Care in Practice Annemarie Mol, Ingunn Moser, Jeannette Pols, 2015-02-15 In what way is care a matter of tinkering Rather than presenting care as a preferably warm relation between human beings the various contributions to the volume give the material world usually cast as cold a prominent place in their analysis Thus this book does not continue to oppose care and technology but contributes to rethinking both in such a way that they can be analysed together Technology is not cast as a functional tool easy to control it is shifting changing surprising and adaptable In care practices all things are and have to be tinkered with persistently Knowledge is fluid too Rather than a set of general rules the knowledges in the plural relevant to care practices are as adaptable and in need of adaptation as the technologies the bodies the people and the daily lives involved
