The Greening of Religion Jonathan Leader Editor, 2018-02-27 Some have said the America is the most religious industrialized country in the world 6 The power of politics driven at least in part by religious concerns was demonstrated dramatically in the November election But are people at this grassroots level the ones most likely to suffer the consequences of political deafness regarding climate change do they really understand the truth of the approaching environmental storm If not perhaps they will best learn new ways of thinking and living from those whom they hold in highest

regard their religious leaders thinkers teachers writers and communicators With The Greening of Religion we hope to have added to a life saving public conversation perhaps even started some conversations And we hope those conversations will lead to actions which can shelter us from the inevitable and perhaps turn us from calamity even here at the last minute
