New Comers To America 14001650:

German Histories in the Age of Reformations, 1400-1650 Thomas A. Brady Jr.,2009-07-13 This book studies the connections between the political reform of the Holy Roman Empire and the German lands around 1500 and the sixteenth century religious reformations both Protestant and Catholic It argues that the character of the political changes dispersed sovereignty local autonomy prevented both a general reformation of the Church before 1520 and a national reformation thereafter The resulting settlement maintained the public peace through politically structured religious communities confessions thereby avoiding further religious strife and fixing the confessions into the Empire s constitution The Germans emergence into the modern era as a people having two national religions was the reformation s principal legacy to modern Germany

English Choral Practice, 1400-1650 John Morehen,2003-10-30 These nine essays consider for the first time the day to day performing practice of English composers of choral music of the period 1440 1650

Fate and Fortune in European Thought, ca. 1400-1650 Ovanes Akopyan,2021-04-26 If the universe were conceived to fulfill a certain divine plan or to manifest God s will and glory what would the place of an individual be within this plan What is more if from the very beginning of its existence and through divine providence it were predestined to be driven toward a certain end how could people adjust their individual lives to the incognizable universal design and react to the obscure future fraught with both luck and failure These questions which have occupied humanity for centuries formed a remarkable element of early modern European thought This collection of essays presents new insights into what shaped and constituted reflections on fate and fortune between roughly 1400 and 1650 both in word and image This volume argues that these ideas were emblematic of a more fundamental argument about the self society and the universe and shows that their influence was more widespread geographically and thematically than hitherto assumed Contributors Damiano Acciarino Ovanes Akopyan Elisabeth Blum Paul Richard Blum Jo Coture Guido Giglioni Dalia Judovitz Sophie Raux Orlando Reade and John Sellars
