Blits,2009-01-01 New Heaven New Earth is a philosophical study ofAntony and Cleopatra Showing that the play is as much a history play as a love story it closely examines Shakespeare s presentation of the transition from the pagan to the Christian world from the aftermath of the collapse of the Roman Republic and the decline of the pagan gods to the emergence of the Roman Empire and the conditions giving rise to Christianity      *Charting the End Times* Tim LaHaye,Thomas Ice,2001-09-01 Bestselling author Tim LaHaye and prophecy expert Thomas Ice teamed up to produce a visual resource unmatched by anything available in the Christian book marketplace The result of decades of careful research and Bible study the charts and well written explanatory text provide a fascinating picture of the times ahead Charting the End Times includes A foldout portraying God s complete plan for the ages More than 50 full color charts and diagrams Timelines of the end times A comprehensive overview of the key elements of the last days Clear answers to tough end times questions Providing a wealth of information this book is certain to become a popular study tool for understanding God s unfolding plan      *A New Heaven, A New Earth* Bergant, Dianne,2016-02-09

*A Compendium of the Theological and Spiritual Writings of Emanuel Swedenborg* Emanuel Swedenborg,1854      *A New Heaven and a New Earth* Charles Brodie Patterson,1909      *The Sacred Theory of the Earth (Complete)* Thomas Burnet,1907-01-01 Since I was first inclin d to the Contemplation of Nature and took Pleasure to trace out the Causes of Effects and the Dependance of one thing upon another in the visible Creation I had always methought a particular Curiosity to look back into the Sources and Original of Things and to view in my Mind so far as I was able the Beginning and Progress of a Rising World And after some Essays of this Nature and as I thought not unsuccessful I carried on my Enquiries further to try whether this Rising World when form d and finish d would continue always the same in the same Form Structure and Consistency or what Changes it would successively undergo by the continued Action of the same Causes that first produc d it and lastly what would be its final Period and Consummation This whole Series and Compass of Things taken together I call d a Course of Nature or a System of Natural Providence and thought there was nothing belonging to the external World more fit or more worthy our Study and Meditation nor any thing that would conduce more to discover the Ways of Divine

Providence and to shew us the Grounds of all true Knowledge concerning Nature And therefore to clear up the several Parts of this Theory I was willing to lay aside a great many other Speculations and all those dry Subtilties with which the Schools and the Books of Philosophers are usually fill d But when we speak of a Rising World and the Contemplation of it we do not mean this of the Great Universe for who can describe the Original of that vast Frame But we speak of the Sublunary World this Earth and its Dependencies which rose out of a Chaos about Six Thousand Years ago And seeing it hath fallen to our Lot to act upon this Stage to have our present Home and Residence here it seems most reasonable and the Place design d by Providence where we should first employ our Thoughts to understand the Works of God and Nature We have accordingly therefore design d in this Work to give an Account of the Original of the Earth and of all the great and general Changes that it hath already undergone or is hence forwards to undergo till the Consummation of all things For if from those Principles we have here taken and that Theory we have begun in these two first Books we can deduce with Success and Clearness the Origin of the Earth and those States of it that are already past following the same Thread and by the Conduct of the same Theory we will pursue its Fate and History thro future Ages and mark all the great Changes and Conversions that attend it while Day and Night shall last that is so long as it continues an Earth By the States of the Earth that are already past we understand chiefly Paradise and the Deluge Names well known and as little known in their Nature By the future States we understand the Conflagration and what new Order of Nature may follow upon that till the whole Circle of Time and Providence be compleated As to the first and past States of the Earth we shall have little help from the Ancients or from any of the Philosophers for the Discovery or Description of them We must often tread unbeaten Paths and make a Way where we do not find one but it shall be always with a Light in our Hand that we may see our Steps and that those that follow us may not follow us blindly There is no Sect of Philosophers that I know of that ever gave an Account of the Universal Deluge or discover d from the Contemplation of the Earth that there had been such a Thing already in Nature Tis true they often talk of an Alternation of Deluges and Conflagrations in this Earth but they speak of them as Things to come at least they give no Proof or Argument of any that hath already destroyed the World As to Paradise it seems to be represented to us by the Golden Age whereof the Ancients tell many Stories sometimes very luxuriant and sometimes very defective For they did not so well understand the Difference betwixt the new made Earth and the present as to see what were the just Grounds of the Golden Age or of Paradise though they had many broken Notions concerning those Things as to the Conflagration in particular This hath always been reckon d one amongst the Opinions or Dogmata of the Stoicks That the World was to be destroyed by Fire and their Books are full of this Notion but yet they do not tell us the Causes of the Conflagration nor what Preparations there are in Nature or will be towards that great Change And we may generally observe this of the Ancients that their Learning or Philosophy consisted more in Conclusions than in Demonstrations they had many Truths among them whereof they did not know themselves the Premises or the Proofs Which is an Argument to me that the Knowledge they had

was not a Thing of their own Invention or which they came to by fair Reasoning and Observations upon Nature but was delivered to them from others by Tradition and ancient Fame sometimes more publick sometimes more secret These Conclusions they kept in Mind and communicated to those of their School or Sect or Posterity without knowing for the most part the just Grounds and Reasons of them      *The Sacred Theory of the Earth* Thomas Burnet,1753      **Plain Thoughts on the Sealed Book** James Smith (of 2 Craignestock Place, Glasgow.),1872      A Deeper Look into the Book of Prophecy Pasquale De Marco,2025-07-24 In this comprehensive guide we delve into the fascinating world of biblical prophecy unlocking its mysteries and revealing its profound relevance for our lives today From the enigmatic visions of Daniel to the apocalyptic revelations of John we explore the key prophecies that have shaped human history and provide a glimpse into the future Dive into the intricate timeline of prophecy tracing the rise and fall of empires and the unfolding of God s plan for humanity Unravel the symbolism of the two beasts of Revelation the mark of the beast and the identity of the Antichrist Discover the signs that herald the end times including wars earthquakes famines and the persecution of believers Examine the prophecies of Jesus regarding his second coming the judgment of nations and the establishment of his eternal kingdom Through in depth analysis and clear explanations we uncover the meaning of these prophecies and their implications for our faith and daily lives Learn how to apply prophecy to your own life living in light of eternity and preparing for the future that God has promised Whether you are a seasoned Bible student or new to the study of prophecy this book will provide you with a deeper understanding of God s plan for the ages and inspire you to live a life of faith and hope Join us on this illuminating journey into the realm of prophecy where the future unfolds before our very eyes If you like this book write a review      *The Westminster Handbook to Evangelical Theology* Roger E. Keathley, 3rd,1999      *Life-Study of Revelation* Witness Lee,1984-05-01 In the Lord's recovery during the past five hundred years the church's knowledge of the Lord and His truth has been continually progressing This monumental and classical work by Brother Witness Lee builds upon and is a further development of all that the Lord has revealed to His church in the past centuries It is filled with the revelation concerning the processed Triune God the living Christ the life giving Spirit the experience of life and the definition and practice of the church In this set Brother Lee has kept three basic principles that should rule and govern every believer in their interpretation development and expounding of the truths contained in the Scriptures The first principle is that of the Triune God dispensing Himself into His chosen and redeemed people the second principle is that we should interpret develop and expound the truths contained in the Bible with Christ for the church and the third governing principle is Christ the Spirit life and the church No other study or exposition of the New Testament conveys the life nourishment or ushers the reader into the divine revelation of God's holy Word according to His New Testament economy as this one does
