriculture and the environment with the notion of cookbooks as historical documents early human migrations with modern culinary tourism or religious customs with social activism In its vast interdisciplinary scope this handbook brings students and scholars an authoritative guide to a field with fresh insights into one of the most fundamental human concerns

Tin William Robertson, 2024-02-01 Originally published in 1982 this book is a survey of the world tin industry up until the late 20th Century The author used many scattered and hard to access journal sources in the course of the book's research The book gives a wide ranging picture of the world tin market and discusses factors affecting the market the behaviour of production and consumption trends and fluctuations in prices and costs the role of foreign capital and technology in an industry with a substantial degree of state ownership and growing state participation in developing countries the problems of market stabilization the adequacy of world supplies and the problems of resource conservation

The Quest For A Just World Order Samuel S Kim, 2019-07-11 In response to a growing sense of dissatisfaction with the state of the world and the state of international relations research Professor Kim has taken an alternative approach to the study of contemporary world politics Specifically he has adopted and expanded the cross cultural interdisciplinary and transnational approach developed by the World Order Models Project WOMP an enterprise committed to the realization of peace economic equality and well being social justice and ecological balance Systemic in scope and interdisciplinary in methodology The Quest for a Just World Order explains and projects the issues patterns and trends of world politics giving special attention to the attitudinal normative behavioral and institutional problems involved in the politics of system transformation Professor Kim also attempts to remedy a number of problematic features of traditional approaches including a value neutral orientation fragmentation and overspecialization overemphasis on national actors the superpowers and stability and the Hobbesian image of world politics Part 1 presents a conceptual framework for developing a normative theory of world order Each of the four chapters in Part 2 examines a specific global crisis in depth working within the framework laid out in Part 1 In Part 3 a variety of desirable and feasible transition strategies are proposed and Professor Kim assesses the prospects for achieving a just and humane world order system by the end of this century

The New Enclosures: Critical Perspectives on Corporate Land Deals Ben White, Saturnino Borrás Jr., Ruth Hall, Ian Scoones, Wendy Welford, 2013-09-13 This collection explores the complex dynamics of corporate land deals from a broad agrarian political economy perspective with a special focus on the implications for property and labour regimes labour processes and structures of accumulation This involves looking at ways in which existing patterns of rural social

differentiation in terms of class gender ethnicity and generation are being shaped by changes in land use and property relations as well as by the re organization of production and exchange as rural communities and resources are incorporated into global commodity chains It goes further than the descriptive what and who questions in order to understand the how and why of these patterns It is empirically solid and theoretically sophisticated making it a robust and boundary changing work Contributors come from various scholarly disciplines Covering nearly all regions of the world the collection will be of interest to researchers from various disciplines policymakers and activists This book was originally published as a Special Issue of the Journal of Peasant Studies

Sugar and the Making of International Trade Law Michael Fakhri, 2014-11-27 This book traces the changing meanings of free trade over the past century through three sugar treaties and their concomitant institutions The 1902 Brussels Convention is an example of how free trade buttressed the British Empire The 1937 International Sugar Agreement is a story of how a group of Cubans renegotiated their state s colonial relationship with the US through free trade doctrine and the League of Nations In addition the study of the 1977 International Sugar Agreement maps the world of international trade law through a plethora of institutions such as the ITO UNCTAD GATT and international commodity agreements all against the backdrop of competing Third World agendas Through a legal study of free trade ideas interests and institutions this book highlights how the line between the state and market domestic and international and public and private is always a matter of contest

International Political Economy Yearbook W. Ladd Hollist, 2020-01-29 The International Political Economy Yearbook will be published annually under the sponsorship of the International Political Economy Section of the International Studies Association at the Department of Political Science Brigham Young University The intent of the series is to describe and explain the structure and the dynamic operation of the international political economy and to explore their political social and economic impact on different countries be they advanced market economies newly industrializing countries or underdeveloped countries This first volume is an overview of the policy and research field of international political economy studies It explores what international political economy is what approaches and theories might broaden and deepen our understanding of the phenomena addressed what perspectives seem inappropriate or misdirected and why neither international relations scholars nor mainstream economists can any longer claim status as senior partners in the community of scholars and policymakers interested in these issues It also addresses major policy problems confronting both advanced and developing countries including commodity trade foreign investment regulation of multinational corporations food shortages and other development problems industrial crises in the United States and Europe international debt and the increased role of the state in different economies

The World Tin Market William Lee Baldwin, 1983 William L Baldwin argues that while the structure conduct and performance of the world tin industry are subject to strongly competitive market forces major intervention by international governments has exerted a controlling influence over the world tin market for the past sixty years

Global Liberalism and Its Casualties Jean Kachiga, 2008 This

work examines the premise of liberal economic principles and their promise of distributive advantages to all free market participants Professor Jean Kachiga's critique is substantiated by the lack of empirical evidence supporting the premise and promise of liberal economics to ill equipped and ill prepared market participants

Strategies to Achieve a Binding International Agreement on Regulating Cartels John Sanghyun Lee, 2016-11-24 This book addresses the lack of binding multi lateral international agreement on cartels through analysis of trials and failures It also suggests strategic approaches to overcome current standstills In addition the book contrasts international agreement on cartels with inter governmental commodity agreement which has been developed separately through international law Through this project the author puts forth that successful international law on cartels needs to reflect the interests and arguments of developing countries

Regional Security Regimes Efraim Inbar, 2012-02-01 This volume of original articles explores political and military arrangements that could lead to a more peaceful relationship between Israel and its neighbors It advocates the establishment of a security regime in the Arab Israeli region that would foster moderation and cooperation and reduce the chances of interstate violence and it investigates ways to bring about such a regime The authors demonstrate that various peacekeeping arrangements that have been somewhat successful during the Arab Israeli conflict could provide bases on which to build effective security regimes In addition they address American and UN roles arms control the impact of water issues and the effect of Arab culture Contributors to the volume include Yaacov Bar Siman Tov Gil Feiler Adam Garfinkle Aharon Klieman Robert J Lieber Charles Lipson Amikam Nachmani Shmuel Sandler and Gerald Steinberg
