New Directions in Political History

Jeffrey D. Broxmeyer¹, Lisa M.F. Andersen², Nicholas Barreyre³, Rebecca Edwards⁴, Michael J. Lansing⁵, Allan E.S. Lumba⁶, and Tara Y. White⁷

Abstract

This roundtable takes up old themes and new perspectives in the field of political history. Scholars engage with six questions across three main categories: the scope of the field, current debates, and teaching. The first two questions ask how we should think about political power and the boundaries of what constitute political history. The section on current debates interrogates the relationship between governing and social movements during the GAPE, and how to situate the political violence of the January 6, 2021, Capitol Hill riot in historical perspective. The final section on teaching takes up two very different challenges. One question is a perennial concern about connecting with students in the classroom about political history. The other dilemma is how to respond to the growing cascade of censorship laws passed by state legislatures that prohibit the teaching of so-called “divisive concepts.”

Keywords: Political History; Historiography; Social Movements; Imperialism; Teaching

Introduction

This roundtable arrives in the wake of political crisis in the United States. On January 6, 2021, an angry mob stormed Capitol Hill to prevent the peaceful transition of power after the 2020 presidential election. That use of political violence followed a decade in which the country has reeled from one crisis to the next. A partial list includes lengthy government shutdowns, legislative brinkmanship over the country’s debt limit, a formal declaration of national emergency over immigration, and two presidential impeachments.
